THE PRESBYTERIAN COLLEGE.

That nothing will be done in locating the Presbyterian College for at least a period of one year, when the university matter will be more definite, was the conclusion which the Calgary Presbytery arrived at during the discussion on the proposed college, at a special meeting which was held Tuesday afternoon in the Knox church, Calgary.

NATIONAL TRUST BUILDING.

Work has been started on the excavations for the new National Trust building, which is to be located at the corner of First street, on Jasper. The contract for the National Trust Block has been awarded to Craydon Bros., of Winnipeg, and the local architect in charge of the work will be Roland W. Lines.

WILL BE SUITABLY DRAPED.

All the Federal government offices will be draped in purple and black according to advice received in a letter Thursday. The work has already been started upon and the new post of mourning will remain in evidence until after the King's funeral on May 20th. Several private companies and stores have also done some tasteful decorating in their windows.

SUIT FOR \$15,000.

Travis Barker has taken action against K. A. McLeod for alleged slander, claiming \$15,000 damages and a writ will be issued by his solicitors, Boyle and Parler, in the course of a few days. The suit arises as a counter action to the one begun by Mr. McLeod against Mr. Barker a few days ago for \$10,000 as the result of the issuing of circulars for which it was alleged the latter was responsible.

RAILWAY MEN HERE.

General Freight Agent Pinckney of the Chicago and Great Northern with Mrs. Pinckney and Roy Bullen, travelling passenger agent of the same road, came to city Thursday afternoon and are registered at the Alberta Hotel. They are making an inspection trip throughout the country and will go east over the Canadian Northern from here. They report a big business over their line which is profiting with the other western lines by the increased immigration.

BACK FROM EUROPEAN TRIP.

Mr. and Mrs. John Ross returned Wednesday from a lengthy tour to Europe. After visiting the continent they spent a very enjoyable holiday in the British Isles. Mr. Ross comes back to Edmonton more than ever imbued with faith in the Canadian West and in the belief that Edmonton is destined to be the commercial centre of the country west of Winnipeg. Mr. and Mrs. Ross have had a very enjoyable trip and are in excellent health.

ENGINE STARTS A FIRE.

The engine on the train from Stony Plain Thursday afternoon ignited a pile of manure on the engine, which lumber yard and the fire corps from No. 2 hall were called out shortly after six o'clock. Afterwards a party of men were sent out by Superintendent C. N. R., on hand cars and they succeeded in getting out the blaze before it had done serious damage.

AT THE POLICE COURT.

At the Police Court Wednesday E. J. Clarke was fined \$3 and costs for exhibiting a stallion on Jasper Avenue. The defendant was quite indignant and wished to know how he could move his horse from place to place without incurring penalties under the law. He was told to take the animal along the back streets, and if he wished to show him to admirers to take him to the market square.

FOUR DRUNKS APPEARED AND WERE GIVEN THE USUAL \$5 FINE.

A teamster for leaving his horse unattended on the street was assessed \$5.

DELEGATES TO SYNOD.

Delegates to the synod, which meets in Calgary on June 14th, from all the main churches, will follow: E. C. Pardee, substitutes, Percy Blythe, W. H. Clarke and Highway Smith. From Christ church the delegates will be James Henderson, George H. Gowen and the substitute, G. B. O'Connor. From St. Paul's church the delegate is T. F. Swallow. In addition to these Archdeacon Gray and the rectors of the differing churches will be in attendance.

PEACE RIVER LAND SEEKERS.

Under the direction of J. E. Whistler, an independent land guide, a party of settlers will leave on Monday next for the prairies of the Peace River district. Mr. Whistler states that the party will number nearly one hundred land seekers, who prefer trekking over the long road to the virgin country to the northwest and waiting their chances of a railway. They come largely from points in the United States.

MR. WHISTLER WILL RETURN TO TAKE UP ANOTHER PARTY ABOUT THE END OF JULY.

With this party a moving picture machine, now on the way from England, will be carried. It is Mr. Whistler's intention to take pictures through from Edmonton to Dunvegan and then by boat from Dunvegan to Peace River Canyon, above Huron's Hope, from there to the shoots below Fort Vermillion and back to the head of Lesser Slave Lake, by way of Peace River Crossing. The best land scenes for a distance of 400 miles and

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all druggists.

A PIONEER BANK.

Fort George Tribune—Fort George has been given a quiet but not unexciting on Wednesday in one section by pack-train baggage, books and bills. It came in unheralded by advance press notices and unknown to two other chartered banks that have had an eye on Fort George, but who were unwilling to face the terrors of a 100-mile trail. The bank at Quesnel was unaware of the presence of three banks in their city last week, when they registered from foreign parts. It is surprising indeed that J. Anderson, the bank inspector, who has seen 15 years' active work on the outskirts of British Columbia should have not the faintest of the Cariboo road and not disclosed his purpose, or even aroused the suspicions of the sleepy inhabitants of Quesnel; for, it must be remembered, there is rivalry even among banks in the matter of business. Fort George gets second-hand goods and second-hand news via Quesnel, and the fact that the entry of this bank was unheralded, came as a welcome earthquake to those who anticipated, at least, a few advance pointers. The B. N. A., however, played the game to the hilt, and came through as a major party on four. Even the Dominion and the Standard of Empire and other similar publications are doing the same thing. The Standard of Empire and other similar publications are doing the same thing. The Standard of Empire and other similar publications are doing the same thing.

