MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Toronto.—I gladly give you my testimonial in favor of your wonderful medicines. Last October I wrote to you for advice as I was completely run down, had bearing down sensation in the lower part of bowels, backache, and pain in the side. I also suffered terribly from gas. After receiving your directions, I followed them closely and am now entirely free from pain in back and bowels, and am stronger in every way.

I also took Lydia E. Pinkham's Vegetable Compound before my baby was born, and I recommend it highly to all pregnant women.—Mrs. E. WANDBY, 92 Logan Ave., Toronto, Ont.

Another Woman Cured
Maple Creek, Sask.—I have used Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and I am now in perfect health. I was troubled with pains every month. I know other women who suffer as I did and I will gladly recommend your medicine to them. You may publish this if you think it will help others.—Mrs. F. E. COOK, Maple Creek, Sask.

If you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs.

To Keep Boys at Home.

Principal Creelman, of the Ontario Agricultural College, is telling the farmers if they want to keep the boys at home they must set the example by remaining on the farm themselves. Instead of moving into the towns and cities as soon as they think they have enough to live on. It would, perhaps, be as well if many farmers, for their own sakes heeded this advice. They often suffer disillusionment when they move into the city to spend the evening of their lives in comfort. They find it difficult to accommodate themselves to their new conditions. They are like the proverbial fish out of water. The days of many good men are probably shortened by changes for which their natures and habits are not prepared. Yet the desire for change is constant and natural, and many a city man longs anxiously for the quiet of a rural home as the farmer does for the supposed comforts and attractions of the city. Perhaps both are liable to disappointment, through no fault of either city or country, but because human nature, while it is always longing for change, is not always ready to accommodate itself to the change.

BEARING DOWN PAINS.

What woman at some time or other does not experience these dreaded bearing down pains. Mrs. E. Griffith, of Main St., Hepworth, Ont., says: "A heavy bearing-down pain had settled across my back and sides. I was often unable to stoop or straighten myself up. Many times each night I would have to leave my bed with the irregular and frequent secretions of the kidneys and just as done out in the morning as on retiring. I was languid and would have to let my house work stand. Nothing I had tried would benefit me. I learned of Booth's Kidney Pills and concluded I would try them, which I did, and soon found the long sought relief. My back strengthened and I began to feel better and stronger. I now enjoy my sleep without being disturbed and feel grateful to Booth's Kidney Pills for what they did for me.

Booth's Kidney Pills are a boon to women. She would know less of backaches if she took more of these wonderful Pills. They are nature's greatest specific for all diseases of the kidneys and bladder. All druggists, 50c. a box, or postpaid from The R. T. Booth Co., Ltd., Fort Erie, Ont. Sold and guaranteed by T. B. Taylor & Sons.

Which is Which?
Above a certain cafe there are two rooms, the one being occupied by a women's "sewing circle," the other being the dining room, the cafe. Outside the cafe hangs the sign, "Grill-room Upstairs."
The German proprietor of the cafe is still wondering why the president of the sewing circle denounces the sign as libelous and demands its removal.

Humane.
An Atlanta man not long ago met a ducky who was driving a horse so thin that it staggered as it walked. "Why don't you put more flesh on that nag?" indignantly demanded the Atlantan.

"Scuse me, boss," replied the driver. "but I's doin' de best I kin. Caint' yo' see, boss, dat po' boss kin hardly carry what little flesh he's got on him now?"

Gets Wiser.
Dubley—Every young man thinks he'd be perfectly happy if he could only have his own way.
Wise—Yes, and the older he grows the happier he is to think that he didn't have it.

Not a Musician.
"Is that gentleman a musician?" asked the inquisitive Mrs. Smith of the elevator boy as a long-haired individual left the elevator.
"No, ma'am," was the response; "he ain't no musician; he's a singer."

The Bald Headed Man may Look Wise

But if He Had Been He Would Have Hair Now

You do not want a scientific treatise on the hair follicle—you are not particularly interested in the name of the German scientist who isolated the bug that is said to cause baldness. What you do want to know is how to save the hair you have and make it strong and lustrous.

Nyal's Hirsutone will do it better than anything else. It is not claimed that Hirsutone is a wonderful scientific secret—but it is the concrete result of all that is proven in the scientific treatment of sick and diseased hair and scalp. It is a happy combination and you will notice a prompt improvement in the feeling of the scalp and the look of the hair. Hirsutone loosens and removes all scaly and matted deposit on the scalp—stimulates the hair bulbs and gives new life and vigor to the hair itself. Nyal's Hirsutone gives back to the hair and scalp just what it has been robbed of by your neglect and abuse. It is time to start right. Use Hirsutone.

It is one of the Nyal remedies and no higher recommendation can be given for it than all good. Ask your Nyal Druggist. He recommends it.

Barring Out the Wolves.

Every Siberian village is surrounded by a big stockade some ten or fifteen feet in height. This erection is to prevent the sheep and cattle from wandering into the forests and so falling a prey to the wild animals which swarm therein. In addition to this, each village makes common property of an enormous number of dogs of the wolfhound breed, which are kept for protection from the wolves which in winter, desperate with hunger, descend upon the villages. Such dogs are rightly prized and, though they belong to nobody in particular, are kept well fed and cared for. They are huge beasts, almost as savage as the wolves themselves.—Argonaut.

Rheumatism In Pigeons.

Until I kept a flock I never realized the thousand natural shocks a pigeon is heir to. Among the most insidious of these is rheumatism. If they sleep near an open window or in a draft it is pretty sure to develop, frequently in the form of wing disease. The elbow joint is the part most affected, probably on account of being the most exposed and liable to become chilled. The main symptom is a lump on the wing and feverishness. A bird so afflicted should be placed alone in a pen and fed plain food. Pluck the feathers around the affected joint and paint the swelling with tincture of iodine and it will gradually disappear.

FROST FENCE

This fence is made in Canada entirely of Canadian products. All the wires are full size true to gauge. Laterals and uprights are all No. 9 Hard Steel, well galvanized stock. Laterals are given a deep and continuous wave for "give and take." These coils or waves serve like a spring keeping the fence tight throughout all seasons and under all conditions. It is used by the principal farmers everywhere. The cost to you is no more than the price of other fence of equal weight. Insist on getting it.
