### ATHLETICS.

The hockey season moves on apace and it is now only too evident that no championship will be ours. The fault lies partly with ourselves and partly with our stars, that we are unsuccessful. Continuous snow-storms have made the rink unfit for regular practice, and without practice, victory is impossible. But there has also been a total lack of enthusiasm and energy on the part of several of the players. After the close game of the 3rd inst. with the strong Aberdeen team, we certainly had a right to expect that the return match of the 17th inst., would not result in the miserable fizzle of 9 goals to 3. The monotonous regularity with which Macdonald, Tobin and Baskerville allowed a weak set of forwards to score, was only equalled by the persistent refusal of Walsh, Copping and Belanger to give effective support to McGee, who alone played well and scored the three goals for the college. Notwithstanding the ill-luck of the team, the hockey season has so far been a source of much pleasure and recreation to the students. Below is the record of recent matches:

Jan. 29th—O. U. vs. Creightons, Creighton Rink. Won by O. U. score 3-1.

All hail to the "Doolittle" Hockey Players! By their two draws with the second team, they have succeeded in so admirably mixing up things that it is no longer possible to determine to which of these organizations belongs the official title of "Doolless Champions." We regret exceedingly that the "Doolittles" went out of training immediately after the last match by indulging in hot lemonade, but we are sure that their indefatigable captain, Joe Doyle, will soon have them again under complete control.

The "Doolittles," are Messrs. Gosselin, Fleming, Dontigny, Cleary, M. Foley, A. McDonald, Capt. J. Doyle and 84 substitutes.
