## MINES AND MINING STOCKS

A Meeting of Golden Star Company Directors Has Been Called for This Afternoon.

WILL DIVIDEND BE 13-4 CENTS?

Jackfish Bay Syndicate Mining Co. Said to Have Made a Very Rich Strike.

There will be a meeting of the directors of Golden Star this afternoon in the McKinnon Building. There was a bear movement against the stock yesterday, causing it to drop to around 44. It is said that the company will decide to pay a dividend of 13c, or that it is in a position to do so if it sees fit.

**Struck It Rich.**  
Mr. L. R. Arnett says: The Jackfish Bay Syndicate Mining Company have struck rich on one of their numerous properties, known as the Urea Major. This property alone comprises 600 acres, which has a vein of about 250 feet wide, and at the 100 foot level the assays show about \$15.00 of value in gold and silver. Every foot of ore in the shaft is now pay ore, the quantity of which is reported to be unlimited. The shaft is now down about 120 feet and the values are increasing with every blast. It is claimed by leading experts who have visited the mine, that it will make Canada famous as a gold producer. The head office of this company is in Toronto and nearly all the stock is held by Torontonians.

**Activity on Lower Seine.**  
Mr. French, mining editor of the West Superior Telegram, is in the city. He says that on the Lower Seine three times as much work is going on as last year. There are twenty-five properties which are actively at work, besides others in which some work has been done.

**On the Exchanges.**  
Minnehaha suffered up somewhat on the Toronto Mining Exchange yesterday afternoon and closed at 16 bid. There was a 15c advance in Van Ande. St. Elmo sold at 7. On the Standard Mining Exchange Van Ande was the feature, about 12,000 shares changing hands at 9 1/2. Golden Star sold at 4 1/2 in the afternoon; Athabasca at 2 1/2.

On the Montreal Mining Exchange Morison sold at 17 1/2; Rambler-Cariboo, 4 1/2; and Big Three at 2 1/2. Deer Trail No. 2 sold at 24 and closed at 23 1/2 bid.

Messrs. Currie & Kiteley in their daily review on mining shares say: The market at present is very active in mining shares and the outlook for this month very good. War Eagle has declined, apparently on the announcement that the stock of Centre Star will be offered at \$1.50. At that price Centre Star will be remarkably cheap.

"It is hardly necessary for me to say a good word for Hutch," said Mr. Lauchland, "there are such a great number of people using it, but whenever a purchaser asks me as to the respective merits of the different treatments I tell him plainly that Hutch is by far the most efficacious cure on the market. MANY LAWYERS ENGAGED.

A Will Case Referred to the Master For Investigation.

In the non-jury court at Osgoode Hall yesterday an action was brought by Maria Josephine Smith and another grandchild to remove the executors, Col. Mason, Emily Beoch and Charles Smith, on the grounds that they have mismanaged the property left by the late John Smith. The estate, so it is claimed, has lost \$100,000 because the money was not taken out of the firm of Cooper and Smith, as was ordered by the will. This action is particularly notable for the number of barristers retained by both sides. S. B. Blake, Q.C., J. J. Foy, Q.C., and E. F. Johnston are for the executors, and Messrs. A. B. Aylesworth, J. R. Osborne, Ottawa, N. H. Peterson, Berlin, R. G. Affleck, Almonte, M. W. de la Roche, Stratford, S. Landy, Brampton, J. C. Mackin, Stratford, C. F. Maxwell, and George M. ## MARKET REPORT AND THE STANDARD MINING EXCHANGE.

Yesterday morning's business on the Standard was much better than the afternoon. The sales at the afternoon board were light. All this goes to show that we give the results exactly as they are. I have been complimented more than once upon the businesslike way in which things are done at our board. Well, the fact is, we as a body are getting a name for straightforward dealing. And it is known that our QUOTATIONS AND SALES CAN BE DEPEND UPON. We started our new organization upon right principles and these principles are being rigidly adhered to. One very pleasant feature of our business of late has been the meeting of many of our country clients
