

CANADA AND ENGLAND DEFENLED THE WRONG CLIENT

The Service Canada Has Rendered Fully Appreciated.

A Prominent Brockville Business Man pays a Tribute to the Good work of a Canadian Institution in England (From the Brockville Recorder.)

One of the most successful business men in Brockville is Mr. Thomas Nappy, the well known Perth street grocer. Mr. Nappy is an Englishman birth and the success he has by achieved in business here has en abled him for some years past to make an annual holiday trip to the Motherland. In a casual conversa tion with some friends in the Bank of Montreal, recently, Dr. Williams' Pink Pills happened to be mentioned and Mr. Nappy said that if the pills and Mr. Nappy said that if the pills effected many cures as marvellous as one that had come under his notice, he was not surprised that they were so frequently the theme of conversa-tion. Asked later by a reporter of the Recorder to give the story, Mr. Nappy readily consented to do so, and we give it practically in his own words. "Don't be disappointed when I tell you that the cure did not occur in this country," \neq said Mr. Nappy. As a matter of fact it oc-curred in England and came under Nappy. As a matter of fact it co-curred in England and came under my observation on the occasion of two visits made to that country. During the summer of 1898 I paid a visit to my old home in England and while there visited William Ledand while there visited William Led-ger a relation of mine-living at 45 Fitzwilliam street, Doncaster. In Ledger's family was a little girl, Lilly, about six years of age, who was absolutely helpless with what the doctors said was St. Vitus' dance, but really seemed to me more like paralysis. The child was one of the most pitiful sights I ever saw; more helpless than a new born babe. She could not move a single limb, and if the head were turned to one and if the head were turned to one side or the other it remained in that position until someone changed it. The poor child had to be fed and looked after like an infant, and as the doctors had not been able to do anything to relieve her, recovery was not thought possible. Indeed, said to the child's granimotier indeed, I said to the child's granimother that I thought its early death would be a relief not only to the child, but to its parents. This was the condition of the child when I left for Canada. Again in the summer of 1899 I made a holiday trip to England and to my amazement when I visited my friend Ledger I found Lilly as bright and active a child an one would find out where, with absolutely no trace of the trouble that had made her a the trouble that had made her a helpless burden the year before. I told her parents I had never ex-pected to see her alive again and asked what had effected her cure. "Dr. Williams' Pink Pills," said the father. He further said that re-turning from work one night her turning from work one night, he found in the house a little book desround in the house a little book des-cribing the pills, left during the day, and after reading it decided to use them in Lilly's case. After supper the bought some of the pills and gave the first to the child that night. In the day, the first to the child that night. In a few days they saw they were help-ing her, and in less than two months there was not a child in the neigh-borhood, brighter, healthier or more active. I have heard a great deal concerning what Dr. Williams' Pink Pills have done in this country, but this case coming under my own ob-servation is as near a miracle as we can look for in these days, and shows why Dr. Williams' Pink Pills are so much talked about every-where. Williams' Pink Pills are just as Dr.

Dr. Williams' Pink Pills are just as valuable in the case of children as with adults, and puny little ones would soon thrive and grow fat un-der this treatment, which has no equal for building up the blood and giving renewed strength to brain, body and nerves. Sold by all dealers or sent post paid at 50c a box or

Amusing Blunder of a Distinguished Australian Solicitor. An edifying incident is reported to

have occurred recently in the dis-trict court of Melbourne, Australia. The list of cases for hearing included two charges of a similar character When the first defendant was called, a leading Melbourne solicitor announced that he appeared for the defense, and for nearly half an hour the strove to convince the court that the charge should not be sus-tained. In spite of the counsel's able arguments the court decided to in-flict a fine, and called upon the next flict a fine, and called upon the next defendant to say why he should not be dealt with in a like manner. The solicitor, puffing from the ef-facts of a vigorous speech, wiped his brow and leaned back in his chair with an air of satisfaction that his client had escaped so light-ly. Just then the name of the sec-ond defendant was called, and the lawyer sprang to his feet as though electrified. "Great heavens!" he exclaimed, is a voice that was and ble throughout the court. "I've

