

**THE NATION'S DRINK BILL**

(From the London Economist.)  
We have received from the United Kingdom Alliance statistical estimates of the national consumption of and expenditure upon alcoholic liquor. It is estimated that the expenditure on alcoholic beverages in 1920 showed an advance of 21 per cent. over 1919 and of 183 per cent. over 1913. The 1920 consumption, "measured in terms of absolute alcohol," is said to have been 15 per cent. higher than in 1919, but 24 per cent. lower than in 1913. Thus alcohol consumers in 1920 paid 183 per cent. more for 24 per cent. less alcohol than in 1913. The actual expenditure of the people of the United Kingdom on alcoholic drinks in 1920 is estimated at 469,700,000 pounds Sterling, of which 42 per cent. went to the Exchequer in taxation, the comparable estimated for 1919 being 386,000,000 pounds Sterling and 314 per cent., and for 1913 166,700,000 pounds Sterling and 23 per cent.

**A Smile in Every Dose of Baby's Own Tablets**

Baby's Own Tablets are a regular joy giver to the little ones—they never fail to make the cross baby happy. When baby is cross and fretful the mother may be sure something is the matter for it is not baby's nature to be cross unless he is ailing. Mothers, if your baby is cross; if he cries a great deal and needs your constant attention day and night, give him a dose of Baby's Own Tablets. They are a mild but thorough laxative which will quickly regulate the bowels and stomach and thus relieve constipation and indigestion, colds and simple fevers and make baby happy—there surely is a smile in every dose of the Tablets. Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

**WHAT A PACK OF CARDS TELLS**

A private soldier was taken before the magistrate of Glasgow Scotland, charged with playing cards during church service. In reply to the charge the defendant pleaded his purity of intention as follows: "I have been about six weeks on the march. I have nothing except a pack of cards, and I hope to satisfy your worship of the purity of my intention." He then informed the court that the ace reminded him of one God; the deuce of the father and Son; the trey, the Father Son and Holy Ghost; the four, of the four evangelists, Matthew, Mark, Luke and John; the five of the five wise virgins who trimmed their lamps; the six, of the six days in making heaven and earth; the seven, of the seventh day of rest; the eight of the eight righteous persons saved in the ark; the nine of the lepers, cleansed by the Saviour; the ten of the Ten Commandments; the king of the great King of Heaven; the queen of the Queen of Sheba, a wise woman; the jack, of the constable who, incarcerated him. The soldier also informed the magistrate that a deck of cards could serve the purpose of an almanac. The total number of spots on all the cards amounts to 365, as many days as there are in a year, and the total number of cards is 52 one for each week in the year.

"Washington," says The Brooklyn Eagle, "is moving for a repeal of the utterly illogical and irritating 88 head tax on Canadians, native Canadians, who want to come over our border on business or pleasure. Some immigration laws get pretty close to the climax of legislative absurdity."

**LORD BYNG OF VIMY**

**Appointed Governor General of Canada**

The appointment of Lord Byng of Vimy as Governor General of Canada in succession to the Duke of Devonshire was announced officially on Friday. General Lord Byng of Vimy, G. C. B., G. C. M. G., M. V. C., was created the first Baron of Vimy in 1919, and his title connects him with the famous engagement at Vimy Ridge, from April 9 to May 3, 1917, when under the command of General Byng the Canadian Corps in France attacking on a front of 8,000 yards, penetrated to a depth of six miles, capturing 7,000 prisoners and 67 guns, and with them the strongest position on the British front. The fight was officially known as the Battle of Arras. Gallant troops, superb generalship and elaborate pre-arrangements were factors which contributed to the success of the Canadian Corps.

After Vimy General Byng was promoted to the command of the Third British Army. General Byng first took over the command of the Canadians in February, 1916, succeeding General Alderson. He commanded the Canadians in several victorious actions against the Germans previous to the crowning achievement at Vimy Ridge. Before the Great War he had seen much military service, during the South African War, 1899-1902, and in various African and Egyptian campaigns.

Julian Byng was born on September 11, 1862, and was the seventh son of the second Earl of Stratford. Lady Byng was Mary Evelyn Moreton, daughter of the second Hon. Sir Richard Moreton. They were married in 1902. Lady Byng has written many books.

**A MEAL OF CUT WORMS**

C. A. Nash, of Toronto, records an experiment with the robin as a cutworm destroyer. One young robin, kept in confinement, ate 165 cutworms in a day. Had he been compelled to find his own food he would probably have varied it somewhat, as he would not likely find so many cutworms. What he could do when he had the opportunity was clearly demonstrated.

Advertising accumulates a host of desires on most persons that they do not express until a favorable occasion for the purchase of the desired articles arises.

Teacher: Johnnie what is a cube?  
Johnnie: A cube is a solid, surrounded by six equal squares.  
Teacher: Right! Willie, what is a cone?  
Willie: A cone? Why—a cone is—er—a funnel stuffed with icecream.

**TOO MUCH BALLAST**

(From the San Francisco Argonaut)  
A country housewife of good intentions, but little with culinary knowledge, decided to try her hand at cake-making. The result was somewhat on the heavy side, and, after offering it to the various members of her household she threw it to the ducks in disgust. A short time afterward two urchins tapped at her door. "I say, missus," they shouted, "your ducks have sunk!"

Advertising seems to be an art yet to be discovered by some people—at least the practical part of it. A constant stream of water from one or more fire engines will soon extinguish or get under control a very large fire, while a few buckets of water dashed here and there have little or no effect. The modern fire department is practical and has outgrown the bucket system. So it is with modern advertising—plenty of it, used in a practical common sense and judicious manner, pays.

**Ideal "Strikers"**

They strike somewhere every day. They strike readily. And they make no splutter or fuss about it.

When they have struck they show a clear and steady flame. They are reliable before—and steady after their strike. They are safe!

They won't explode when trodden on. Their heads are firm and do not fly off. They perform well their mission in life. There is a merry life, tho' a short one. When they are put out, they stay out. They are guaranteed not to burn again in after life.

They are Eddy's Matches.
