

Recognizing Excellence in Exporting

Nominations Sought for 1996 Canada Export Awards

No sooner had the lights set on a highly entertaining Canada Export Award ceremony in Fredericton, New Brunswick, on October 2, that the search for next year's winners was under way. This is where you come in!

The Canada Export Award Secretariat (TOO) is putting out the call for nominations of companies to apply in 1996. You have always been very helpful in recommending deserving companies for the Award, and so TOO is asking for your help once again.

Nominating your client(s) for an Award is

an excellent opportunity to show them that you are impressed with their exporting performance. All of the nominated companies are contacted and you are acknowledged as the nominee, which is another reminder of your support.

Please keep in mind that applicants must be firms, or divisions of firms, resident in Canada that have been exporting for at least three consecutive years. If you know of a company that deserves to be recognized for its excellence in exporting, send your nominations to Beverly Hexter/TOO by February 28, 1996.

The 1995 winners are profiled in the October 16 issue of *CanadExport* (Vol. 13, No. 17).
