

What does a breakdown cost?

Threshing is a short-season business. Every day counts. If you miss a day or two, or even part of a day during the threshing season, you lose a part of your profits, with no chance to make it up again.

But that's only one loss. You have a gang of men on high wages. They are idle if you have a breakdown.

Then there's the cost of the repairs.

Altogether, breakdowns are very expensive for a thresherman. That's why it pays to get good machinery at the start, and that's why we build our machines with such great over-strength in every part. That's why we choose the highest grade of material. That's why we are so particular about the workmanship that goes into "The First Quality Line."

For two generations we have made a specialty of Threshing Machinery, and have won the reputation of producing high-grade machinery. It is to your interest to see the White Threshing Machines and White Tractors before you make your investment.

"THE FIRST QUALITY LINE"

Water Where and When You Need It

Water is One of Life's Three Essentials—FREE Wind Power will Pump Water Anywhere on Your Farm

Running water you can have on your farm. Toronto Windmills make it possible.

—because they use FREE power—no operating cost.

—because they are BETTER windmills—staunchly built and scientifically designed. No expense beyond an occasional oiling. Quiet in operation. They give a lifetime of service. They have brought wind power back into favor.

Toronto Pumps and Toronto Water Systems give you all the advantages of city water service. We can arrange a system with a Toronto Windmill; a Toronto Gasoline Engine, or a Toronto Electric Motor.

You will be interested in our literature on Windmills, Pumps and Water Systems. It is sent free. Mail us a postcard now—before you forget.

Your Part of 250,000,000 Bushels of Wheat

FARMERS of Canada will endeavor to produce 250,000,000 Bushels of Wheat in 1919. With such a crop the use of the Grain-Saving Wind Stacker will save at least 2,500,000 bushels that would otherwise be lost—a cash gain to farmers of several millions of dollars.

The Grain-Saving Device Originated With The Indiana Manufacturing Company, Indianapolis, Ind., Who Also Originated the Wind Stacker

Get your share by insisting that the machine which threshes your grain is equipped with the Grain-Saving Stacker.

This improved stacker returns to the separator the grain blown to the stack in the ordinary process. It saves more than enough to pay the threshing bill.

Get the facts from any one of the makers of North America's standard threshing machines. Many of these are also familiar to you as makers of the leading tractors and farm implements.

View looking into hopper showing grain trap near stacker fan; also auger running from beneath trap for returning the saved grain to separator.

Kelsey Ball-Thrust Bearings for Ford Cars

will save your differential gears and make your car run smoothly. The Kelsey Ball-Thrust saves four times their cost. Ask your supply man about them—Tell him to put them in your Ford.

Further, equip your Ford car with

Kelsey Demountable Rims

You can then carry a spare tire on the extra rim, and in case of tire trouble the change can be made in a jiffy. The complete outfit supplied by Ford Service Garages everywhere.
