INCENDIARISM.—The *Acadian Recorder* of last Saturday, gives the following statement respecting the diabolical injury inflicted upon the Hon. W. A. Black, by some miserable miscreant, the frustration of whose first attempt seems only to have rendered him more careful to secure the success of his evil design. There is not the slightest ground, we fear, for supposing that the fire could have had an accidental origin.

"This morning about 1½ o'clock our city was aroused from its slumbers by the alarm of fire.—The out-buildings of the Hon. W. A. Black, at North End, were found to be in flames. The South West wind was blowing almost a hurricane at the time; and the fire spread so rapidly, that, in spite of all the efforts that could be made to suppress it by the firemen and others, the whole of the barns, stables, coach-house, and other outbuildings belonging to the premises, with the exception we believe of a small root house which had been partly destroyed by the fire of the 29th ult., were destroyed. Two cows, a large quantity of hay, vegetables and other garden produce, with much other valuable property, were also lost. Mr. Black's beautiful garden too, which has long been the admiration of passers by, was well nigh ruined, owing to its near vicinity to the fire. There happened to be a ball at Admiralty House, and the first alarm brought all the naval officers, from the Admiral to the youngest Midshipman, to the scene of the fire. As the night was a fearful one, the wind blowing a gale and the rain pouring in torrents, these gentlemen, in their ball costume, soon appeared in even a more sorry plight than the firemen and other citizens who had been turned out of their beds. The venerable proprietor of the burning buildings might have been seen, in the midst of the storm, oftentimes knee deep in mud, assisting with his own hands to move and work the engines. The firemen and others who had aided in the attempt to put down the fire, were taken into his house and provided with refreshments.

We believe that no doubt rests in anybody's mind that this is the work of an incendiary; and it is the second attempt that has been made, within less than three weeks, to burn Mr Black's buildings. This time the infernal attempt has been only too successful. Mr. Black is, without exception, the very last man in Halifax whom we should have supposed could have an enemy whose animosity would lead him to perpetrate such an act. His spotless integrity, generous and kindly heart, have won for him the affection and esteem of all classes in the community; but it seems that there is some villain with whom such estimable qualities count as nothing. Mr. Black's case excites very general sympathy; and every one seems to join in the earnest wish that the author of his misfortune may be discovered and brought to justice."

A NOVASCOTIAN IN THE IMPERIAL SERVICE.—The long vacant British Consulate of New York has at length been filled. We are glad to be able to state that this important and highly remunerative post has been given to the Hon. Edward M. Archibald, late the Attorney General of Newfoundland, and a native of Novascotia. The new Consul, a few weeks since, removed from the city and took up his residence at New York, to be prepared to enter upon his official duties. Mr. Archibald is a gentleman whom we believe we may say possesses the universal esteem of an unusually large circle of acquaintance in the Provinces and in England, an esteem which he has gradually won through many years of perplexing, often varied, but always laborious public life. We cannot doubt but that in his new capacity he will, by the strict integrity, excellent business abilities, and suavity of manner which are characteristic of him, do credit to the Government which he represents. Certainly an appointment could not have been made more acceptable to the people of British America, or at least of the Lower Provinces.—*Recorder.*

GREAT STORM.—After several weeks of delightfully mild and serene autumnal weather, we have been visited by a storm of unusual severity. It commenced on the night of Thursday last, during all of which the wind blew with excessive violence from the South and South West, and was accompained by heavy rain. In the forenoon of the following day, the gale abated, but the weather still appeared threatening. In the evening flashes of lightning were frequent and the gale recommenced early from the old quarter. The wind and rain continued for most part of the night with as great violence as on the previous night. This storm has disabled most of the telegraph lines in the province, so that we have as yet had no intelligence of its effects upon distant parts of our coast; but it is to be feared that we shall soon hear distressing accounts of its ravages among the shipping.—*Ib.*

THE SIGNAL STATION.—The last *Royal Gazette* contains a correspondence by which it appears that the Secretary at War has resolved not to allow the Signal Station at Fort George Halifax to be kept up at the expense of the Imperial Government any longer than the last of January next, The Colonial authorities will, however, be allowed to keep up the Signal Station as at present, but at their own expense. Our merchants and citizens have certainly no cause to complain of this decision.—*Ib.*

New Brunswick.

