THE HORSES THAT WILL BE ALLO TED WEIGHTS NEXT WEEK.

A Good Entry List-Betting on the Suburban—Argonant Rowing Club Annual Meeting—Toronto Defeated at Evanaville—
The N.A.L.A. Meeting—Spots of Sport.

The Ontario Jookey Club handleaps, which closed on Wednesday last, certainly have an excellent showing, both as regards quality and quantity, and the club is to be congratulated on its success. The popular handleap, the Cash, 1½ miles, shows an increase over last year, while the class of horses is also much better than in any previous season, including such good ones as Drake Carter, Harry Cooper, Minnie Palmer, Purse, Shamrock, Lady Reel, etc. It will afford the handleappers a rare chance to equalize the horses and convince the public that they understand the true meaning and intent of a handleap, viz., to give every horse named in a handleap with the humblest pretensions of racing form the same chance of catching the judge's eye as the best horse in the Race.

The absence of the content of the part of the cash of

there is certainly no sense in giving purses with weight for age, as in nine-tenths of such races the horse who is master of his weight and dis-tance, all things being equal, is almost sure to win; but in order to equalize the horses and give all presumably equal chance handleaps were invented, so that upon purely republican principles the sovereignty of weight should level all distinction.

But as charfing as the idea, may appear it is were invented, so that upon purely republican principles the sovereignty of weight should level all distinction.

But as charming as the idea may appear it is purely fictitious, as no reasonable difference of weight can bring an indifferent horse in both speed and stamina upon an equality with a good race horse over a distance of ground, for every furlong in distance makes a decided difference between horses of nearly equal merit in speed but differing in stamina. Weight which would bring a dozen within a space of two lengths at a link in three-quarters of a mile would separate the same lot more than a distance at one-and-a half miles.

The top weight should not be less than 130 pounds, and might be 135 pounds. Then the handicapping may have a chance to equalize the good horses at least, and show to the public that they have not only uone what handicappers are expected to do, study the form of the various horses, but so adjusted the weights that the result will be in doubt until the race is over. Certainly no owner can complain if the moderate horses shall have a chance to pass the winning post first, and such an adjustment of the weights will bring to the post fully as large a field as the system of allowing the best horses, moderately weighted, of have the finish to thomselves and the field strung out behind them for a furlong.

The D minion Handicap and Street Railway Steeplechase Handicaps have also filled weil, and it is to be hoped that the handicappers will do justice, to all when they allot the weights mext week.

TERRA COTTA'S GOOD WORK. He and the Other Horses at Nashville are Boing Well.

NASHVILLE. April 12.—Great preparations are in progress for the spring meeting, to begin May 2. Active work has been kept up for some weeks and all the horses are improving in looks and condition. As we have had comparatively no winter all the horses that have been here since fall are materially better than those that wintered further south.

Mr. Hunkins, better known as the Chicago NASHVILLE. April 12.-Great preparations been here since full are materially better than those that wintered further south.

Mr. Hankins, better known as the Chicago Stable, includes twenty-six thoroughbreds, among which are Terra Cotta, Little Minch, Jacobin, Huntress, Billy Pinkerton, Viking, Smalene, Macbeth II, and other good ones. Affare doing fine work and taking preparation nicely. The great Galen could not look better than at present and Egmont and Terra Cotta appear to be in excellent health. Some fast work was done at West Side Park this week. Terra Cotta was sent a mile in 1.49 and Galen three-quarters in 1.25. Ingo, who worked a half the other day in 512, has been sold by Lyles & Palmer to Nick Becker for \$400.

Betting on the Handicaps.

New York, April 12.—There has been no material change during the last day or two in the odds offered by the bookmakers in outside cities about the Suburban and Brooklyn. Torra Cotta and the Bard are still prime favorites, while Badge, grand colt as he was and is still described to be, sleeps securely on without any change in the odds about him.

In Brooklyn there is a strong "tip" about Prince Reyal for the Suburban and Hanover for the Brooklyn. In one book the odds about Prince Reyal for the Suburban and Hanover of the Council showed that there were in the Prince Royal have materially decreased.

From the same source comes the assurance that Mr. Belmont will also, win the Volunteer, with George Oyster. There has been but one change in the odds offered about that handing.

The Senate went into secret session and the public withdrew. The trial of Gen. Boulanger and his associates was then formally begun. A motion from the Right declaring that there was no ground for a judicial inquiry into the conduct of Boulanger was rejected by a vote of 209 to 56. Exasperated by recent measures taken by the Government against Boulanger, the party that acknowledged him as chief no longer restrains itself in the matter of abuse of the party in power. The amount and character of insults the Boulangist organs manage to turn out daily is astonishing. Henri Rochefort, who has hitherto enjoyed a monopoly in this line, has now numerous imitators. There are not more than three or four Boulangists in the Senate, and the Conservative Senators will in all probability vote against Boulanger in a body. They have, however, given it to be understood that if the charges against the accused are not substantiated at the first sitting, or if the acts prove not to be of a treasonable nature; they will press forward a motion for the Senate to declare itself incompetent.
