

PREFACE

Working Papers, the result of research work in progress or the summary of a conference, are often intended for later publication by the Institute or another publisher, and are regarded by the Institute to be of immediate value for distribution in limited numbers -- mostly to specialists in the field. Unlike all other Institute publications, these papers are published only in the original language.

The opinions contained in the papers are those of the participants and do not necessarily represent the views of the Institute and its Board of Directors.

François Lafrenière was research assistant for the Cyprus Research Project. Robert Mitchell was a former fellow at the Institute.

Robert Hill
Director of Research
