MASKED MEN DO IT Think There is Secret Society Organized to Mete Out "Justice"

DALLAS, Tex., July 19.—Five instances of individuals being tarred and feathered or whipped by masked men in widely separated sections of the South on Saturday and Sunday nights had been reported today.

Besides Richard Johnson, 63 years old farmer who was whipped near Warrensburg, Mo., it was disclosed today, the other victims were Mrs. Beulah Johnson, at liberty under bond on a bigney charge, who was taken from a hotel porch in Tusheta, Texas, by masked men in automobiles, removed to the country, divested of her clothing and tar and feathers applied; after her bondsmen withdrew and she was placed in jail; the Rev. Philip S. Irwin, Episcopal Church, whipped and tarred and feathered near Miami, Fla., and warned, he alleged, that he would be lynched if he did not stop preaching social equality to negroes among whom he has charge of mission work of his church in south Florida; R. P. Scott of Deweyville, Texas, who was tarred and feathered near Beaumont, Texas, while motoring with two women and a man named McKnight, who was reported to have been whipped near Timson, Texas.

In most of the white capping cases reported, the assailants wore white uniforms, masks and head gear which Scott described as "conical shaped headpieces."

CONSISTENT RECORD OF PORT HOPE RINK

Port Hope, Ont., July 19.—What is believed to be a record in lawn bowling has just been achieved by a Port Hope rink, skipped by F. L. Ergwa, who won the Gillespie Trophy at the Peterboro' tournament this year for the third time, Brown had had the same rink at Peterboro for the last three years, and they have been successful in winning the Gillespie Trophy each time. They were defeated last year and the year before in the Stratton Trophy by R. J. Wray of Belleville in the semi-final by a single shot, and Wray won the Stratton on both occasions. This year Wray fell by the wayside, while Brown suffered defeat at the hands of Hobbs of Oshawa, in the Stratton Trophy by a single shot. The Port Hoppers, however, were the only rink to defeat Curwin of Cobourg, who won the Stratton Trophy this year, this being done in the Gillespie Cup competition. The Gillespie Cup is now the property of the Port Hope skip. The Port Hope rink were: W. J. Oke, W. Johnston, H. B. Rosevear and P. L. Brown.

LIGHTS SHOULD BE CARRIED "Safety First" Principals Should be Adopted by Everyone.

Now that the boating season is being enjoyed by so many people—day and night—it should be the aim of all to adopt the "Safety First" principle. While accidents here are much less than at other watering places, care must be exercised for your own protection as well as others. At night time the risk is much greater especially with the smaller craft and those running without lights. Those out in launches, skiffs and canoes, should by all means carry lights, for running in all directions a swiftly moving launch would very quickly cut a skier or canoe in two, with the possible death of the occupants. Carry a light when out after sundown, and don't be afraid to show it. This applies also to drivers of motor cars, horse driven vehicles, etc.

Prior to his departure from Ottawa recently, Lord Richard Nevill, the comptroller in the household of Their Excellencies the Duke and Duchess of Devonshire, who also held a similar position with Their Royal Highness the Duke and the late Duchess of Connaught, was the subject of two very pleasing presentations which took place at the Country Club. These gifts which included a silver rose bowl and a clock were from Lord Richard's more intimate friends, and he made many while resident here. In Montreal on his return trip to Quebec, he was again the recipient of a farewell gift from friends of that city who presented him with a silver loving cup. Few officials who have come to Government House have been as popular as Lord Richard Nevill, and his departure from Canada is regretted.

SERBS AND BULGARS STILL ON EDGE OF WAR

Two Countries That Were Deadly Enemies Cannot Settle Differences

BELGRADE, July 19.—Serbia still maintains an unfriendly attitude toward Bulgaria, despite efforts of some Bulgarian statesmen to compose the differences between the two countries.

M. Dimitroff, the Bulgarian Minister of the Interior, recently visited Serbia but this does not appear to have effected the improvement in the relations between the two countries that he hoped for. The press was anything but cordial to his mission.

Serbian newspapers reproach the Bulgarians with trying to avoid the fulfillment of their obligations toward Serbia and with persistently encouraging the hostile acts by Bulgarian armed bands on the Serbo-Bulgarian frontier.

The agitation fostered by the Macedonian committee on the Albanian frontier aggravates the tension.

