

October 22, 1932.

Professor T.W. Cameron,
Institute of Parasitology,
Macdonald College,

My dear Professor Cameron,

Thank you for your letter of October the 14th in which you sent me a copy of "Helmánthology and its Application to Live-stock". I hope to get a chance to read this on Sunday. I have been so pressed this week that there has been no time to get to it.

When you and Mrs. Cameron are settled, I hope you will come and have tea with us some afternoon.

Ever yours faithfully,

Principal.
