Pays Bett

It pays better now than it ever did before. Farmers are becoming educated to the principle of efficiency. A farmer could always make a living, but the farmer who MAKES MONEY-and every farmer can-is the one

who opens his eyes to the new methods, the improvements, the better ways of doing things. On the most prosperous farms the boss will not waste

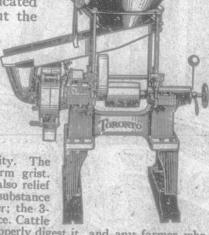

This is the most up-to-date his time doing work which can be done by an engine. The Engine on a farm is the GREATEST MONEY MAKER.

This is the most up-to-date

on the market with many co-improvements and conveniences. improvements and conveniences.

The low, solid frame gives stability. The plates give an even, steady, uniform grist.

Special plate-control saves plates, also relief spring prevents injury if foreign substance gets between plates. Large hopper; the 3-bushel capacity is a great convenience. Cattle must have their grain crushed to properly digest it, and any farmer who has not a grinder should write at once for our catalogue and price list.

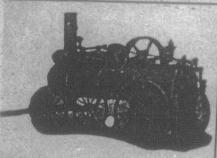

ENGINES

We have been many years in the gasoline engine business and have from time to time shifted models as improvements came upon the market. We are especially proud of the unequalled advantages of the Toronto Engine. It combines strength, stability, ampe horse-power and fuel saving. It will run on either coal-oil or gasoline. The price is surprisingly low. It's a money-saver and a money-maker.

SAWS We are headquarters for the above lines of farm machinery. Get our catalogs and prices. Write for them now.
