

# THE ACADIAN.

WOLFVILLE, N. S., AUG. 12, 1910.

## The Crop That Pays.

No farmer can make the broad statement that one crop pays better than another. The amount of the return depends largely upon the character of the land on which the crop is grown. One kind of land brings the greatest return from a certain crop, another piece of land of different quality would perhaps yield a very small return if sowed to the same crop. Finding out the particular class of crops the land is best suited to growing is therefore a very important matter for the wide-awake farmer.

A splendid example of what can be gained by the intelligent adaptation of crops to soil conditions is to be found in the county of Norfolk, Ontario. In certain parts of that county there are considerable areas of sandy land that cannot hope to compete with heavier, richer soils in the growing of wheat and other grain crops. Thus, farmers who attempted to grow these crops found that their profits were not as satisfactory as might have been desired. Some years ago, however, a few men noted that the soil and climate of the county were well suited to growing fruit, especially apples. The Norfolk Fruit Growers' Association was formed and forthwith started on a reputation making campaign. All members agreed to care for and spray their orchards as stipulated by the rules of the Association. Incidentally, too, all fruit was to be marketed through the central agency. The results have been little short of phenomenal. The orchard acreage has been largely increased. Norfolk apples are now held as second to none in the markets of the world and the profits have been most gratifying. As a consequence, land values in the last six years, have doubled.

And this has been accomplished mainly by selecting the crop best adapted to the soil. The work that the Commission of Conservation has undertaken, of classifying lands according to the character of the soil to determine what crops can most profitably be grown, is therefore a task of no small importance. If the Commission points out the crops that pay the best on different soils, both the farmer and the nation will be the richer for it.

The ladies who are collecting contributions of clothing, &c., for the sufferers by the Campbellton fire have asked THE ACADIAN to make another appeal to the people of Wolfville. It seems that up to the present very few have responded to the request made in last week's paper. There must be a large number who could contribute something in the way of warm clothing or bedding without feeling the loss very keenly. No doubt in most of the dwellings of our town there are stored away many things that would be very helpful to the poor people of Campbellton, and which will never be used again by their present owners. These things are much needed and the railroads have consented to carry all such contributions free of charge. We have no doubt but that the comparatively small number of articles that have been sent in is due to the fact that our people do not fully realize the importance of making their gifts speedy and liberally.

F. H. Spinney, of the Protestant schools of Montreal, is spending the summer with C. R. Bill, Jr., of Billtown, Kings. Mr. Spinney, who has been for two years principal of the William Lunn school on Ann street, has been recently transferred to the Alexander school, a newly constructed building of 20 departments, situated on Sanguine street. Mr. Spinney's successor in the William Lunn school is Ernest Robinson, B.A., of Wolfville. Both of these gentlemen were ranked among the most popular and successful of the high school teachers of Nova Scotia; and the promotion of the former to one of the finest schools under the Protestant board indicates that he is keeping up the good record begun in his native province. Mr. Robinson's success as principal of the Horton Collegiate academy at Wolfville signifies that he will keep up the good record made by several Nova Scotians in the schools of Montreal. We are sorry to lose these teachers from our own schools, but are glad to hear of this marked application of their services in the largest city of our Dominion.—Herald.

## For Sale

Pleasantly situated on Acadia street, Wolfville, house and barn, half acre of land with about twenty apple trees just beginning to bear. House has nine rooms, besides hall, pantry and bath, heated with hot air. Can be bought at a bargain. Apply P. O. Box 79, Wolfville, N. S.

## THOSE PROMISES!

that were made so long ago.  
Why not redeem them now?  
Photographs that look like you are the kind that please your friends.  
Our new mounts will add to their value too.  
They are the best solution of the Kansas Girl problem.

GRAHAM, Wolfville.

## Enumeration of Census Values.

The farm and urban values of the census of 1911 will be enumerated under the date of 1st June. They will include the real estate and live stock values of each enumeration district at that date, of the live stock and nursery stock sold in 1910, of the dairy products consumed at home, sent to factories or sold, and of the animals slaughtered on the farm in the same year, together with values of other products of the farm.

Land and buildings and farm implements owned by every person in the enumeration district will be recorded separately for values in 1911, and the rent of land and buildings will also be recorded if leased in that year. Values will be taken for orchard fruits, small fruits and vegetables separately for 1910; but values of meat cattle, sheep, swine, poultry and hives of bees will be taken separately for 1911, at the date of the census.

The values of live stock and nursery stock sold in 1910 will include horses, milk cows, other horned or neat cattle, sheep, swine, poultry and hives of bees, and of nursery stock, which means fruit and ornamental trees grown for transplanting into orchards, gardens and parks.

Dairy products consumed on the farm, and sent to factories or sold, refer to products of the year 1910. They include the values of milk, cream, home-made butter and home-made cheese.

Animals slaughtered on the farm in 1910 will be recorded for the values of horned or neat cattle, sheep, swine and poultry. Horses are not included in these values, as in our country their meats are not used for food.

The values of other products of the farm include those of eggs, honey and wax for 1910, and wool, maple sugar and maple syrup for 1911.

The enumeration of hired labor on the farm refers to the year 1910. It will give the total number of weeks of labor employed, which means the number for all men who work for hire on the farm, and the total amount paid for hire, including allowance for board. The payment should be reckoned for the full time of service, and should include the value of board. The inquiry relating to earnings for domestic service is asked for in Schedule No. 1.

In addition to the foregoing inquiries of values, a question is asked for the value of all lands and buildings not manufacturing establishments of mines owned in Canada in 1911 which are outside of the enumerator's district.

