Kills Germs.

That's precisely what Vapo-Cresolene does. You light the vaporizer, the vapor of Cresolene is given off. Not a disease germ can live in this vapor, yet it can't possibly harm even the youngest child. Just naturally breathe-in the vapor; it destroys the germs of la grippe, hay fever, influenza, and whooping-cough. It's the common sense treatment for all troubles of the throat and bronchial tubes.

Vapo-Cresolene is sold by druggists everywhere. A Vapo-Cresolene outfit, including the Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene, \$2.50; extra supplies of Cresolene 15 cents and 50 cents, illustrated booklet containing physicians' testimonials sent upon request. A LAW unto HIMSELF.

Every Man Must Do That to Retain His Health and Digestion.

There are thousands of people in this world, who eat no meat from one year's end to another, and certain savage tribes in Africa and Polynesia are almost exclusively meat eaters; but while there are thousands of these, there are millions living upon a mixed diet of meats, vegetables and grains and if numbers is a criterion of wisdom, it is a criterion of wisdom that a mixed diet is the best for the human family.

The fact that you will find many vegetarians who appear healthy and vigorous, and most cars equally so, and any number of robust specimens who eat both meat and vegetables and anything else that comes their way to show that the old saw is the true one, that every man must be a law to himself as to what he shall eat and drink.

To repair the waste of tissue in brain workers as well as in the muscles and sinew of the laborer, can only be done through the process of digestion.

Every nerve, muscle, sinew, every drop of blood is extracted from the food we eat and digest.

In these days of hustle and worry, and artificial habits of life, scarcely one person in a thousand can lay claim to a perfect digestion; dyspepsia is a national affliction, and Stuart's Dyspepsia Tablets, a national blessing.

Most cases of poor digestion are caused by failure of the stomach to secrete sufficient gastric juice, or too little Hydrochloric acid and lack of pepsines and all those important essentials to perfect digestion are found in Stuart's Dyspepsia Tablets in convenient, palatable form.

One or two of these tablets taken after meals insure perfect digestion and assimilation of the food.

Cathartic pills and laxative medicines have no effect whatever in digesting food and to call such remedies a cure for dyspepsia is far fetched and absurd.

Stuart's Dyspepsia Tablets contain pepsin free from animal matter, diastase and other digestives, and not only digest all solid food, but tend to increase the flow of gastric juices and by giving the weak stomach a much needed rest bring about a healthy condition of the digestive organs and a normal appetite.

Nervous, thin blooded, run-down people should bear in mind, that drugs and stimulants cannot furnish good blood, strong muscles, and steady nerves; these come only from wholesome food, thoroughly digested; a 50 cent box of Stuart's Tablets taken after meals for a few weeks will do you more good than drugs, stimulants and dieting combined.

Stuart's Dyspepsia Tablets is probably the safest, most popular and successful digestive on the market and sold by druggists everywhere in the United States, Canada and Great Britain.
