

## THREE OF A FAMILY HELPED BY TANLAC

"In Every Case It Has Given Fine Results," Says Well-Known Piano Man.

### ALL ARE INDEBTED TO IT

Declares Tanlac Will Be a Family Medicine at His House Hereafter.

"It has not only done me a world of good, but my wife and daughter have also been wonderfully benefited and hereafter Tanlac is a family medicine at my house. This statement was made recently by Arthur Wakelin, who was for twenty-six years employed by the Heintzman Piano Company, and resides at 52 Ford street, Toronto.

"I simply needed a general, all-around building up," Mr. Wakelin continued, "and Tanlac has done just the thing. I am getting along in years, and I never thought anything could give me such quick and satisfactory results. I had been in a general run-down condition for about a year, and while I wasn't sick enough to stay in bed I just felt bad and out of sorts all the time. I had no life or energy, and I would get up in the mornings tired and all fagged out, feeling like it would be impossible for me to do my work, and the least little job would tax my strength to the utmost. I simply felt unfit for anything, and I knew I needed something to correct my trouble and build me up.

"It was almost obliged to have some confidence in Tanlac after reading such high endorsements, and in just a few days after I started on it I began to feel my old-time vim and vigor returning. I have now taken two bottles, and that old worn-out, don't care feeling has left me entirely, and I am feeling fine. I don't feel like I am feeling refreshed and brimful of new life and energy, and fit and ready for anything that comes to hand.

"My wife, seeing the good Tanlac did me, decided to try it too. She has been suffering from a bad case of stomach trouble for several years, and while she tried many different medicines nothing ever helped her until she got Tanlac. She had no appetite, and, honestly, I don't believe she ate as much in a week as the average well person eats in one day. What little she did eat disagreed with her and she suffered with indigestion terribly. She had tried so many things without benefit that she had almost lost hope of ever finding anything to help her. But Tanlac seemed to get in its work right off, and three bottles have straightened her up until she can eat anything she wants without the slightest trouble afterwards.

"After seeing the good it did my wife and myself our daughter began taking it too, and in every case it has given fine results—far better than we expected. So we are all indebted to Tanlac, and hereafter it is to be a family medicine at my house."

Tanlac is sold in Toronto by Tamblin's Drug Stores and by one regular established agency in every town.

### NINETY-THREE CASES

#### BEFORE DIVISION COURT

Judge Morson Disposes of Fifty-Five in First Hour, Many Being Adjudged.

Ninety-three cases were down for trial before Judge Morson in the division court yesterday, but many of the cases were adjourned and very few were disposed of, so in the first hour fifty-five had been disposed of. J. Calcaro appeared claiming a refund of \$15 from S. Kaufman on whitewashing done which it was alleged was not satisfactory. The claim was dismissed.

Mrs. L. Warren was suing J. B. McGregor for \$15 to cover the damage done to her buggy, which she alleged the defendant damaged when he drove his auto into it. The case was adjourned to allow Mrs. Warren to bring

## VAST CROWDS ATTENDING

The Lectures and Demonstrations at 270 Yonge St. All Manner of Diseases Being Cured in Full View of the Audience, Deafness, Paralysis and Rheumatism Relieved Instantly.

A great sensation was created yesterday at the offices of the HAM-LAX Co. when Mr. H. Duckworth, the baker at 208 Queen street, made the following statement: "I feel it my duty to tell you that after using HAM-LAX and HAM-RAY for just a little over a week, to my surprise and delight there passed from my system over 100 gall-stones ranging in size from a millet seed to a good sized marble. As a result I feel greatly relieved of a condition which has annoyed me for years. During that time I have undergone an operation for appendicitis and tried every treatment imaginable, but nothing seemed to do me any good until I fortunately used HAM-LAX and HAM-RAY, which I certainly can recommend to anyone."

Mr. Manuel Varquez, of 142 Hasting street, this city, has been using HAM-LAX and HAM-RAY for only two weeks, yet he says he has been relieved of kidney stones or stones in the bladder after everything else had failed.

