Clark, of this city, and one sister, in Boston, are also left. The funeral will take place at 2:30 on Saturday afternoon from her late residence.

For ordinary labor the prices seem to have ranged from 35 to 40 cents per day, and for skilled labor from 50 cents to one dollar per day. It is doubtless

true that people lived comfortably in those days on what they received. The purchasing power of money was so much greater than now that the size of the income was less important.

In the entire book which seems to have covered all the financial transactions of a busy man, we find not one entry of money paid out for entertainment or pleasure and about the only luxury indulged in appears to have been cider.

**RULES CHILDREN CANNOT BE SENT BY PARCEL POST AS LIVE ANIMALS.**  
 Washington, June 18.—Children may not be transported as parcel post, First Assistant Postmaster General Koons has ruled in passing upon two applications received at the Washington City Post Office for the transportation of children through the mails.

Mr. Koons said children did not come within the classification of harmless live animals which do not require food or water while in transit.

One of the applications received by the local postmaster was from a nine-year-old girl, who entered the main post office and asked that she be sent to Kentucky.

**USE The Want Ad Way**

## An Income the Tax Collector can't touch

The two outstanding features of the Budget are—

- 1.—There will be no more Tax Free War or Victory Bonds.
- 2.—There is an increase in the Income Tax.

The effect will be to increase the price of Government Bonds because further supply has stopped while the demand is constant and increasing, particularly for tax-exempt issues.

The Income Tax is here to stay, and it is quite possible that the present rate will be increased.

In order fully to realize the value of tax exemption, study carefully the following table showing what interest yield you would have to secure from any other form of investment to equal the 5.55% net return now obtainable from 1933 maturity Government Bonds at present prices.

Income	Interest Return Required	Income	Interest Return Required
\$5,000 .....	5.55%	\$20,000 .....	6.75%
8,000 .....	6.27%	25,000 .....	6.93%
10,000 .....	6.35%	30,000 .....	7.20%
12,000 .....	6.42%	40,000 .....	7.74%
14,000 .....	6.50%	50,000 .....	8.35%
16,000 .....	6.59%	75,000 .....	10.31%
18,000 .....	6.67%	100,000 .....	15.00%

After careful consideration we have come to the conclusion that we should recommend the purchase of tax-exempt Government Bonds at present prices to investors of substantial income
