## RESTIGOUCHE IS GOOD ENOUGH YET

Interesting Interview Regarding Real Estate—Mr. P. M. Shannons Views.

### A REASON WANTED

Looking to the fact of the activities of St. John people in selling Courtney Bay properties, and the migration of our own townspeople to Western provinces, the Graphic interviewed P. M. Shannon of the firm of Shannon and O'Dea and in the course of an interesting conversation he said "I would like to know the reason why such a large percentage of New Brunswickers not only make it a practice to boost every other section of the Dominion and even the United States, but to glory in the fact of being called 'Knockers.' For the last two years I have tried to learn all I could of this great country of ours, and I have come to the conclusion that Canada offers the greatest opportunities in the world. Why New Brunswick should fall behind any of the other provinces, is a thing I don't understand, the only reason appearing to me to be the famous 'Knocker.' Will not our business men if not for our good at least for their own tell the truth about their Western deals, and the truth I want them to tell is this, why do they not inform the public of the losses they make in the West as well as the gains, and why don't they tell of the profit they made in New Brunswick as well as the losses.

Here is a Western deal of my own. Five years ago I bought a lot in the great city of Saskatoon for \$125. I paid taxes on it for four years, 1911 rates being nearly \$5. On my instructions real estate men have been trying to sell that lot for the last eight months for \$150.00 and have been unsuccessful as I can show by their letters to me. I came pretty near getting clear of it, about 10 days ago to a young man who was selling lots (over two miles further from the G.T.R. station and the university of Saskatoon than mine) for \$350. When he approached me I offered him my lot for \$480 on the installment plan, and he jumped at the chance. He had great satisfaction in saying to me in the presence of others that he made \$400 profit on me, and I made my money. I hope I would make a thousand, that I was tired looking at my paper and he could have it, and I was always glad to know that anyone who bought from me made a profit on the deal. I invited him to come down to

## FISHING SMACK IS SUNK BY CANADA

Fishing Boat is Run Down by Steamer and one Man Drowned.

### HAD NO LIGHTS

On the last run from Gaspé to Campbellton the S. S. Canada ran down a small smack with two men, L'Hebrev and Thibideau on board, one man, L'Hebrev being drowned. It appears that the Canada left Grand River about 2 a. m. Friday morning and the fishing smack was right in the steamer's track. No light was showing and both men were asleep. Thibideau was picked up by the crew of the Canada, but the other man was drowned.

From a further report it appears that the fishermen heard the steamer's whistle, as she put into Grand River, but were of opinion she had passed them coming out and lay down to sleep.

### WHAT THE LOCAL PAPER DOES

What the late Hon. David Davis once said:

"Each year every local paper gives from \$100 to \$5,000 free advertising for the benefit of the community in which it is located. No other agency can or will do this. The local editor in proportion to his means, does more for his town than any other ten men, and in fairness man with man, he ought to be supported, not because you happen to like him or admire his writings but because a local paper is the best investment a community can make. It may not be brilliant or crowded with great thoughts but financially it is more of a benefit to the community, than a preacher or a teacher. Understand us now, we do not mean morally or intellectually, but financially, and yet on the moral question you will find the majority of local papers are on the right side of the question. Today the editors of local papers do the most work for the least money of any people living."—Free Lance.

much much lumber of all descriptions we have, what kind of harbors, or do they know that an auto left Dalhousie at 2 p. m. went up the Jacquet River landed eight salmon and were back in the evening. Do they know this their own country, can they show us a better centre than Campbellton between Quebec and St. John with as good resources, show us where they will find churches, schools and better institutions for the same number of people, or let them show us where people as a whole can live better and do less work than right here in this country and I will give credit where credit is due and call that man a good 'knocker' otherwise let them chain their ways, say a good word now and again for your town and country or get out, and before they hit the pike I wish they would call around and see me, as I would like to show them what they are leaving behind."

## ST. MONNOIR COLLEGE AFFAIR

Priests Bow To Decree Of Rome

Montreal Aug. 15.—Events moved rapidly yesterday in struggle between the priest of the St. Marie Monnoir College at St. John's, and the ecclesiastical authorities who interdicted them for refusing to remove their institution from that town and return to the diocese of St. Hyacinthe, where they were located under Bishop Bernard's jurisdiction some years ago before a disastrous fire destroyed their buildings and caused them to decide in favor of removing to some more favorable site.

Yesterday a letter from the Sacred Consistorial Congregation at Rome, a court of last resort, was read in all the churches throughout the diocese of Montreal and St. Hyacinthe, presided by a brief joint episcopal note from Archbishop Brochu, and Bishop Bernard, fully supporting the interdicted rulings which were supported by the apostolic

## MIRAMICHI BRIDGE FELL THIS MORNING

Two Spans Broke and the Channel Is Blocked.

Chatham Aug. 15.—Two spans of the Southwest bridge, that forms the chief link of communication across the Southwest Miramichi River, between the most populous parishes of the county, went down this morning at a quarter to twelve, and now partially block the channel in the river, as well as cutting off all communication from shore to shore. The spans that went out are directly over the channel and while the upper work fell clear from the foundation bases, part of the woodwork grounded in the channel, and so far blocked it that rafts of logs will not be able to get through. Most of the mills on the Miramichi are practically dependent upon the regular supply of logs from the Southwest Boom Company at Millerton, a few miles above. The situation is serious, for the mills and the 2,500 men who get their means of livelihood from. The bridge has been in a very bad condition for the past three years, and efforts have been made to get some repairs done, without success. There is great indignation at the apathy of the government in failing to repair the structure and prolong its life until some of her bridge had been constructed. The bridge was the only one in 40 miles on the river.

## FIRED SHOTS AT FISHERMEN

Young Man named Duncan Threatened Life of Campbellton Man

### SHOT STRUCK CANOE

A few days ago Messrs. Chas. W. and J. F. Andrew went to Tule Head to enjoy a days fishing. Upon arrival at the river they wished to cross to the opposite shore. To accomplish this they borrowed a canoe which was pulled out on the beach and set out. When about half way across the river they were startled by the report of a rifle and the hum of a bullet. They looked toward the shore and saw two young men one with a rifle who deliberately aimed at the canoe and fired another shot which passed within a few inches of Mr. Andrew, making a hole in the canoe just above the water line between his legs. Had he been sitting he would assuredly have been shot. The young man then called out "Come ashore with that boat or I'll shoot you."

It is needless to say they came, and on returning to town had a warrant sworn out for a young man named Duncan who did the shooting, and he was arrested but released on bail.

Despatches such as this should not be leniently dealt with.

delegate at Ottawa, and condemning in the most severe terms the priests who have opposed the ecclesiastical superiors.

Following this an authoritative announcement was given out that the priests had decided to submit to the rulings of the Holy See, that the Mr. Edwards, whose claims against the college had resulted in the civil courts order, declaring that the priests must not leave St. John's until these claims had been duly settled, had agreed to accept \$35,000, permitting the priests to go where they chose, and that the priests, following their submission would be rehabilitated and their suspension lifted.
