Four-Year-Old Jack Is "Helping Daddy" Give Out Election Cards.

By HELEN McMILLAN.

"Is your mother at home?" "Yes."
This from a small girl in a navy reefer, playing in front of 137 Wharn-cliffe road. It was followed up with a merry smile, which plainly said "Welcome," and a sideways glance which seemed to mean: "Now, I wonder who was are."

wonder who you are."
I recognized the glance immediately, because I was feeling just the same way about her. Was she John Anderson's 6-year-old daughter Jean, and if so, where was John, Jun., re-puted to be the image of his father, the mayoralty candidate?

The one sure way to find out was to ring the door-bell and see whether "Mother" meant Mrs. John Ander-

Intuition seemed to tell me that it did, and yet when the door opened and I stepped inside, I wasn't so sure Was this slip of a girl with pale redgold hair and dimples that came and went as she smiled, the mother of 6-year-old Jean?

It proved that she was, for she answered to the name of "Mrs. Ander-son," and was quite aware of the fact that her husband was running

mayor. Mrs. "Mayoralty-Candidate." I had come to see just what Mrs. "Mayoralty-Candidate" was like, and

I confess I received a shock. I didn't expect anyone quite so young look-ing or so pretty. She was all in gray from the tips of her toes to where a modish lace jabot was fastened at her throat with a feminine little pin.

And everything about her was as neat and pretty as herself. I was received in a room hung with dul received in a room hung with dull rose curtains, and where there were plenty of soft cushions and comfortable chairs. Through an arch, way I could see the dining-room beyond, homey and attractive looking. And do you know I wondered how John Anderson could stay away from home long enough to be mayor of London.

Mrs. Anderson isn't very keen about this "staying away from home" business but she's game, and is willing to give her husband up to public life for a few years. "Not for too long though," is her plea.

"I should like to see him win, now that he had said."

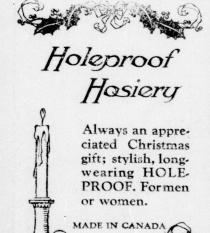

that he has decided to run for mayor," she said. "But if he is defeated, I have this consolation—III have him all next year"-this with wistful smile.

The longer I stayed, the more

The longer I stayed, the more I liked Mrs. Anderson. I liked her bright smile and the dreamy expression which floated across her face every once in a while an expression which seemed to say that there was a whole lot more to her than the presty picture which she presented pretty picture which she presented as she sat, almost engulfed in a large, comfortable chair.

She says that she hasn't time for clubs, now that the children are small. Perhaps when her children are grown up, she may do more of that kind of thing. But one wonders. She seems such a home person.
