We are surry to learn that prospects in the young topublic were any thing but favorable welfare. The very serious inroads of the Indians in the West, and the unfortunat difficulties between the departments of the Winthrop, Dec. 4.

According to returns, we see that in population of 473,984 there are 189,297 scholars between the ages of four and twen ty-one years, and that there was actually expended in 1837 for the support of schools, \$221,448, 68. Montreal, Nov. 26. We instit from the Quebec Gazette, that, of the Court of King's Bench, on behalf of James Teed, confined on suspicion of treason, for a writ of Habeas Corpus, to be directed to the gaoler of the district, on the ground o the illegality of the recent Ordinance passed by the Administrator of Government and Special Council, suspending the Provincial Ordinance of the 24th, Ceo. III. c. I, intro ducing the Habeas Corpus into this Province After bearing the parties at length, the lunge granted the writ applied for. In the tace of the Ordinance 2, Victoria, Cap. IV., we are at a loss to conceive on what grounds the Judges were induced to grant th by this Ordinance, it is enacted that the Ordinance of 1785, in as far as relates to cases of High Treason. Misprison of high Treason, and Treasonable Practices, should be suspended till the Ist of June next. But, if appears that the Judges awarded the writt on the ground that the Hab as Corpus Act, of lowing the S1st, Chas. II, cap. 2 is in lower. Province. But this is not the case. The Act in question was never in force in this ; and lorning no part of the crimihal law of England, it was not introduced by the Imperial Statute of 1774. It was not till 1785 that the Habeas Corpus was enfor-ced in this Province, by the Ordinance now suspended, which is a clear proof that this Ordinauce forms no part of the creminal law. The conduct of the Quebec Judges, therefore appears to us to be founded on the most erroneous principles; and we trust som further notice may be taken of so extraordina-
