Both Parties Committed to Protection, Says Finance Minister Therefore New Tariff Changes Little From Old National Policy

MR. FIELDING ADHERES TO PREFERENCE EXTENDED TO OVER-SEA POSSESSIONS

Drawback Clause a New Feature and Dumping Provision is Extended to the Free List—If Tariff is Shown to Facilitate Formation of Combinations in Restraint of Trade Duty Will Be Removed.

IRON AND STEEL BOUNTIES EXTENDED FOUR YEARS

Government Refuses Protection to Tin Plate Industry—Hon. G. E. Foster Denounces Measure as Admitting Millions of Dollars' Worth of Goods That Should Be Made in Canada.

Ottawa, Nov. 29.—(Special.)—The new tariff is a revision in form rather than in substance. There are some slight increases and some slight decreases, but the result will work no change in the total amount of duties collected.

The British preference remains, and if anything, is a trifle more pronounced. An effort is made to promote trade with Great Britain by admitting from British possessions free of duty some articles upon which there is a small duty as against foreign countries.

Raw sugar suffers a slight increase amounting, under the preference, to 71-2 cents per 100 pounds. As substantially all our raw sugar comes from the British West Indies this change results in an increase in revenue amounting to about \$300,000 per annum.

The duties upon rice, oranges and lemons are reduced, causing a deficiency of about the same amount. Iron and steel receive bounties for four years more upon a sliding scale, as heretofore. Tin plate receives no protection, but there is substantial relief to the farmers upon agricultural implements.

The general trend of the change is slightly upwards. The new feature of the tariff, apart from classification, is found in the so-called "intermediate tariff." This is a rate about 10 per cent less than the general tariff, which may be and order-in-council become effective in favor of any nation which desires reciprocity.

POINTS IN NEW TARIFF

The Fielding tariff of 1906 continues the British preference, which the minister says is a good thing and has given Canada prominence in the eyes of the empire and of the rest of the world. The preference is extended to all the outlying portions of the empire.

40 DEAD; HUNDREDS HURT EXPLOSIVE WORKS BLOW UP

Bodies of the Killed Terribly Mangled—Shock Felt for Ten Miles.

Dortmund, Germany, Nov. 29.—So far as can be ascertained this morning, 40 persons were killed, 86 were dangerously wounded, and several hundreds were slightly injured as a result of the explosion last night of the roborite factory near Annen, where the Krupp Works are located.

On the main road to Annen all the houses were razed to the ground, the bodies of the killed being terribly mutilated. The surviving parents dragged their sleeping children from their beds, collected their portable possessions and fled from the collapsing buildings.

A second explosion occurred at 6 o'clock this morning. Experts declare that, considering the great precautions which the explosives were stored, the disaster can only have resulted from some oversight. Emperor William has directed General Von Schoen to visit Annen and Witten, and has subscribed \$250 for the relief of the sufferers.

SUBMITTED TO ARBITRATION COMPANY ASKS MEN TO RUN CARS

Provincial Railway Board to Consider the Hamilton Affair—Manager Green Says Invitation Will Be Extended to Strikers to Return to Work.

Hamilton, Nov. 29.—(Special.)—At 9 o'clock this evening the union and company signed an agreement to allow the Ontario railway and municipal board to act unconditionally as arbitrators of all the questions in dispute before the first arbitration.

For the company C. K. Green issued a statement addressed to Ald. Stewart as follows:

"In connection with the agreement to refer all matters in dispute to the Ontario railway and municipal board, it should be understood distinctly that the service is to run unimpeded with the force operating same or such force as the company may use for that purpose, and it is possible that the company will call upon some of its old employees if they should be available."

"It seems to us that the strike should be called off simultaneously with the agreement being entered into, but we are not making that a condition. What we want and what the public wants is peace and the discontinuance of the disturbed condition of affairs in this city."

"While the arbitration is taking place possibly some of the men might be willing to return to the company's service, while others would exercise the option of not doing so, and it, therefore, seems unnecessary from any point of view that the strike attitude should be continued."

"In signing the reference to the arbitration of the railway board we are only doing what we have for the last two or three weeks signified our willingness to do."

The men say "We cannot return to work until the strikebreakers leave." The railway board will commence the arbitration at 11 a.m. Friday, and expect to bring in a decision in two or three days. It is thought that the soldiers will be withdrawn at once. The East King-street line was operated this evening, and there were no disturbances.

It is thought that the railway board will ask the strikers to go back to work at once, while the arbitration is being carried on. The company announces it will build a new roadbed, and operate up-to-date cars.