excitationed, so a voice that was audi-ble throughout the court, "I've been defending the wrong man." In his perturbation the learned gentleman seized his slik hat, and in a divided mind as to whethes he should set chase after his late client or remain and defend the man who had just stoured forward the client or remain and defend the man who had just stepped forward, plac-ed it on his head. "Hats off!" roar-ed a constable as counsel remain-ed on his feet, staring in dismay around the court. "Your worships," he said, removing the offending bell-topper, "this is my client. The de-fendant who has just left the court did not engage me and has neid mo

did not engage me, and has paid me no fee." The announcement was too no fee." The announcement was too much for the gravity of the court, and for a moment or two the court. much for the gravity of the court, and for a moment or two the court-room echoed with laughter. The case was soon disposed of and the legal gentleman then hurried from the building in search of his quondam client and the fee that should have been his.

STOPPED THE MONOTONY. agacious Wife Becomes Weary o Her Husband's Good Conduct.

"Never had a case like it before," laughed one of Detroit's lawyers, who is in the prime of life and en-joys a valuable practice. "Don't sup-pose I'll ever have another one. It bothered me more than I can tell, too. "I knew them both well, for she

"I knew them both well, for she and I grew up together, and I-liked him. She came to me one day with a request that I get her a divorce. I was never so shocked or surprised, but she was insistent. I told her how absolutely free he was from bad hab-lies, how his life one day was like that of another, and that there was not a more exemplary husband in the city of betroit. He was a man to be proud of and to cling to.

of Detroit. He was a man to be proud of and to cling to. "But I was only going over the very grounds of her complaint. He made life dead level, a dreary mon-otony for her. In her girlhood she had been full of life and vivacity. Her whole family had been fond of amuse-ments and at home there was d contin-ual round of merriment. Now there was a dull, unchanging routine and she was determined to escape it. I asked a day or two to prepare her was, a dull, unchanging routime and she was determined to escape it. I asked a day or two to prepare her case and then hunted up her husband. "After a long talk I induced him to take my advice. He did not drink a drop, but he was worked up suffi-ciently to make an admirable actor. At 1 a.m. his wife, pale and wonder-ing, let him in while he was yelling for her to throw him a latch key. He was a wreck. His hat was crushed down to his ears, his necktie hung to the rear collar button, his eyes blazed and his tongue was thick. He had heard of the divorce proceedings. Her love must have gone back to one of her old flames. 'He's doomed,' roar-ed the unusually gentle husband as he flourished an empty revolver. 'Life is nothing to me without your love. I'll finish him! Who is he f Where is be' Don't try to keep me from him,' as she clung about his neck and look-ed a new joy. 'Is it that sap-headed Jones out in California or that poor little Brown who has gone to Color-ado?' "By 5 he was listening to reason.

ado?' "By 5 he was listening to reason. When I went to the office at 9 she was there and ordered me to drop that foolish proceeding. She had the best husband on earth."

A'YOUNG GIRL'S DANGER

How She Overcame it, and Baffled Her Tormentor.

Toronto, Dec. 26.—Miss Ida Hob-kirk, of 184 Harbord street, this city, is a young lady who is ex-ceedingly popular with a very ex-tensive circle of friends, all of whom are rejolcing over her recent escape from a terrible danger. The story of her experience is deeply interest-ing, told in her own straightforward way. Here is her narrative : "In 1896 I took a position in a down-town store. My work was not unusually hard, but I soon found I could not stand it, and my health failed. I

grew very thin, had splitting head-aches continually, dizzy spells, and extreme weakness. My tongue was thickly furred, harsh and dry, every morning, and I arose tired and ach-ing. I was dull and low-spirited all the time. 'My sister had used Dr. Arnold's English Toxin Pills with remarka-ble benefit, and I also began to take them. I candidly state that improvement began almost immedi-ately. Daily I mended, till to-day I

am in better health, and much stronger than I have been for years. To Dr. Arnold's English Toxin Pills, and to them alone the credit is

due." Every girl and woman who suf-fers as Miss Hopkirk did, should use Dr. Arnold's English Toxin Pills. They will give new life and health. Dr. Arnold's English Toxin Pills. the only remedy that cures disease by killing the germs that cause it, are sold by all druggists at 75c a box; sample box 25c; or sent post-padd on receipt of price by The Ar-nold Chemical Ca

igan, says: Our little daughter of eight years was a great sufferer from Bron-chitis, and every slight change in the weather brought on very severe at-tacks. Our doctor was consulted, and prescribed many different bottles of medicine but nous of them beems to Cured Reuben Draper, of Clarendon of Gravel—Principle Upon Which Dodd's Kidney Pills Act—Why Gravel is Curable by Dodd's Kidney Pills.