In the presence of several witnesses Mr. Varquez made the following statement: "For some time I have been suffering with renal calculi, or stones in the bladder. I was continually suffering with pain in my back and sides, and very frequently would pass pieces as large as a grain of wheat. During this period the pain was almost unbearable. After trying many things I was just about to submit to an operation when I heard about the wonderful results of HAM-LAX and HAM-RAY. I immediately purchased HAM-LAX and HAM-RAY and began to use them, and you can imagine my amazement to find that I received relief from the start. All my pain has disappeared and no more gravel is passing from me. I can certainly recommend this to my friends and acquaintances and, the public in general as

## RAILWAY BOARD PASSES BLOOR STREET LINE PLANS

Single Temporary Track With One Turn Out West of Clendenan Avenue.

The Ontario Railway and Municipal Board yesterday approved plans for the extension of the Bloor street car line from Quebec avenue to Runnymede road. The plans, which were submitted to the board on Thursday last, make provision for the construction of a single temporary track, with one turn-out just west of Clendenan avenue. The track will be laid along the north side of the street, leaving sufficient space to the south for the construction of the permanent tracks. Along this portion of track there will be no roadway to the north of the track, which will not affect the residents of the district, as there are no houses on the north side of the street in that vicinity.

The board also approved plans for proposed additions to the London street railway, and the establishment of lavatory conveniences for the Sandwich, Windsor & Amherstburg Railway Company.

## BUILDING INQUIRY NOT YET ARRANGED

Board of Education Awaits Action by the City Council.

At the meeting of the finance committee of the board of education yesterday a communication was received from City Clerk Littlejohn regarding the investigation of the building department of the board. At the July meeting of the board, Trustee Edmunds moved that the question of providing funds for this investigation be referred to the finance committee, but the secretary having been out of the room at the time, the matter was not discussed. In the letter received yesterday the city clerk stated that the matter had not yet been considered by the board of control, and again in consequence nothing was done by the finance committee.

The motion of Trustee Hodgson that the board authorize the finance committee to purchase sufficient coal to meet the requirements of the schools for the coming winter, even to the extent of incurring an overdraft, was carried.

A communication referring to those Boy Scouts that have been working at the base hospital was read, asking that leave of absence be granted to them and that it be not counted against them. Trustee Noble was against it, and Trustee Miles Vokes was of the opinion that there are too many soldiers who could be doing this work. The matter was referred to the board.

**Pathetic Case.** A pathetic case that even moved the finance committee was reported of a former teacher of the Jarvis Street Collegiate who is now in the Muskoka Free Hospital suffering with tuberculosis, and his wife is also there with the same complaint. It was stated that the wife has a little baby boy, and is in poor circumstances financially. Chairman C. A. B. Brown favored granting him twelve months' salary and not paying anything to the board, but Trustee Vokes was against this procedure. It was finally agreed that his salary be not deducted for the remainder of the year.

**Application Refused.** The management committee, which met immediately previous to the finance committee, received an application for two or three girls from each of the schools to sell roses on Queen Mary's Rose Day, but the application was refused. A communication was received from James L. Hughes asking that a household science class be instituted at Queen Mary's Hospital at Weston, but it was stated that this was a government job and no action was taken. The resignation of many teachers was received and approved of, and also leave of absence was granted to many others.

Witnesses from the country who saw the collision.

J. Motocovitch owed \$68.85 to the Pull-Lumber and Dock Company for material supplied, but gave as an excuse that he had no money. This excuse, however, did not prevent judgment being given against him.

being an infallible remedy for such troubles."

(Signed) Manuel Varquez, 142 Hasting street, Toronto.

(Witness) J. L. Treadway, city.

Another remarkable cure and testimonial was given unsolicited by Mr. Thomas Jones, 113 Sheridan avenue.