Miss Kate Mitchell, of this town, left on Tuesday for Slocum City, B. C., where she has accepted a position as teacher in the public schools. On the way she will spend a week at Banff, Alta., camping with friends. Her many friends here will follow her with best wishes for success.

## Zam-Buk Cures Sunburn.

Neglect of a sunburn on face, arm or neck often leads to the after growth of skin which is freckled or coarse; and this is particularly distressing to ladies. Timely application of Zam-Buk will prevent this. Zam-Buk is a herbal balm, which soothes and cools the burned skin, and assists nature to replace the damaged tissue with soft, velvety skin.

Zam-Buk is also good for stings, scratches, heat sores, blisters on hands or feet, and all skin injuries. Applied to these it quickly stops the smarting, and ensures quick healing. As it is free from animal fat, and mineral coloring matter, it is particularly suited to the delicate skin of babies, suffering from heat rashes, chafed places, etc. Sold everywhere by druggists and store-keepers. Beware of harmful imitations, and see the name 'Zam-Buk' on the box before buying.

## The Crops.

Farmers throughout the country have viewed with great satisfaction, the remarkably abundant hay crop of this season, which exceeds that of other years for over a decade. The yield has been large all through the province and this will have considerable influence on the stock of dairy products, and their prices; butter, cheese, and milk should be plentiful, and prices should not be high. The copious supply of rainfall which has been given the country is looked upon as the cause of the growth. The pastures at the present time are a source of gratification to the countrymen, as they were never in better condition.

It is early yet for vegetables to be brought to market, in fact, in most kinds of green goods they are just commencing to be placed on sale. New potatoes of a fine quality have been vended for some time, but of course, the price is really too high for most householders. It will not be long before this obstacle is overcome, not only in potatoes, but in other vegetables, as well, and a plentiful harvest of peas and beans, beets, carrots, turnips and in fact, all other lines of country produce is confidently expected by the farmers of the province.

## The Rights of Dogs.

The rights of dogs on the public highways of Nova Scotia will be tested by an action just brought by Judge Meagher of the Supreme Court. The judge had a favorite dog, which was run over and killed by an automobile driven near the city, and he is suing for one hundred dollars damages. The accident happened on the Bedford road, and the action is brought against the Bishop Bros., of Canisling, the owners of the car.

# "I FEEL IT MY DUTY To Give You a Statement In Regard To 'Fruit-a-tives'"

HARDWICK, MINAMICHI, N. B., Jan. 17th, 1910. I feel it my duty to give to you and the world an unqualified statement in respect to the wonderful cure I received by taking 'Fruit-a-tives.' Chronic Constipation was the complaint I suffered for years. My general health was miserable as a result of this disease, and I became depressed and alarmed. I was treated by physicians without the slightest permanent benefit, and I tried all kinds of pills and tablets but nothing did me any good.

I saw the strongest testimonial in favor of 'Fruit-a-tives' by New Brunswick's 'Grand Old Man', the Hon. John Costigan, and I knew that anything he stated was honest and true and given only to help his fellow-men. I tried 'Fruit-a-tives' and the effects were most marvellous, and now I am entirely well from all my Chronic Constipation that I suffered from for so many years. My general health is more excellent and I cannot say too much to express my thanks for the great benefits derived from taking 'Fruit-a-tives.'

A. C. WILLISTON. 'Fruit-a-tives' is not got up by druggists or expert chemists—who know nothing about disease and the needs of the human body—but is the scientific discovery of a well known physician, and is the only medicine in the world made of fruit juices. See a box, 6 for \$2.50, or trial size, 3c. At all dealers, or sent, postpaid, on receipt of price by Fruit-a-tives Limited, Ottawa.

## The Gadfly.

The Conservatives of the west are showing the right spirit towards Sir Wilfrid Laurier and his troupe while they are out there. They all go to see the head of the government, and to listen to his messages. In Saskatchewan, they put up \$5,000 towards the reception of the premier in that city, and the investment was a wise one, and if for no other reason it has its advertising value.

British free traders are having another unfortunate illustration of their system. Ready-made clothing in huge quantities is being imported into the United Kingdom from the United States and is sold in competition with the products of their own factories. Free trade is cooking the tailor's goose in the old land.

## Worst Case Of Eczema

It would have been more graceful for our Premier, with his delightful sunny ways, to have given credit to the Conservatives, when he predicts a population of thirty millions in the Northwest within the next few years. Sir Charles Tupper, the old Conservative statesman, was the first to utter this prediction when advocating the Canadian Pacific Railway. He claimed that millions would populate the Northwest after its completion. The Liberals denounced his predictions as hot air and refused to believe them. Now they admit he was right, but refuse to give him the credit due.

Premier Laurier was in a railway wreck in the west this week, and pleased as we might be to see some of his policies in a wreck, we join heartily in the congratulations that in this

WOLFVILLE, N. S.

## What Do You Know About It?

That's what a customer asked me recently about a patent medicine I had sold for years, and I was forced to admit that in reality I knew nothing more than what appeared on the label, wrapper and advertising. Some of the claims made were so extravagant that of course I could not take them seriously, but concluded I had better find a line of remedies I did know something about.

## NYAL'S FAMILY REMEDIES

are manufactured by a House with a solid reputation of over half a century. The formulas are exceptionally good ones and are freely furnished to the Drug Trade. There are no secrets simply because they are honest and have nothing to conceal. If I didn't believe in them I wouldn't recommend them to you.

Anything you buy with the name— Nyal's will give you satisfaction
