## It is well-known

That successful Doctors read all the latest medical books and papers and go abroad occasionally to study. Successful lawyers read legal publications to learn the latest legal decisions and points constantly cropping up. Teachers, clergymen, druggists, architects, all read the publication issued in the interests of their profession. They must do so to keep up with the times.

The same applies to grocers and general merchants. They must not only read the best papers published in their interests but must also watch the advertisements closely. There they learn the rise and fall in prices; latest trade news and methods of buying, handling and selling goods, so that they may make the greatest profit. A doctor reads much that he already knows, so does a lawyer. So does a number of any of the other professions. So will a merchant. It is often the issue of the paper he misses that is worth dollars to him. His best and safest policy, therefore, is to subscribe for his trade paper.

The only exclusively grocery and general store paper is **THE CANADIAN GROCER** issued weekly, subscription price \$2.00 per year.