BRING 30 SKELETONS FROM FROZEN WASTES

Canadian Government Expert Will Make 3-Year Study of Eskimo Homes

HALIFAX, July 19.—Thirty-three Eskimo skeletons arrived in Halifax from the Par North recently for examination and measurement on behalf of the Canadian Government by Dr. John Cameron, Professor of Anatomy at Dalhousie University. The skeletons have been brought from the land of snow by the Canadian Arctic Exploration party which spent five years in Canada's frigid zone studying the customs, languages and characteristics of the Eskimo race. They were found in the region north of the MacKenzie River.

Dr. Cameron estimates that upwards of three years will be required to complete the study of the skeletons and make the thousands of measurements necessary. The greater part of the work will be devoted to the skulls and the peculiarities of their formation. When completed the information obtained from the examinations will be included in a book to be published by Dr. Cameron. The book will be a standard work of reference on the physical characteristics of the Eskimo race.

A special study of the teeth of the skeletons will be made by Dr. S. G. Ritchie of Halifax.

TONS OF TALC HERE NOW

SUNDAY BOAT CROWDED

Nearly as Many Left on Dock as Were Taken

10000 STILL ON ISLAND

SAN JUAN, P.R., July 19.—There are 10,000 still in operation in the island, in violation of the Volstead Act and local laws, in the opinion of the prohibition director's staff.

This opinion is substantiated by a recent statement of Antonio R. Barcelo, president of the Senate.

The prohibition director's office holds that so long as light fines and sentences are imposed, rum-making in the island cannot be suppressed.

George Dugan awoke at his hunting lodge near Thornhill, Cal., to find a bobcat had taken advantage of the warm bed to make itself comfortable. Dugan jumped one way, the bobcat the other.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are especially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

THE CENTAUR COMPANY, NEW YORK CITY

Ireland—Before the Armistice

3000 IRISH IN JAIL DUBLIN, June 25.—(By mail)—More than 3,000 Irishmen and women are in internment camps, and almost as many more in jail under sentence, or awaiting trial, or held for other reasons. The estimate of military authorities as to the number who ought to be interned runs, if rumor is to be credited, into tens of thousands.

The chief military operation in Ireland is a round-up. Dublin has furnished several examples. Large areas of the city have been from time to time segregated. Nobody is allowed in or out till a thorough search has been made of the houses, and till all the men in the district have been cross examined. Sometimes these searches of a district in Dublin have lasted a couple of days. Every day on a smaller scale something of the same kind is in progress.

A Constant Search Apart from detailed search of city districts there is every day a constant search on chance of persons in the streets. Anybody at any hour may be called upon to submit to search, and have examined the papers he is carrying. The thing has become so usual that no ordinary citizen minds it. It is all in the day's life. In spite of all this activity, attacks on the Crown forces continue. Not a day passes without the sound of the bomb and the revolver somewhere in Dublin, and the republican seem to possess more war material than before the searches.

Simultaneously with the round-ups in Dublin, there have been, particularly in the martial law areas, similar round-ups in the country. Cordons are drawn round the portion of a countryside to be searched, and the houses and the persons in them put through strict examination. Such raids have often taken place on Sundays, presumably to cause as little interference as possible with ordinary business.

Churches Watched Churches both in Dublin and the country are watched as the congregations leave, and searches made of suspected persons. Protestant church congregations have not escaped.

Within the last few weeks or two the country raids have been more extensive and more prolonged, and cavalry regiments have taken part in them. Hundreds of persons have been swept into the net, but in the great majority of cases the arrests are only for a short time. Men who can give a satisfactory account of themselves and are clearly not members of the Republican army are

let go at once. If there is any doubt the order is, "throw him in the lorry." The cases are then sifted in detail and large number released. The rest go to internment camps or are held for possible trial. Internment cases rarely exceed about 70 a week, and there are from time to time releases from internment. Sometimes captured men are put into identification parades. Men who have carried out an ambush are looked for by the victims of the ambushes.

More Troops A large increase of the troops in July has been predicted. The Sinn Fein has been preparing for it. The distribution of the troops requires housing accommodation. The Sinn Fein's intelligence department calculates where they are likely to be stationed and the houses they are supposed to intend to occupy are set on fire. This chiefly accounts for the destruction recently of mansions all over Ireland. Some of them no doubt are destroyed in reprisal for the burning of Sinn Fein houses by military order. But the main motive in many cases is to hamper future military activities.

It is officially declared by the Sinn Fein to
