NO TRACE OF MISSING N. TORONTO LADY SO FAR

Local Police and Townspeople Aid
in Search—West Toronto Fires
—County Happenings.

NORTH TORONTO, April 3.—(Special.)—The best efforts of Chief Collins and the other local and county officers have been directed toward the task of locating Miss Mary Connor, the young lady who left her home on Thursday morning, but there is only the slightest clue to encourage the searchers. To-day some boys walking thru Mr. Garland's bush found a handkerchief which was identified as belonging to the missing girl. The woods at this point are very thick and difficult to search, but the chief and a number of townspeople are keeping up a vigorous search.

The father and brother of Miss Connor, who reside on Sherwood-avenue, are greatly agitated over the disappearance, and fear the worst.

The evangelistic services at Eglington Methodist Church have closed after being continued two weeks.

Saturday was a busy day in town, a number of real estate transactions going thru.

J. M. Whaley, late assessment commissioner, is making slow but gradual recovery from his illness.

Mrs. St. Germain of Bedford Park has given orders for the disposal of her household effects on Tuesday afternoon.

In St. Clement's (Anglican) Church, to-night, Rev. T. W. Powell addressed a very large gathering.

W. J. Lawrence will be glad to receive an application from an old horn player, as there is still an opening for such a one in the town band.

WEST TORONTO.

WEST TORONTO, April 3.—About \$2000 damage was caused by fire to-night, Rev. T. W. Powell addressed a very large gathering.

On the farm of E. H. Sproule of Wexford, recently sold, Mr. Porter of Peterboro is now comfortably located. The Sproule farm contains 150 acres and is said to have been sold for about \$12,000.

All of the 23 acres bought by W. H. Patterson, and formerly belonging to the Kennedy estate, has been re-sold by Mr. Patterson in building lots. It is expected that fully a dozen houses will be erected here this summer.

MARKHAM VILLAGE.

MARKHAM VILLAGE, April 2.—(Special.)—While driving down Main-street a few days ago, a horse driven by Thomas Lillie, a young farmer, took fright at a dog, and bolting jumped over a fence belonging to Miss Foster, throwing young Lillie out and badly wrecking the buggy. After jumping two or three other fences, the animal was caught by Wm. McNeely, little the worse.

Rev. Austin E. and Mrs. Lunan have been paying a short visit to the home of the former's mother, Mrs. Jacob Lunan.

Public and high school classes resume to-morrow.

A. T. Mercer of Stouffville conducted the service in the Christian Church here to-night.

THEY'LL WIN SOME WAY.

Now that North York hens have fallen behind in the competition for laying big eggs they have turned their attention to seeing which can lay the smallest. S. L. Hughson of Newmarket has a black Minorca hen that last week laid two, one of which measured 3-1/4 inches around the long way and 2-1/2 the shorter way. The other egg even smaller measured 2 1/2 inches the long way and 2 1/2 the shorter way. They were not very much larger than good sized bird's eggs. No use trying to get ahead of North York.

SUTTON.

SUTTON, April 2.—(Special.)—The Sutton Library Society will give a concert in St. James' Hall on Tuesday evening, April 5, in aid of the Sick Children's Hospital.

Mr. Anderson, the junior member of the Metropolitan Bank staff, has been succeeded by Harry Bennett.

Already a number of summer visitors have made their appearance, and the quest for cottages bids fair to be larger than ever before in the history of the town and "point."

HOW TO OBSERVE SUNDAY

Archdeacon Cody Speaks of Need of Spiritual and Bodily Refreshment.

"In these busy days, a father scarcely knows his own household, and the children are so busy with many things that they hardly know their own home either. One day of rest in seven gives them an opportunity to become acquainted."

Venerable Archdeacon Cody, speaking in St. Paul's Church last night on the need of Sabbath observance, made the foregoing statement in summing up the advantages to be derived from a day that should properly be devoted to spiritual and bodily refreshment.

Sunday was, perhaps, the only day in the week when men and women engaged in industrial pursuit were reminded that they were not merely toilers, but that they had been made in God's image. If they had to work seven days a week, life would be utterly unenjoyable, as the nightly rest, in the opinion of the best medical authorities, was not a sufficient restorative for body and mind. If the day were not protected by religious sanction, the speaker questioned whether it would be long continued as a day of rest in these times of business stress and strain.

The greatest danger which menaced the attainment of the true object of the day was not labor, but pleasure. Legal protection had been secured for the toiler, and critics who termed the Lord's Day Alliance a persecuting and persecuting body should remember that it had done great service in obtaining for the workman the right to rest.

The pursuit of selfish pleasure was the chief destructive agent. It brought toll to others and set an example of breaking down the character of the day. Amusements could be more strenuous than work, and the experience of nations which disregarded proper Sunday observance proved that men and women returned to their occupations on Monday infinitely less fit than on the Saturday night preceding.

