WHOLE COUNTRY AMAZED

AT "FRUIT-A-TIVES."

Wonderful Cures Made by These
Remarkable Fruit Juices
Tablets.

"Scientific Magazine Says 'The Days
of Miracles Are Not Passed.'"

It has become a wonderful thing to
his family and all his friends.

Mr. Henry Speers, the well-known
J.P. of Woodville, Ont., suffered for two
years with Chronic Indigestion and
Dyspepsia, which brought on a dan-
gerous Heart Trouble. He wasted away
until he was nothing more than a
skeleton. Two physicians gave him
up to die.

Then he saw made him try "Fruit-a-
tives" and now Mr. Speers is entirely
well. As he says "The days of mir-
acles are not passed and I am convinced
that 'Fruit-a-diver' will cure Stomach
and Heart Trouble, where doctors and
everything else fail." See a box of
Fruit-a-diver, or trial size 25c. At Dealers
or from Fruit-a-diver, Limited, Otta-
wa.

HORSES FOR SALE

Pure bred driving bay mare,
made 21st rank on Boston track.
Also one hardy general purpose
young bay mare, not frightened of
autos. Will sell reasonable. Phone

INTERCOLONIAL RAILWAY TENDER.

Sealed tenders addressed to the
undersigned and marked on the
outside, "Tender, Railway Nelson
to Chatham," will be received up
to and including Tuesday, May
10th, 1910, for the construction of
a Line of Railway between Nelson
and Chatham, N. B., a distance of
about 8.25 miles.

Plans and specification may be
seen at the Station Master's office,
Chatham, N. B., at the Chief Engi-
neer's office, Moncton, N. B., and at
the office of the Secretary of the
Department of Railways and Canals,
Ottawa, Ont., where forms of
tender may be obtained.

All the conditions of the specifi-
cation must be complied with.
A. W. CAMPBELL, Chairman,
Government Railway Managing
Board.

Ottawa, Ont., April 12, 1910.

GOOD ROADS

The split-log drag as an implement
for the maintenance of earth roads is
becoming more popular and more
valuable. For the maintenance of
earth roads it is replacing the grad-
ing machine, not that it can take the
place of the grading machine, but sup-
plementary to the good work this ma-
chine does in road-building.

Some of the chief advantages of the
split-log drag over grading machines
and wheel-graders are cheapness of
construction and cheapness of opera-
tion, costing about one-half, and be-
cause of its two blades and method of
construction it does not dig deep
down into the holes, like the single
blade scrapers, but passes over and
fills them up.

The split-log drag should be used
on earth roads just as soon as the
top is dry in the spring. It is not
necessary to wait until the spring
rains are over and the frost is all
out to get good results from this im-
plement, for by leveling down the
road and properly crowning it the
later rains are quickly shed to the
ditch, and washouts prevented and
quicker drying secured after the rains
are over.

To assist in drying roads some
to smooth out the surface of the
days earlier than the undragged roads
to keep the road free from ruts; to
maintain the crown; to assist in sur-
face drainage; to make a firmer road
bed; to prevent an accumulation of
dust—these are the functions of the
split-log drag.

To use a drag but once in the year
will give good results, but the sys-
tematic use of the drag will give re-
sults far in advance of the additional
cost. Roads should be dragged from
sight to ten times during the season,
depending upon their condition, and
better results will be secured if this
dragging is done when the surface of
the road is soft, but not sticky, so
that the unevenness may be planned
down, but the clay not rolled together
in balls.

A light drag is preferable so it
can be used on softer roads with less
expense, so that the same allowance
will provide for more dragging. In
this way it is possible at a small cost,
not exceeding \$7 per mile per year,
to keep an earth road always in good
repair. The light drag makes it pos-
sible to give the road a more rounded
contour, thus preventing a sharp peak
that occurs when the heavy drag is
used.

Good results must not be expected
from the very first, for to get the
very best results one must study road
material and the effect different weath-
ers of drag has upon it, but by
studying the conditions of soil and
season and road one will quickly be-
come skilled in the best way to use
this cheap but efficient good roads im-
plement.—Exr.

WHAT A GREATMAN SAID TO THE GREAT AMERICAN PEOPLE.

Parisian Sage is a discovery of a
celebrated scientist, who spent the
best years of his life in perfecting this
great hair tonic.

In giving his recipe to the American
people he said, "Parisian Sage is the
most delightful hair dressing in the
world, but it is more than a hair dress-
ing. It cures dandruff by killing the
germs that infect the roots of the hair;
it stops falling hair; it gives vigor and
strength to the hair roots. T. J. Durick
sells Parisian Sage at 50 cents a large
bottle and guarantees it to do all that
is claimed for it, or your money is re-
funded. If you do not reside near a
druggist who sells Parisian Sage, send
50 cents to Giroux Mfg. Co., Fort Erie,
Ont., and a bottle will be sent you all
charges prepaid.

THE LOWER BERTH

It is with singular patience that the
public have for years endured the big
Pullman monopoly. The traveler has
taken what he could get and been
thankful to secure even an upper berth.
The Pullman Company is the most
autocratic of railway corporations and
those who use its cars will note with
satisfaction that it is being brought
to time by the authorities who regulate
railway rates in the United States.
An Interstate Commerce Commis-
sion, requiring the Company to charge
less hereafter for upper berths than
for lower. The Commission's finding
that \$1.50 is a sufficient charge for a
lower, \$1.10 for an upper for a short
night's journey is one the principle of
which should commend itself to early
adoption by our own Railway Com-
mission.

