VICTORY FOR BRITISH DRIVING TURKS BACK FROM SUEZ CANAL

London, Dec. 25--Following up their victory against the Turks in the capture of El Arish, ninety miles east of the Suez Canal, the British forces in Egypt have captured a strong Turkish position at Maghdadah, twenty miles to the southeast of El Arish, taking some 1,100 prisoners, two guns and quantities of war material, the War Office announced today. The official statement reads: "On Friday afternoon British mounted troops carried a strong enemy position at Maghdadah, twenty miles south of El Arish, after an engagement beginning at nine o'clock in the morning. Five hundred prisoners were taken. Aircraft co-operated, attacking with bombs and machine gun fire from a low altitude."

GIANT APPLE

A remarkable apple was shown at the Royal Horticultural Society's Hall, Vincent Square, Westminster. Eng. A small apple tree taken in an ordinary flower-pot bore one apple only, but that and 5 1-2 in. in depth. It is named after the secretary of the Royal Horticultural Society, the Rev. W. Wilks.

"Made-in-Canada" and "Made-in-America"--Buying at Home

The Boston "Herald" of February 16th has the following statement, under the heading "Made-in-Canada" in its editorial column:

"The answer of Canada to the 'Made-in-America' movement in this country is a 'Made-in-Canadian' movement and Consul Dreher at Toronto sends down word that it is in a healthy stage of growth. The patriotic sentiment of the times gives it an impetus; and, as the consular institutes, our manufacturers and exporters will have to put on a little extra steam to meet the new competition. When the war broke out last August 'Made-in-England' signs blossomed like magic in the store windows of London, Liverpool and other English cities. It was the patriotic defiance to the familiar 'Made-in-Germany' stamp which was the first of the kind to become familiar to the world over."

The fact that the papers of United States and American Consuls are reporting on the effect of the "Made-in-Canada" campaign is the best evidence possible that the "Buying-at-Home" movement is making headway and is carrying the people with it. Americans are shrewd people commercially, and lost no time in organizing a huge "Made-in-America" publicity campaign as soon as the war arose, shutting off, as it did, a large part of the need of imported goods which people of United States have been accustomed to purchase.

If "Made-in-America" is good for United States, "Made-in-Canada" is even better for Canada, a smaller country which is only in the early stages of its industrial development, and in which the problems of unemployment and reduced buying capacity, as a result of the war, are difficult to handle.

TALE OF A DOLLAR BILL

A farmer went to town to spend some of his hard-earned dough. And in a merry jest, and just to show his printing skill, He printed his initials on A grand new dollar bill.

He spent that dollar that same day, Down in the village store, He thought 'twas gone forever then, And he'd see it no more.

But to go before the year rolled by One day he went to fill A neighbor's order, and received That same one-dollar bill.

Once more he spent that dollar bill In his own neighborhood, Where it would do him good, and send The most amount of good.

Four times in two years it came back, As some bad pennies will, And each time he'd go out and spend This marked one-dollar bill.

Had he been wise that dollar might Be in his town to-day, But just two years ago He sent it far away.

He sent it far away, The people who received it then I know have got it still, For 'twas to a foreign country He sent his dollar bill.

No more will that marked dollar Come into the farmer's hands, And nevermore will help to pay The taxes on his lands.

He put it where it never can Its work of life fulfill; He brought about the living death Of that one-dollar bill.