\$50,000 FIRE AT STRATFORD

E. T. Dutton's Woolen Mill Destroyed, and He is Badly Hurt.

STRATFORD, Ont., April 2.—About 2 o'clock this morning fire was discovered in Dutton's woolen mills. The buildings and contents were pretty well destroyed.

While trying to remove some of the stock, E. T. Dutton was caught under a portion of a falling beam and he was badly crushed and burned, but it is thought he will recover.

The loss will probably be upwards of \$50,000, partially insured.

SOME ITEMS CONDENSED FROM THE SUNDAY WORLD.

Local.

It is announced that Hon. G. E. Foster, M.P. for North Toronto, is in such a state of nervous collapse that he will be unable to resume his parliamentary duties. A. Kemp, ex-M.P., is spoken of as successor in the house. It is further stated in Ottawa that a shake-up in the Conservative party will also result in the retirement of George Taylor as chief whip, while C. J. Doherty of Montreal will become Borden's first lieutenant.

Girl tobacco strippers will organize a union.

Canadian.

The strike of the foreign employees of the Hamilton Steel Works has been settled.

United States.—A celebration of the new tariff agreement is planned in Boston, with Earl Grey, Mayor Guerin of Montreal and other Canadians assisting.

Capt. Osborn of New York says a fund of \$175,000 is being raised to prove that Dr. Crook had reached the pole.

Simultaneous raids on brokerage offices in New York, Philadelphia, Jersey City, Baltimore, Cincinnati, St. Louis, all alleged bucket shops, netted 23 prisoners, including five reputed millionaires.

Mayor Magee of Pittsburgh was hoisted by the tail from a public meeting, after having been accused of providing counsel for an official charged with grafting.

General.—Employees of the Furness shipbuilding yards (England) have voted to give up the co-operation with employers' idea, after one year's trial.

Russia will spend \$75,000,000 on defenses in the next ten years.

A strike that may involve 1,500,000 employees in German building trades is foreboded for April 15.

Gambling House or Police House? The cases arising out of the raid on the Patriarche brokerage offices were on Saturday adjourned by Magistrate Kingsford till April 8. All bail bonds were renewed.

T. C. Robinette, on behalf of E. S. Cox, who had entered the offices after the detectives had taken possession, put in a novel plea that his client could not be accused of having been in an alleged gambling house, because when he entered it was properly a police house.

W. Thorne asked to have his case settled at once. He is a well-known lawyer and operator. He had never had any transactions in the raided office, he said, but had gone solely as a firm and what charter they possessed, more especially in reference to a Co-balt Company in which Patriarche is interested. The magistrate remarked that it was unfortunate, but that he would take Mr. Thorne's own bail in the interim.

Chief Croker's Auto Blows Up.

NEW YORK, April 2.—Fire Chief Croker's automobile blew up with a roar to-day just as the chief was about stepping into it to speed to a fire. Croker and his two assistants were hurled across the room by the force of the explosion and had narrow escapes from death. The machine was smashed to pieces, a fire engine beside it was wrecked and the engine house set on fire. Luckily neither Chief Croker nor his aides were injured. The firemen put out the engine house fire before responding to the outside call.

Daring Burglary at Stratford.

STRATFORD, April 2.—A daring robbery was pulled off here in broad daylight Saturday. Mrs. Parker, Well-street, opened the door in response to a knock, when two well-dressed men pushed into the house. Mrs. Parker was seized and gagged at the point of a revolver and a five-dollar bill taken from the sideboard. A moment later a neighbor's child arrived and the strangers hastily tied Mrs. Parker to a "dead" coal stove and fled.

Room Mouldings, 1 1/2c to 6c ft.

TRAVELER FOUND DEAD.

LONDON, Ont., April 3.—(Special.)—J. W. Christman, commercial traveler of Hespeler, was found dead in his room at the Dominion House to-day. Death was due to hemorrhage of the stomach.

TAXICABS MAIN 6921.

CO-OPERATION A FAILURE

Experiment in Furness Shipyards Doesn't Satisfy the Men.

LONDON, April 2.—Sir Christopher Furness' plan of operating the shipyard of Furness, Withy & Co. at Hartlepool on co-operative system, has collapsed after a trial of one year. The employees who accepted co-partnership provisionally to-day voted against its continuance. They complain that their expectation of full employment has not been realized. The labor leaders also contend that such profit-sharing systems break up trade unions, with the principles of which they are inconsistent.

Sir Christopher's plan, which received the cordial support of former Premier Balfour as president of the Labor Co-operative Association, provided that the workmen should receive nine per cent. interest annually on the small sums which they invested in the business, in addition to their regular wages. At the same time they agreed never to strike, but to settle differences thru a council composed of representatives of the management and the working force.