The following sworn statement speaks for itself:

"The HAM-LAX Company—Gentlemen: I beg to state that for nine years I have been afflicted with rheumatism in my heart. My work, which compelled me to be damp all the time, seemed to aggravate my trouble and prevented me from being relieved, altho I tried everything advertised which came within my notice. I tried HAM-LAX as a last resort and am proud to say to all my friends and acquaintances that it removed the pain in my heart, and I feel sure that I have at last found the real thing for my trouble or anyone afflicted as I was. I can recommend it highly to anyone whom I may come in contact with."

(Signed) Thomas Jones, 113 Sheridan avenue.

(Witness) J. L. Treadway.

That gallstones, appendicitis, strictures, piles, varicose veins, fistula, enlarged prostate gland, tumors, skin cancers and female diseases can now be removed to stay so without the knife has conclusively been proved by the large number of testimonials. The microscope has revealed the true cause of these diseases in the form of tiny living microbes that are exterminated by HAM-LAX and HAM-RAY. Free consultation daily at 16 King west from 10 to 12 and 2 to 4.

For the accommodation of those who cannot call at any other time the offices, 16 King west, will be open Sundays from 10 to 12.

## F. T. JAMES LOOKS INTO B.C. FISHING

With Dominion Commission He Investigates Pacific Coast Industry.

### UNLIMITED RESOURCE

Cheaper Fish Wasted, But Close Season for Halibut Necessary.

Vancouver, Aug. 30.—Frederick T. James, president of the F. T. James Company, Limited, wholesale fish dealers of Toronto, who has been on the coast for the past two months as one of the commissioners of the Dominion Fisheries Commission, left last night by the C. P. R. for Toronto.

He has traveled 7000 miles up and down the coast, as far north as Ketchikan and as far south as Seattle. He has personally inspected every phase of the salmon and halibut fisheries. He has met the prominent fish men both of British Columbia and the United States. He has gathered information on fishing from every source and finds himself led to the conclusion that the fisheries of the Pacific coast are unlimited.

His fellow commissioners, Messrs. Evans and Thompson left with him and it is their intention to draft their recommendations to the minister of marine and fisheries while on route to Ottawa. They have to take a stand regarding the use of motor boats on the northern rivers, whether or not more canneries shall be established; whether the traditional system of attached fishing boats shall be continued; and whether an embargo shall be placed on raw salmon other than sockeye going into the United States ports for canning purposes. The last question calls for action before the middle of September if the canning industry of the Fraser River is to be protected against unfair competition from the United States.

**Resources Unlimited.** Mr. James says that the fisheries resources of British Columbia are practically unlimited and that they have not yet been exploited within a fraction of their potentialities. Particularly true of the deep sea fish fishing for the cheaper and less known grades of food fishes, such as humpers, ling cod, grey cod, red cod, black cod, soles and skates, with which the Pacific Ocean fairly teems. As regards the halibut, he thinks that it is being overfished and that sooner or later a closed season during the months of December, January and February will have to be declared by international agreement if this choice table fish is to be preserved in sufficient quantities to keep up the natural increase.

**Enormous Waste.** He is keenly interested in the effort to create a market for the food fishes that are caught at the same time as the halibut, but which, though as good food as halibut, are destroyed and not brought to port by the halibut boats, because the fishermen get only two cents for them while they get as high as twenty cents for the halibut. Evidence adduced before the commission was that 20,000,000 pounds of excellent edible fish are destroyed every year on the Pacific by the deep sea fishermen. In other words, as much fish suitable for food is destroyed as is brought to shore every year.

In the opinion of Mr. James this is a national waste that should be stopped by a co-operative effort on the part of the producers and the fishermen in the interests of the consumers of fish in Canada. Freight rates and competition from Atlantic fish would prevent this fish from being marketed in Ontario and the east, but there should be no difficulty in absorbing all the fish that can be caught in British Columbia on the markets as far east as Winnipeg, and at prices that would materially reduce the high cost of living.