FRIDAY'S MEMORIAL SERVICE.

The special committee of the city council composed of Aldermen Lundy, McKinley and Mould, were busy yesterday in making arrangements for the memorial services to be held next Friday. Although the details have not all been worked out it is probable that the service will take place in the afternoon in the Thistle rink.

DEATH OF MRS. JAS. DOUGLAS.

Thursday at the allotted term of three weeks and ten days quietly passed away Mrs. Douglas, the wife of the Rev. Jas. Douglas, of Victoria Avenue. The falling illness of Mrs. Douglas was of a long and painful nature. She was born in Scotland, and came to Canada in 1869. She was married to Mr. Douglas in 1869. She was a devoted wife and mother, and was well known in the city of Strathcona. She was a member of the Presbyterian church, and was a devoted worker in the church. She was a woman of high character and was respected by all who knew her.

NEW C. P. R. LINE.

Right-of-way Agent P. McPherson, of the C.P.R., who was in the city this week in connection with right-of-way matters pertaining to a long extension from Wetaskiwin to Winnipeg at a point near Sedgewick, the southern branch will leave this week for Edmonton to follow a direct line to Sedgewick, according to the information of the plans filed and will be given a general knowledge of the Canadian Northern from Strathcona to the C.P.R. line. The C.P.R. has completed negotiations this spring for an additional \$2,000,000 worth of right-of-way from property held for the proposed line to the high level bridge on the Strathcona side of the river. And the C.P.R. has completed negotiations for the bridge right of way. The C.P.R. has completed negotiations for the bridge right of way. THE DEATH OF JOHN THE BAPTIST.

Golden Text—He that is slow to anger is better than the mighty, and he that is slow to wrath is better than the valiant. Verse 1—Who was Herod the tetrarch? To what extent is the "fame," or the sayings, or the indirect influence, of a good man, instrumental in doing good, compared with his direct influence? Can you recall one or more cases of conversion through words repeated second hand? What has the "fame" of Jesus accomplished? Verse 2—Is it a fact that had men dread the company of aggressive good men and if so, why? Verse 3—How much good harm did John accomplish by reproving Herod of his sin? What can you say for, or against, the proposition, that it would have been in the interests of righteousness if John had kept his mouth closed, concerning Herod's sin? If John could have foreseen the result, what effect would that probably have had upon the act which cost him his life? Should a good man always reprove a bad man for his sins, and if not, what rule should he adopt in the matter of reproof? When does reproof do more harm than good? Can you be said for, or against, a man who marries the wife of his living brother? What is the moral, or spiritual, difference in marrying the wife of a living man with or without, a divorce? Specify the good that John accomplished through his death, and what he would probably have accomplished had he lived? Verse 5—To what extent does the moral sentiment of a community keep men from outward sin? Does the moral sentiment of a community have a healthful effect? and is a man who is inwardly governed by public sentiment a truly good man? At what stage, in the progress of these events, would God judge Herod guilty of murder? Verse 6—Convivial and social functions create mental and nervous excitement, and induce a state of insubordination to the common sentiment of the gathering. Now, in such a case, is it safe to compare the so-called dancing of action, until we have got back to our normal condition, and why? What influences induced Herod to make this rash promise to this girl? Examine by experience, or otherwise, the so-called dancing of round dances, and the square dances, and specify their moral tendencies? Verse 8—By what process did

TERRIBLE MILL POND ACCIDENT.

Six Girls and Two Boys, all High School Students, Drowned Near Wilkesbarre, Pa. Hamilton, Ont., May 12—Tom Fenton was committed for trial on the charge of murdering his father, Elijah Fenton. Arthur Wilson swore that when Tom was arrested the latter's wife said: "I'm afraid suspicion is too great, Tom." In jail Tom had said he could not explain the blood on his overalls unless Mrs. Kerr, his father's housekeeper, had put blood on them.

RECOGNIZING OVERSEAS DOMINIONS.

London, May 12—It is considered as not improbable, as the outcome of King George's manifest recognition of the independence of his dominions overseas, that the commonwealth and other colonial high commissioners here may be raised to the full status of ambassadors of foreign states. Portage la Prairie, May 12—During the past couple of nights quite heavy frosts have fallen in this district, but so far as can be learned have done no material damage except to delay the growth of farmers in the district state that wheat will not be damaged at all, but the oat growth will be retarded.