prescribed many different bottles of medicine, but none of them seemed to give more than temporary relief. We then tried a host of the so-called cures for Bronchitis that one sees so largely advertised, and they all turned out to be perfectly worthless. After so much doctoring and useless expenditure in fraudulent preparations, we were at our wits' end to know what to do. Providentially, a neighbor who had been cured by Catarrhozone sent in her inhaler, and it was so pleasant to use and gave such immediate relief Kidney File. Clarendon. P. Q., Jan. 22.-Quite a sensation was caused in this place and throughout the Ottawa Valley. by the publication of Reuben Drap-er's case in the newspapers last week. Mr. Draper is well known about here and in Bristol and has had many enquiries as to his cure. There seems to be a universal sur-prise that Dodd's Kidney Pills should be able to cure a trouble like Gravel which is situated in the Bladder. Therefore, the following explana-tion is in order. Gravel is directly the result of kidney disorder. It is caused by the failure on the part of the kidneys' to do their duty. They fail to dis-solve the gritty particles that come to them from the blood. These gritty particles pass to the blad-der and eling to the walls of that cavity, accumulating, finally, in lit-tle balls or "dromes" Dodd's Kidney use and gave such immediate relief that a complete outfit was at once ordered. After using it but a short time the bronchial trouble disap-peared. The child's throat has been re-stored to a normal and healthy condi-tion and ebe new suce obset without

tion, and she now runs about without danger in damp, snowy weather-something un-thought of before using Catarrhozone. We recommend Cat-arrhozone as a peerless remedy for Bronchitis and cold in the head. cavity, accumulating, finally, in lit the balls or "stones." Dodd's Kidney Pills, by restoring the kidneys to proper health, cut off the supply of this sediment, and the bladder and CATAERH, ASTHMA, BRONCHIT Catarrhozone outfit, consisting of a beautifully polished hard rubber in-haler, sufficient liquid for six weeks' use, dropper, and full directions, price \$1.00; extra bottles of inhalant, price 50c. Trial outfit for 10c in stamps from N. C. Polson & Co., Kingston, Ont. urinary organs, recovering strength on the removal of the cause of irri-tation, throw off the gravei already

leposited. Mr. Draper had only been using the pills a week when he was rid of a stone which he says, is as large as a bean. In a few days he passed another smaller one. He has retained both, and many people of the neighborhood have seen them. There is, therefore, no room doubt that Dodd's Kidney Pills actually cure Gravel as well as the other kidney diseases for which they are famous. The case has aroused wide interest and friends for Dodd's Kidney Pills are discover-ed on all sides

SAVED PART OF WRECKED SHIP

English Shipbuilders are Utilizing Half of a Stranded Vessel.

Probably the most remarkable achievement in the line of wrecking and rebuilding to be found in mari-time history is represented by the reconstructed steamer Milwaukee, which was turned out in the summer of 1899 at the yard of. C. S. Swan & Hunter at Wallsend on Tyne, Eng-land land.

land. The Milwaukee, a vessel of 483 feet length and fifty-six-foot beam, went ashore near Aberdeen in. September, 1898, a huge rock penetrating the hold for a length of thirty feet and to a height of eight feet above the tank for the salvage opera-1898, a huge rock penetrating the hold for a length of thirty feet and to a height of eight feet above the tank top. When the salvage opera-tors saw that it would be impossible to save the entire vesel it was deeld-ed to blow her in two with dynamite. This was done successfully and 180 feet of the fore end was left on the rocks, while the after end was towed to a dry dock.

Tocks, while the after end was here on one rocks, while the after end was towed to a dry dock. The saved portion of the vessel de-pended for flotation until placed in dry dock upon a transverse water-tight bulkhead at the forward end of the boller space. It was towed to the Type and moored in the river until a new bow was bulk, launched and made ready for connection with it. So well was this done that a person ig-norant of the facts would never know that he was looking at the original bow, while even those persons who knew the circumstances of the case were unable to point out the point where the junction of the new and old portions was made.—Engineering Magazine.