"The middle west has a fish appetite, and it should be satisfied," said Mr. James. In his opinion, the market for the cheaper grades of deep sea fish should be developed by the government through the organization created by the Hon. W. J. Hanna, food controller. The deep sea fish producers and the fishermen, represented by their agents, H. Gill and J. Russell Keating, have expressed themselves as willing to do all that they can to prevent the present waste, and the time is ripe for the government to take more extensive action to furnish this fish to consumers between Vancouver and Winnipeg.

Mr. James believes in newspaper publicity, and thinks that if the newspapers were to give prominence to the present conditions regarding these cheaper but excellent food fishes, it would not be long before definite action was taken to conserve and conserve the food supply that is now wholly wasted.

Regarding salmon, which the commission was specially appointed to investigate, Mr. James declined to be interviewed until the findings of the commission are in the hands of the minister, but he was happy to testify that there was no finer fish in the world than the B. C. salmon, unless it was the Scotch salmon.

Still in infancy, the fishing industry in B. C. is only in its infancy, both in canning and deep sea fishing. Many fish are now extensively canned will be canned in greater numbers as the years go on, for it seems evident that the sockeye salmon do no longer run in sufficient numbers to warrant operating a cannery solely to can them. The cheaper grades of salmon now being canned whenever caught. Extending the operations of canneries is the marked tendency of the fishing industry to Mr. James' mind.

Then the use of the otter trawl, already successfully experimented with on the Pacific coast, as a method to facilitate the development of deep sea fishing, for the otter trawl is the most economical method of catching fish. It was also suggested that a fishery that built up the huge fishing industry of the United Kingdom. It will do the same for the B. C. fishing industry.

**CHAPLAIN KILLED ON DUTY.**

Canadian Associated Press Cable.

London, Sept. 4.—Chaplain Herbert Sinton East, killed by a steam train, was trained at St. Chad's, Regent, ordained by the Bishop of Qu'Appelle, and appointed incumbent at Lenigan, Sask.

YOU don't know this girl perhaps. But suppose you did and she came to you for advice! What would you say?

Till yesterday her husband, young and vigorous, had lovingly encouraged her small extravagances and boasted laughingly that his income was ample and growing. He worked with might and main to "gather the fruits of success for his fair trinity at home"—and was succeeding.

But death, swift and relentless, had without warning cut down his guard, and the three he loved more than his own life were now at bay to the world—alone.

If she had come to you for advice—that, briefly, would have been her story.

Her faith was strong. Her husband, she knew, would not leave her with the children to face a financial situation for which there was no solution. Yet when she attempted to calculate

the income she would receive from the savings he had left, a panic of fear overcame her.

"The greatest and hardest of her duties now was the one she knew the least about."

Perhaps someone dependent and depending upon you, is destined some day to be left alone—at bay to the world. This is so serious, so appalling a situation that its very contemplation makes thinking men turn cold with apprehension.

That is why we have written "Her Way Out"—to make you realize how serious is the situation which may overtake those for whom you believe no sacrifice or effort is too great.

If, in addition—without the use of technical language or confusing terms—it provides a solution for the dilemma, surely that is another point in its favor, is it not?

We will be pleased to send you a copy of "Her Way Out," free. The coupon below is provided for your convenience. Fill it in and mail it to-day, or a note or postcard will do as well.

## GUILD OF ORGANISTS IN ANNUAL CONVENTION

Duke of Devonshire Consents to Become Hon. Patron of Musicians' Organization.

Owing to prevailing war conditions the Council of the Canadian Guild of Organists, in session yesterday at St. James' Parish Hall, decided to defer the annual convention of members.

The president, Dr. Albert Ham, presided at the meeting. The progress of the guild during the past eight years, saying he was convinced that great good was being done toward the status of the musical profession generally and especially that of organists and choirmasters. He announced that his grace had consented to be the honorary patron in the place of his Royal Highness the Duke of Cornwall.