Between 7 and 8 o'clock yesterday morning two barns, together with all the out-buildings on the place belonging to Robert Jardine, Esq, on the Marsh Road, were consumed by fire. The fire engines were early on the ground, and with great difficulty saved the cottage. The barns were large, containing some 80 tons of hay, in addition to a quantity of grain and other produce. Loss said to be not less than £500, and no insurance.—*Visitor.*

Our young townsman, Mr. Fraser, son of the late Dr. Fraser, and grandson of Mr. Needham, is in the very midst of the turmoil in India, and holding, as he does, the honorable position of commanding Gen. Havelock's personal escort, must already have borne a distinguished part in the most important actions of the war.—*Fredericton Reporter.*

The Railway from St. Andrews to the Barberdam, a distance of forty miles, was opened for traffic on Thursday last. There was no accident, and every thing passed off well.—*Religious Iteligence.*

The *St. John Leader* says:—"We understand that in future the Government will draw specie from England instead of bills. The coffers of all the banks have likewise been stifly replenished to meet any demand that might be likely to be made upon them. We are told by those who ought to know that there is more specie now in the city than there has been for many years. As the paper currency has been very largely decreased, this strength of gold is the best guarantee the public could have of the sound state of our banking institution."

Canada.

DEATH OF SADLER.—This, the third known victim of the Popish riots of the 12th and 13th of July, expired on Sabbath last. We say Popish riots, for the violence was all on one side—there was no violence whatever offered by Protestants—and we say known victim, for who can say how many there were of mothers and young children, who have already sunk under the terrors of those nights, or who will never get the better of them? Sadler, in the discharge of the responsible and benevolent public duty of a fireman, went with his company to extinguish a fire kindled by Popish malice. There, the fire company were driven off the ground by a mob, and on their retreat several of them were most cruelly maltreated. Sadler was one of these, and after lingering a while in great distress, he has sunk under the injuries or that night. And there is neither law nor redress for all this. Truly we begin to think that this is, as the *True Witness* boasts, a Roman Catholic city. The blood of three useful and worthy fellow-citizens cries from the ground, but it may cry in vain, as far as the general of civic government is concerned. Nay, some of the members of the latter could identify many individuals of the mob which committed the murders, for they take credit to themselves for having remonstrated with these rioters at the time, and they know them well; but will they identify one?

Neither the general nor civic government have yet offered any reward for the conviction of those who were guilty, as every one knew, of the following crimes on that occasion:—

ARSON, in burning Douglas' Mills.

MURDER, in bringing about the death of three individuals at least, by means of their lawless violence.

TREASON against the peace and prosperity of the city, in setting the laws at defiance, sacking a house, and driving fire companies, by violence, from the discharge of their duty.

How long are such things to go on with impunity in Canada?—*Montreal Witness.*

CANADIAN BANKS.—It is a gratifying circumstance, that whilst the richest and the oldest Banks in New York, in the New England States and everywhere in the West, are distrusted, and in many instances run upon, the Canadian Banks brave the commercial storm without a single suspicion of their stability or their honor. In many parts of the West, at this moment, there are but two descriptions of current money at a premium; namely, specie and Canadian Bank bills. In Chicago, the man who has Canada money in his possesson, has what is known to be good, though the people know little of Canada. The reputation of the country is literally heralded by its Banks. In Buffalo Canadians bills are sought after by the people who wish to travel West or East; for they are the "other specie," as they call it, in circulation.—*Toronto Colonist.*

United States.

NEW YORK CITY BANKS.—The course of the New York City banks amounts to a practical suspension. No checks are paid in specie, and in most cases they are merely marked "good."

