

ing with Dr. Burgess or of examining his collection, know how well qualified he is to instruct others, as well in the science of accurately identifying his material as in the art of making, preparing and mounting beautiful specimens for the cabinet. The only thing to be regretted is that the edition is a small one, and consequently it cannot come into the hands of many who would like to see it. We have received two copies for the club library, a perusal of which we highly recommend to our botanical members.

FLORA OTTAWAENSIS.

It has been decided by the Council to reprint the 13 pages of the "Flora Ottawaensis" which have so far appeared, and for the future to keep a separate pagination for that part of the OTTAWA NATURALIST. This is done to meet the wishes of several of the members who have expressed a desire to have these pages printed in such a manner that they may be separated from the monthly numbers without injuring the rest of the volume.