**DR. VON STAN'S PINEAPPLE
TABLETS.**—Medical science by ac-
cident discovered the potency of the
pineapple as a panacea for stomach
troubles. The immense percentage of
vegetable pepsin contained in the fruit
makes it an almost indispensable
remedy in cases of dyspepsia and indi-
gestion. One tablet after each meal
will cure most chronic cases. 50 in a
box, 35 cents.—Sold by A. E. SHAW'S
Pharmacy, 32

The delusion of protection is never
abandoned because it is a delusion,
but because its results become intol-
erable. Britain should avoid the delu-
sion.

RULES OF THE ROAD

The following rules have been ad-
opted by the Farmers' Anti-Automobile
Society:

1 On discovering an approaching
team, the automobilist must step off
side and cover his machine with a
blanket painted to correspond with
the scenery.

2 The speed limit on country roads
this year will be a secret, and the
penalty for violation will be \$10 for
every mile an offender is caught go-
ing in excess of it.

3 In case an automobile makes a
team run away, the penalty will be
\$50 for the first mile, \$100 for the
second, \$200 for the third mile, etc.,
that the team runs; in addition to
the usual damages.

4 On approaching a corner where
he cannot command a view of the
road ahead, the automobilist must
stop not less than 100 yards from the
turn, ring his horn, ring a bell, fire a
revolver, halloo, and send up three
bombs at intervals of five minutes.

5 Automobiles must again be sea-
sonably painted, that is so they will
merge with the pastoral ensemble and
not be startling. They must be green
in spring, golden in summer, red in
autumn, and white in winter.

6 Automobiles running on the
country roads at night must send up
a red rocket every mile and wait ten
minutes for the road to clear. They
may then proceed carefully, blowing
their horns, and shooting Roman can-
dles.

7 All members of the society will
give up Sunday to chasing automob-
iles, shooting, and shouting at them;
making arrests and otherwise dis-
couraging country touring on that
day.

8 In case a horse will not pass
any automobile the automobilist will
take the machine apart as rapidly as
possible and conceal the parts in the
grass.

9 In case an automobile approach-
es a farmer's house when the roads
are dusty, it will slow down to one
mile an hour and the chauffeur will
lay the dust in front of the house
with a hand sprinkler worked over
the dashboard.—Washington Journal.

A RED LETTER YEAR

The year 1909 will be marked in
the calendar as a red letter year in
the history of the crusade against
depression. The movement recog-
nized a great impulse from the congress
of distinguished physicians which was
held in Washington, U. S. in the au-
tumn of 1908 to consider the further
measures to be taken to stamp out
this dreadful enemy to the life and
happiness of mankind.

Canada in common with the rest of
North America, perhaps we should
say the whole civilized world, has
participated in the renewed and in-
creased activity which resulted from
the deliberations of the congress.
Never since the organization of the
Canadian Association for the Preven-
tion of Tuberculosis has there been
such activity displayed in Canada in
this fight for life. Older branches
associations have been reinvigorated,
new associations have been formed
which are showing in many cases a
vigorous activity. Several new insti-
tutions for the relief and treatment
of consumptives have been opened
and the demand for our literature
has been larger than ever. Take it
all in all 1909 was a year of great
progress in the work of the Association.

The Tenth Annual Meeting will be
held in Montreal on the 7th of June
next and preparations are being made
to make this one of the best, if not
the best meeting in the history of the
Association.

SALT RHEUM, TETTER, ECZEMA

These distressing skin diseases are
relieved by ointment. Dr. Agnew's
Ointment is a potent cure for all eruptions
of the skin. Jas. Gaston, Wilkes-
boro, says: "For nine years I was dis-
figured with Tetters on my hands. Dr.
Agnew's Ointment cured it." Sold by
A. E. SHAW'S Pharmacy.—32

NOTICE TO OWNERS OF CATTLE

Subsection 3, section 100, chapter
106 C. S. N. B. 1903 imposes a fine of
\$5.00 on the owner of cattle running
at large in any incorporated Town.
The Police Committee of Newcastle
have decided to enforce this, besides
the ordinary expenses of impounding
under the By-laws of the Town.

T. RUSSELL,
Chairman Police Com.
May 3, 4i.

Congress is about passing a bill to
make tipping a crime, subject to a
fine of not more than \$500 for each
offence. The Quebec legislature should
pass a bill along the same lines with
this.

Rural Phones Solve These Every-Day Problems

Problem I. Bad Roads — The old way was to tramp over the road, but now you can drive over it. The new way is to have a rural phone installed. It will tell you when the road is bad, and you can avoid it. Ask for booklet 3116.

Problem II. Weather Forecasts — The old way was to wait until it was too late. The new way is to have a rural phone installed. It will tell you when it is going to rain, and you can get your things out of the house. Ask for booklet 3116.

Problem III. Police Current — The old way was to wait until the police came. The new way is to have a rural phone installed. It will tell you when the police are coming, and you can get your things out of the house. Ask for booklet 3116.
