THE NEW WAY

NEW YEAR KNOCKS

The man or woman who stands in front of his or her post-office box and inspects each piece of mail matter while those who have adjacent boxes "watch and wait" is a nuisance, whether they realize it or not.

Some of these days the town will have to pay damages again, when there is a broken arm or leg because of the slippery condition of the sidewalks.

Something ought to be done to prevent the dumping of objectionable refuse around the wharves and docks.

Racing on Main Street, either by horses or cars, is dangerous and ought not to be allowed to continue.

The telephone seems to be giving very poor service of late. Perhaps the festive Christmas season is the cause.

HOCKEY SCHEDULE DRAWN UP

Representatives of the hockey teams of Wolfville, Windsor and Canning met here on Wednesday, Dec. 28, to make plans for the coming season.

A Playground in Quebec

PAUGAN FALLS, IN THE GATINEAU DISTRICT

Canada bids fair to become in the near future the playground of the world! Ours is pre-eminently a country of natural resources—industrial ambitions, notwithstanding!

Such a region is that one called "the Gattineau," 15,000 square miles of mountainous grandeur that rival the Catskills for scenery, Olympus for atmosphere, and than which there is no more alluring field for sportsmen this side of the happy hunting ground.

The country offers a life as strenuous as the pioneer demands, or as restful as the jaded urbanite dreams of, but despairs of obtaining. Canada is gradually awakening to the commercial value of her park areas, her playgrounds; to the fact that she has something that older countries—countries settled before the need for "national lungs" was

recognized—lack. She is beginning to realize that an amazing increase in motor traffic necessitates the providing of some objective for tourist travel, and that the more attractive the objective, the greater the number of tourists. Tourists represent revenue, and a very satisfactory type of revenue, for in enjoying and benefitting by a sojourn in one of our playgrounds, they leave the scenery undiminished in grandeur, and they take away nothing that impoverishes the country.

The Gattineau is like a hen waiting to lay golden eggs and needing only a little bit of corn in front of her to set the machinery in operation. The corn in this case, stands for adequate accommodation. The absence of hotels has been for the lovers of the Gattineau one of its principal charms. There has been no danger from invading hordes capable of desecrating its vast solitudes with jazz band and ukelele, and building picture houses

to shut out the glory of the sky. Chelsea, Kingsmere, Farm Point, and Blue Sea Lake (where the Duke and Duchess of Devonshire elected to spend their summers), are almost as a closed Paradise to any save those who have cottages. Yet, although all of these places are undeniably beautiful and desirable by reason of their very exclusiveness, they do not comprise even half of the Gattineau.

The vicinity of Paugan Falls can scarcely be equalled as a hotel site. Paugan is an Indian word meaning "pipe" and is descriptive of the shape of the Falls. While these may not be mentioned in the same breath with Niagara or similar glories, yet they have their own peculiar charm; the approach, the setting, the colouring of the surrounding hills, the indescribable atmosphere of romance that pervades the district. Over the Paugan, a rainbow arch spans the two shores on sunny days and when clouds threaten Old Sol with death, the prismatic colours fade into a shimmering mist. Below the Paugan Falls the Gattineau river grows calm and forms not only a safe lake for boating, but an ideal swimming pool, ordered as it is for a half a mile with a stretch of amber sand.—M.M.