IMPORTS AND EXPORTS OF THE UNITED STATES.—The imports and exports for the fiscal year 1857 are published in the Washington *Union* of Monday morning. We have imported, exclusive of specie, $348,400,000 and have exported, exclusive of specie, $293,812,222 To supply the deficiency, we have exported $57,000,000 of specie more than we have received from abroad. The total value of imports and exports for the year is $723,832,285.—*Advercate & Journal.*

KANSAS AND THE UNION.—Mr. Calhoun, who was chosen to preside over the constitutional convention of Kansas, made a somewhat remarkable address to that body on assuming the chair. The following is a passage from it:—

"The people of Kansas assume the right to settle the question of slavery for themselves; and it is that which produces the difficulties, not merely here in Kansas, but throughout the Union. That difficulty must be settled by your deliberations. I think that the character of the members of this convention over which I have the honor to preside, ought to give to the world the assurance that their deliberations will result not merely in the settlement of difficulties here, but in the settlement of the question as to whether the Union will continue, and as to whether that party which is employing its treasure, its men and its money to keep this an open question till the next presidential contest, will stand or fall. If the Union stands that party goes by the board. If that party triumphs this Union cannot live.

Mr. Calhoun, we apprehend, attaches more importance to the local struggle in Kansas than belongs to it. It is not probable that the continuance or the disruption of the Union depends upon the deliberations or decisions of the members of the constitutional convention in Kansas. The declaration that if the free state party succeeds the Union cannot live is unworthy of the good sense and the impartiality that should distinguish the presiding officer of such an assemblage.—*N. Y. Spectator.*

Periodicals Received.

We welcome the reappearance of the *North British Review*, Messrs Leonard Scott & Co's. reprint of which we have received through Mr. FULLER, of the American Book Store, the agent here. The publication of the "North British" was for a time suspended, in order that steps might be taken to relieve it from those tendencies which it had in some late numbers indicated, and place it under such management as would secure confidence in its future defence of evangelical doctrine. The present number argues well. Here is the list of its varied and valuable contents:—1. Bacon's Essay's,—Whately; 2. Isaac Watts; 3. French treatment of Criminals; 4. Interior China; 5. Scottish Lunacy Commission; 6. English Metrical Critics; 7. The Marriage and Divorce Bill; 8. Early Christian Songs in the East and West; 9. Inspiration; 10. The Indian Crisis.

From the same house we have received the EDINBURGH REVIEW for July, which contains able papers under the following heads:—1. The Confraternity of La Salett; 2. De la Rive on Electrical Science; 3. Marshal Marmont's Memoirs; 4. Social Progress of Ireland; 5. The License of Modern Novelists; 6. Merivale's Romans under the Empire; 7. Goethe's Character and Moral Influence; 8. Schoelcher's Life of Handel; 9. Representative Reform.

BLACKWOOD'S MAGAZINE, of which too we have to acknowledge the recept, contains some excellent papers.

Messrs Scott & Co's. advertisement appears in another column, and to this we direct attention as to their terms.

Culpable Negligence.—We are satisfied that in most cases where coughs end in Consumption a timely resort to some potent yet simple remedy, like Wistar's Balsam of Wild Cherry, would have saved the life and health of the patient.—*Comm.*

Chilblains.—This painful affection may be easily cured by a few applications of Perry Davis' Vegetable Pain Killer. It is equally effectual in curing scalds, burns, &c. No family should be without it.—*Comm Oct.* 22 2w.

A WONDERFUL DISCOVERY.—Medical science can now claim an antidote for the Head-ache and Neuralgia, in Dr. Hutchins' Head-ache Pills. They are a sure and speedy remedy, and we would recommend them to those who suffer with head-ache, from whatever cause. Sold by all druggists throughout the country.—*Hartford Courant.*

INTERESTING TO THOSE SUFFERING FROM HEADACHE.—A certain remedy found in Dr. M'Lane's Celebrated Liver Pills, prepared by Fleming Bros. of Pittsburgh.—The following is a sample of certifiates received daily from our own citizens:—

NEW YORK, August 1, 1852.

