Wheat—A feature of the week was the rule allowing the free entry large export takings for new wheat at premiums over futures, which is a strong indication that Europe will be heavy buyers of American wheat the next few months. And if present reports are confirmed regarding outturn of winter wheat crop, United States will fast lose her surplus, and will soon be on a home basis, especially if there should be any deterioration in spring wheat production. We conbullish and advise purchases on

Liverpool Grain and Produce.

In the noted printing plants in New York, Philadelphia, Washington and Chicago and also make an inspection of several of the establishments in Toronto.

Lake Huron and Lake Superior.

A magnificent summer trip is enjoyed by taking this 'fresh water seavoyage' from Sarnia, Ontario, to Fort Willam, Ontario, through these great inland seas. This year new steamers have been added to the Northern Navigation Co.'s fleet, and the finest and satest vessels on the Great Lakes will fly the house flag of this popular company. The steamers run in company. T Liverpool Grain and Produce.

New York Grain and Produce.

Brown and mixed fancy, 24 1-2 to 25; do, fair to choice, 22 to 24; western extra first, 22 to 22 1-2, first 20 1-2 to

amendments relating both to pulp and paper in place of amendments hitheric adopted. The amendments adopted were those proposed by Senator Brown of Nebraska a few days ago. He was

ed States by the imposition of an ex-port duty or export charge of any kind upon pulpwood, wood pulp or printing paper exported into the United States, or has forbidden or restricts the exportation of any of these articles directly or indirectly.
On chemical woodpulp, a duty of one

sixth of a cent per pound is provided on the unbleached article and of one fourth of a cent on the bleached article, and in case of discrimination by the exporting country, the duties are to be doubled.

The paper amendment provides for the doubling of the duty on newspaper print paper in case of discrimination. This paper is valued at three cents a pound or less, and according to the terms of the bill, is made dutiable at the rate of five-tenths of a cent a pound.

Carter, bowled E. Davis Senator Clapp expressed his disap-

proval of any provision allowing the president to place by proclamation a duty on wood pulp or paper, and said he would discuss the matter again

Will Grind U. S. Pulp at Fort Frances. FORT FRANCES, June 27 .- The Times says: For some time the Koochiching Pow-

er Company have been trying to have it so arranged that they could grind the pulp wood on the Canadian side and re-enter free of duty, and a Washington despatch indicates that they have been successful. The despatch

"Senator Nelson's amendment to the tariff bill providing that the produce of the forests of the State of Minnesoft the forests of the State of Minnesota upon the Rainy River and its tributaries, owned by American citizens and sawed or hewed or mechanically ground in the Province of Ontario by American citizens, the same being otherwise manufactured in whole or in erwise manufactured in whole or in part, shall be admitted into the ports of the United States free of duty under such regulations as the secretary of the treasury shall from time to time prescribe, was adopted. This amend-

prescribe, was adopted. This amendment is designed for the relief of the Backus-Brooks Company."

By this it will be seen that the mills at Fort Frances will necessarily have to employ none but American citizens in order that the conditions of the rule allowing the free entry of the pulp be available. This will mean that the workmen and their families as well as the officials will mean that the workmen and their families the pulp be available. This will mean that the workmen and their families as well as the officials will have to live in Fort Frances, as the alien labor law will not permit them to live on one side and work on the other.

MANY DON'T KNOW HEART AFFECTED. More People than Aware of It Have Heart Disease.

Have Heart Disease.

"If examinations were made of everyone, people would be surprised at the number of persons walking about suffering from heart disease."

This startling statement was made by a doctor at a recent inquest. "I should not like to say that heart disease is as common as this would imply," said the expert, "but I am sure that the number of persons going about with weak hearts must be very large."

"Hundreds of people go about their daily work on the verge of death, and yet do not know it. It is only when the shock comes that kills them that the unsuspected weakness of the heart is made apparent."

"But undoubtedly heart weakness, not disease, is more prevalent nowadays. I should think that the stress of living, the wear and rush of modern business life, have a lot to do with heart trouble."

There is no doubt but that this is correct,

and we would strongly advise any one suffering in any way from heart trouble to try a course of Milburn's Heart and Nerve

Pills.