The following were elected as members of council: Albert Ham (president), Arthur Dorey, Ottawa; Corvella Hilsley, Montreal; and F. H. Worthington, Toronto (vice-presidents); J. W. Bearder, Ottawa; Arthur Blakeley, Pasadena, Cal.; A. H. Egg, Montreal; G. E. Holt, Toronto; Ralph Horner, Winnipeg; F. G. Kilminster, London; J. E. F. Martin, Montreal; W. H. Montgomery, Calgary; H. E. J. Vernon, Toronto; C. E. Wheeler, London; J. A. Williams, Sherbrooke; F. L. Willgoose, London.

**Cocoon Oil Fine For Washing Hair**

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very injurious to the scalp. The plain, pure coconut oil (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two spoonfuls will make it an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and leaves no particles of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get multifid coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

During Toronto Exhibition, the Canada Steamship Lines are offering special rates on water trips to Niagara, Lewiston and Queenston, Niagara Falls and Buffalo.

Much of Toronto's charm to the visitor from an inland town lies in the many delightful trips which may be taken from the Canada Steamship Lines' wharf at Toronto.

There's Niagara-on-the-Lake, a two-hour sail, 35 miles across the lake from Toronto.

"Queenston Heights" and Brock's Monument, and Lewiston, just across Niagara River.

The special return rate to any of these interesting and historic spots is only \$1.00.

The special rate to Niagara Falls and return (on the Canadian side) is but \$2.00. From Toronto to the Falls, traveling up the American side—the Belt Line trip—past the Whirlpool Rapids and return, has a special return rate during Exhibition, of \$2.50. The same rate also—\$2.50—is good for the return trip to Buffalo.

All the above rates are good going date of issue and returning day following.

Many visitors find it particularly restful and refreshing to intersperse their trips to the Exhibition grounds with a sail on the quiet, roomy boats of the Canada Steamship Lines. Most folks find an ever-resting enjoyment in a day at the Falls.

**DROWNED BOY IDENTIFIED.**

Son of Braham Weiner of 71 Denison Avenue.

Abraham Weiner, of 71 Denison avenue, identified the body of the 8-year-old boy at the morgue yesterday as that of Izzy Weiner, his son. The boy left home on Saturday morning and his father was mystified regarding his disappearance until informed that a boy had been drowned on Saturday afternoon at the foot of John street. Young Weiner was unable to swim and went bathing along with a number of other boys who, it reported, saw away when they saw the boy go into the water beyond his depth. Coroner Gibson will conduct an inquest.

Coal \$20.00 a ton, Sugar 20c per pound, Butter 90c per pound, Bread 30c large loaf, Eggs (storage) \$1.00 per dozen. Are these prices to prevail in Toronto this Winter? and once again the long-suffering public humbly submit to the powers that be, their motto,

## IRISH HERO'S WIDOW GRATEFUL TO LEAGUE

Mrs. Redmond Sends Letter of Appreciation of Resolution to D'Arcy Hinds.

Heartfelt appreciation of the resolution of sympathy passed by the United Irish League at the death of Major William Redmond, M.P., was expressed to D'Arcy Hinds in a letter from the widow, Mrs. Eleanor Redmond, of Glenbrook, Deleagany, Wicklow County, Ireland.

The letter is in part as follows: "I want to thank you for your kind letter," she writes, "and will you please thank me for Mr. Cronin and the members of the United Irish League of Toronto for their kind sympathy, but above all for having received a message of comfort for the repose of the soul of my husband. I am glad it was celebrated in the church I was able to visit during my short stay in Toronto."

"The death of my husband was a blow, but I have the happiness of knowing that he died as he would have wished: that he had all the help of his religion; and is now at rest in a better world."

## SUPPLY OF LAKE FISH AVAILABLE THIS MONTH

Hon. F. G. Macdormand States That Government's Plans Are Progressing Rapidly

Hon. F. G. Macdormand, minister of public works, stated yesterday that before the end of September fishermen would be engaged in catching a supply of lake fish from Lakes Nipissing and Nipigon to be sold to the people of the province. Progress was being made with the government's plans, and a gang of men are now engaged in erecting buildings to handle the catch when brought in.