This is to certify that I have been subject at times to severe headache; sometimes the pain would be so severe I could rest neither day or night. Hearing of Dr. M'Lane's Celebrated Liver Pills, prepared by Fleming Bros., I sent and got a box, of which I took two pills, on going to bed, for two nights. They relieved me entirely. Some time has now elapsed, and I have had no more trouble from sick headache.

M. JOHNSTON, 118 Lewis street.

Purchasers will be careful to ask for Dr. M'Lane's Celebrated Liver Pills, manufactured by Fleming Bros., of Pittsburgh, Pa. There are other Pills purporting to be Liver Pills, now before the public. Dr. M'Lane's genuine Liver Pills, also his celebrated Vermifuge, can now be had at all respectable drug stores. *None genuine without the signature of* FLEMING BROS

DR. SANFORD'S LIVER INVIGORATOR IS THE name of a medicine invaluable to invalids or those troubled with Liver Complaint, Jaundice or General Debility, with derangement of the system or loss of appetite. It has one peculiarity, not common to most medicines, that is, the Doctor only recommends it for the cure of Liver Complaint or such diseases as arise from a disordered Liver, and how well it bears the recommendations given is known to all who use it. We never have known a medicine of any kind to perform such astonishing cures as have been by the Invigorator. It seems to strengthen and invigorate the whole body, increasing the vital energy and give a flow of health to many whose ills were considered incurable. We can recommend it knowingly, as a family medicine, for it has been our best friend in many an hour of sickness. We wish all to try this remedy and satisfy themselves.—*York Gazette.*

COMFORT FOR THE AGED.—The *Montreal Transcript*, speaking of Wistar's Balsam of Wild Cherry, June 19, says,—"We believe it to be generally recognized as a useful medicine by medical men, and we can state, with perfect truth and sincerity, that in one of an old gentleman, at least eighty years of age, residing a few miles from this city, and who is troubled at times with an asthmatical complaint—the most decided relief is obtained whenever he makes use of the Balsam; this, at the advanced period of life which he has arrived at, may be considered an unanswerable proof of its virtues."

R.R.R.—What a blessing it is to the human race, to feel secure against the sudden attacks of prevailing pestilences. If Cholera breaks out among us, we know that in Radway's Ready Relief, we have a preventive and a cure. If Dysentery or Diarrhœa, or Cholera Morbus, or any other painful maladies of the stomach or bowels, Radway's Ready Relief, assisted with Radway's Regulators, which are a mild, aperient cathartic, healing the bowels if sore, raw or ulcerated, cleansing the intestine from all excrements, and expelling all poisonous deposits from the system, correcting and regulating the organs of the body—thus, in a few hours, frees the system from all dysenteric material, and restore the system to ease, health and comfort. If Pneumonia or Lung Fever, Typhus, Bilious, Spotted, or Yellow Fever prevails, bear in mind that those who will use Radway's Ready Relief will be secure. No one need fear death by these pestilences who will fortify their bodies and regulate their systems with Radway's Relief and Regulators. If the body is covered with Boils, Sores, Ulcers, Pimples, Blotches, and frightful Eruptions, a dose or two of Radway's Renovating Resolvent will cure all sores, and make the skin smooth, clear and healthy. It will fill the veins with rich, pure and healthy blood, and eradicate disease from the system. Bear in mind the three great remedies, to be used are Radway's Ready Relief, Radway's Regulators and Radway's Renovating Resolvent.

