## Public School PHYSIOLOGY AND TEMPERANCE!

By WM. NATTRESS, M.D., M.R.C.S., Eng.  
Cloth, illustrated, 25 cents

In this exceedingly well prepared text-book the author deals in successive chapters with The Skeleton, The Bones, The Muscles, The Skin, Digestion, Circulation, Respiration, The Nervous System, The Special Senses, First Aids to the Sick and Injured, How to Prevent Disease, Physical Exercise. At every step in the study the pupil is confronted with the evil effects of alcohol and tobacco, the dangers accompanying their use, and the tremendous risk of tampering with such powerful agents of destruction. The illustrations have been well chosen, and add greatly to the appearance and usefulness of the book. This little work will be found exceedingly useful in the home. There are many homes not represented in the schools where this book, carefully studied, may save many doctor's bills, and conduce to the general health.
