Mr. Fred Latimer of Lansdowne has written us as follows:

THE CAPSULOID COMPANY,

Gentlemen,—Twelve years ago I had my first attack of kidney trouble tollowing a heavy cold. The pain in the back was severe and there was smothering over the kidneys. I rapidly lost in strength, weight, and color. I got over my first attack, but my kidneys were left weak and trader. Several small attacks have since weakened them, and about a year ago I had the worse attack of all. I was confined to my room for eight weeks. My doctors attended me constantly and by their ability pulled my though, but when I gos around again, I found that my kidneys were in the same old state and nothing that could be done seemed able to heal and make them sound. A friend of mine—a doctor—told me to try Capsuloids. A month ago I commenced taking them. Now every one of the bad symptoms have disappeared. The pain is all gone and I scarcely ever feel any smothering. I have gained three pounds, improved in my appetite, lost that sallow kidney complexion and have a good healthy strong appearance, with lots of color in my face. Best of all, all the kidney symptoms that so worried me have disappeared. It is hard even for me to believe, but it is Brockville, Ontario. Best of all, all the kidney symptoms that so It is hard even for me to believe, but it is worried me have disappeared. It is hard even to move the worried me have disappeared.
