MAN POR

In the country there is no need to erally. We may limit the geographical be rich in order to be independent. area, and say with equal propriety. There is no limit to the sunlight and one part of our province knows little the pure air. There is no danger of starving. The smallest farmer, if he exercises thrift, may live on food that the poor man in the city would dream how much do the lobster fishermen of about. The funny man of the news Western Nova Scotia know about the papers joke grimly concerning the doings of their eastern brethren, and long hours the farmer must work, al though they themselves are drudges The fishermen's world is certainly It is only at certain seasons that h very unevenly divided. Speaking of needs to work longer than the creat ure of wages sweating in the city, and he has the satisfaction of knowing that he is working for himself. man, in city or country, lives by himself Geographically favored they are not alone. Each must maintain relations only in direct touch with a good martowards the rest of the world. Bu ket, but the same happy circumstance there is no other man, rich or poor has led to the initiation of a lucrawho is so nearly his own master a tive industry among them-we refer to the farmer.

the boneless fish industry. The boy on the farm has reason for Eastern fishermen, the Cape Breton being grateful. He is apt to begin lif men especially, are hampered geowith the heritage of health upon graphically, and . as a result, comwhich to build. He is not isolated, as mercially. Compared with our western a few decades ago. The probability is men they are victims of circumstances that the mail is brought to his door They are in the grasp of magnates to that there is available a telephon whom they pay tribute and in return service. The school within reach is a receive a pittance. They have been good as the school of the city, with content, or rather completely oblivibetter sanitation and a better moral ous to better conditions. But recently atmosphere. The amusements, simpl

there has been an awakening, and as they may be, are as instructiv there is a knocking at the door 'for and as elevating as the cheap theatres a measure of justice. Yet the boy, getting to the age of Transport a fisherman from Cape liberty, leaves the farm, where h Breton to Port Maitland, and what would have developed into a substanwould interest him most? Not the tial citizen, and hurries to the city people or houses, for human nature is in which the chances are that he will much the same all the world round, attain no more individuality than one and landed wealth is in evidence ther fly in a myriad swarm.-Exchange. as here. What would interest him.

and hold him spell-bound for a time would be the handsom ; cheque pock eted for a crate of lobsters. In short This is to certify that I have used Empire Liniment in my family for two years, for all general purposes, he would see a fisherman here receiving three or four times the sum received by him for the same quantity of lob-

and find it superior to any liniment that I have ever used, for internal hat I have ever used, for meeting and external purposes, and I would markly recommend all families to use The contrast is too great, comparifrankly recomm t as a household remedy. (Signed) F. H. DAKIN. (Signed Digby, N. S. Our packers here afford a market to the fishermen for a size of lobster below the regulation for shipment.