The greatest preservative of beauty known to modern science, is Professor Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, are a luxuriant head of hair and a fine complexion; both of which should be guarded as sacred treasures, for either may be lost by neglect, or preserved by the use of the above named article; delay is dangerous. We seldom undertake, editorially, to endorse what are called "Hair Restoratives," as knowing full well that the great majority of such preparations are entirely worthless. Exceptions there are, nevertheless, and among these we have never hesitated to express our conviction that the article known as "Wood's Hair Restorative" is entitled to a proud pre-eminence. This article has told its own story in numberless instances of prematurely gray and bald heads, and the certificates in regard to its amazing efficacy have been alike numerous, unsolicited, and emphatic.—When Senators of the United States and others (of the highest standing socially and politically) openly declare that "Wood's Hair Restorative" is all, and more than all, it pretends to be, we cannot do otherwise than believe them The article can be had at all our druggists. See notice elsewhere.—*Rahway Republican.*

INFLAMATION OF THE EYES.—Like all other inflamation, is caused by impurity of the blood, which causes all eruptive diseases, as Salt Rheum, Scurvy, Boils, Sores, Ulcers, &c. The blood being unhealthy, and of an impure nature, also occasions Dropsies The blood becoming obstructed in the veins, the watery part of the blood in consequence is thrown out from their extremities, and dropsy is the result. Many times it is occasioned by improper treatment of some former disease, and the vessels being filled by serious humors instead of blood. Free evacuations by these pills, open the passage into the bladder and carry off the corrupted humors, and renew them with pure and healthy blood, which will drive out of the body all inflamation, together with eruptions, of the skin, and all dropsical complaints. They will be a shield to every form of disease to guard and keep you from the cold grasping hand of death, and cause life and strength to remain, and the countenance to brighten with the bloom of beauty and health. October 8, 4w.

TO THE AFFLICTED.—I deem it a duty I owe to society, especially to the afflicted, to offer this testimonial in favor of that estimable medicine—"Perry Davis' Pain Killer." When passing through Galena, some two weeks ago, I purchased at your agency a 25 cent bottle. I was then suffering from a severely bruised hand; I applied it in the store, and was astonished at the almost instantaneous relief. Before I left the store the inflamation was removed, and in less than an hour the pain ceased. In two days my hand was well as ever. Finding it to be really a remedy, I determined to try its effects as a curative for the Piles, to which I have been a martyr for years.—After five dressings, my piles were among the things that had been; I am now entirely free from them, and in as good health as ever I was in my life. I have recommended the Pain Killer to others, and always with good effect. Several of the captains of the upper river boats carry with them a constant supply, and consider it one of the most valuable medicines ever discovered.

I am, dear sir, respectfully yours,
JOSEPH O. MARTIN.

REPRINT OF THE

BRITISH PERIODICALS

AND THE

FARMER'S GUIDE.

GREAT REDUCTION IN THE PRICE

OF THE LATTER PUBLICATION.

L. SCOTT & Co., NEW YORK, continue to publish the following leading British Periodicals, viz:

1. THE LONDON QUARTERLY, (Conservative.)
2. THE EDINBURGH REVIEW, (Whig.)
3. THE NORTH BRITISH REVIEW, (Free Church.)
4. THE WESTMINSTER REVIEW. (Liberal.)
5. BLACKWOOD'S EDINBURGH MAGAZINE, (Tory)

These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As Organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they have ever stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British publishers give additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

THE FARMER'S GUIDE

TO SCIENTIFIC & PRACTICAL KNOWLEDGE.

By HENRY STEPHENS, F.R.S., of Edinburgh, and the late J. F. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.

This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the Publishers have resolved to reduce it to

$5 FOR THE TWO VOLUMES!

When sent by mail (post paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post paid) $6.

☞ *This Work is* NOT *the old "Book of the Farm."*

Remittances for any of the above publications should always be addressed, post paid, to the Publishers.

Cramp and Pain Killer.

THE world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the Cure of Spinal Complaints, Cramp in the Limbs and Stomach, Rheumatism in all its forms, Bilious Colic, Burns, Sore Throat, and Gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine, is on circulars in the hands of Agents.
