City of Ottawa and the Canadian Granit Company's Appeal-Court Reserves Judgment.

The Court of Appeal reserved judgment on the appeals of the defendants in Dwyer City of Ottawa and Canadian Granite ompany. In July last Justice Robertson granted an injunction restraining the corporation of the city from paying over any money to their co-defendants, the company, for laying asphalt pavement on por of Queen-street east, Wellington-stret and Metcalf, Ottawa, and from making any

The plaintiff, a ratepayer, complained The plaintif, a ratepayer, complained that tenders were not previously advertised for, pursuant to City Bylaw No. 1073, and thousands of dollars were being paid over in breach of the law. The city set down this appeal, and procured a stay of proceedings, and then repealed the bylaw, and passed another, so that the capital has not suffered from unfailshed roads, but both defendants ask the court to say that Justice Robertson erred in granting an injunction. A Divisional Court will sit next week.

of the Board of Trade that the lafe executive and Council are still opposing the winding up of the gratuity fund, as decided upon at the last general meeting. As I understand it, that question was definitely settled at the last meeting, and, unless the late executive and Council are untrue to the trust reposed in them, they should have taken steps to put the decision then reached into effect at the earliest possible moment. Will you kindly inform me what steps, if any, have been taken in this regard? Yours truly, Joseph Kilgour, Toronto, Jan. 21, 1898.

COOL AND MOIST

Speculation in stocks to-day was largely of a professional character, with tone ir regular. Continued apprehension over discussion over silver in the Senate and intervention in Cuba in House, has had a tendency to put a check on outside investment and speculative business to a great extent, which has placed market in control of a few of larger local speculators and the room traders generally. The fading off in volume of outside business has led to a revival of bearish sentiment among professional traders, as they are of the opinion

IN FINANCIAL CIRCLES. Continued from page 11.

The range in prices is as follows

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from Chicago:

Wheat—The radical advances in the Liverpool quotations this morning caused a good deal of buying around the opening of market, and there were not a few of the local traders who took their full lines, believing that such an advance was dead sure. The usual result was produced. After the buying paused realizing commenced and the market became stupidly dull and gradually lost all the advance and closed at the same as last night's quotations. The strength at Liverpool is thought to be in a great measure speculative, mainly due to the smaller offerings of Argentine wheat. This, however, will prove only temporary, as best advices say the surplus is large, but wet weather is at present interfering with farmers' deliveries. New York reported 12 loads taken for export. The syndicate were not at all prominent in the market to-day. We would not be surprised at further weakness to-morrow.

Provisions opened steady and sold higher on buying of May pork by John Cudahy's brokers. A few shorts bought May ribs at \$4.85. Packers sold moderately. Towards the close the market became weaker on selling by longs, and closed easy.

New York, Jan. 21.—The Evening Post's financial cablegram from London says: The cordiblon of affairs in China and Cuba, The London Times' leaders thereon, and the test vote on silver in the United States Senare, dampened the stock markets here to-day. The close, however, was above the lowest, Americans were dull and generally lower for the day. Ontarios had an exceptionally sharp rise, on the revival of the rumor that Chauncey Depew would go on the board of directors. Out of the way companies having any connection with the Klondike were caquired from. On bull commitments Grand Trunk and Canadian Pacific were lower. Affected by Wor Rumors.

Hon. E. J. Davis Not Vice-President. Hon. E. J. Davis Not Vice-President.

Editor World: The statement has been made in The Mail and Empire and other city journals that the Hon. E. J. Davis is vice-president of the Toronto Financial Corporation. I think it right to explain that Mr. Davis is not vice-president of the company, nor is he a director. Mr. Davis was vice-president in 1896, but shortly after he became a member of the Government he resigned, stating that he did so with regret, and solely because he believed that as a member of the Government he should not be either vice-president or director of this or any other company, and his resignation was accepted at the first meeting of the Board held thereafter.

ROGERS' Reliable Advice

Our Stock ful speculator. We are in receipt of hundreds of complimentary letters, and from a few of them received during FUR or any the past month we have the following extracts: the past month we have taken

January 3 we advised the purchase of St. Paul, which was then selling around 93, and on January 7 advised taking profits at 16, which was done, and there were plenty of opportunities to buy this back at lower prices afterward.

96, which was done, and there were plenty of opportunities to buy this back at lower prices afterward.

January 10 we wired subscribers and custemers to buy Sugar on January 11 at 142. The market sold at 142 that day, but not ½ below that price, and immediately advanced to 143%. We then advised placing a stop on Sugar at 143.

The above advices CAN BE VERIFIED BY HUNDREDS OF OUR SUBSCRIBERS, and if you are a speculator you can readily see the advantage of having such advance information. What we have done in the past we CAN REASONABLY EXPECT TO RE ABLE TO DO AGAIN. We do not want your money unless we can make our services of high value to you, and surely have no interest other than to send out reliable advices.

It will be noticed by comparing the above advices with market quotations that WE NOT ONLY CALLED THE EXACT TOP AND BOTTOM ON SUGAR on the dates mentioned, but ALSO SUCCEEDED IN PREDICTING WITHIN ½ OF A CENTAS TO THE HIGH AND LOW POINTS FOR WHEAT DURING THAT PERIOD. We do not claim to be as accurate as this all the time, but we do claim—and can back the same up with ample proof—THAT OUR ADVICES ARE FICLLY AS ACCURATE AS CAN BE OBTAINED FROM ANY OTHER SOURCE, and if you are a speculator you cannot afford to be without them. We not only furnish advice on the market, but we do a general brokerage business, having facilities for promptly executing a 1 orders on the various exchanges, and to those who place their accounds through our house our SPECIAL ADVICES are furnished free of charge. To those who prefer to trade through some other broker we will furnish DAILY ADVICES (including telegrams when necessary) for

our DAILY LETTER OF ADVICE will be sent free of charge on request, but this is entirely separate from our SPECIAL ADVICES. In our Daily Letter we give a general review of the market each day, but in our SPECIAL ADVICES we tell you just what trades to make and when, to make them.
