

HERE'S A CHANCE TO MAKE \$5,000

Many Curious to See if New Yorkers' Challenge to Spiritists is Accepted; Will Sir Oliver Lodge Take It Up?

(Toronto Mail and Empire.) Non-spiritists will wait with curiosity to see if Sir Oliver Lodge, or some other representative spiritist or medium accepts the challenge made by New York City last week by Mr. Joseph F. Rinn, Mr. Rinn, offers to give \$5,000 for anyone who can produce a spirit or satisfy a representative committee that there is any possibility of receiving a message from the next world. He will give out other five thousand if anyone can take a single fact about one of five persons whom he will produce. He will give out five thousand if any of them will tell him the contents of a letter he received from Dr. Richard Hodgson, now in spirit land, but who was prominent in research work and exposure before his death, and who is now in constant communication with Dr. William Hyslop, according to the belief of that eminent scientist. He will give an extra five thousand to anyone who fulfills any of the tests or produces any spirit manifestations that Mr. Rinn will not him self duplicate without any spiritual assistance. In fact, Mr. Rinn seems to just dry five thousand dollars and there, certainly is a small fortune waiting for anyone who will convince Mr. Rinn as tens of thousands of more credulous persons have been convinced that there is anything in spiritism. According to Mr. Rinn there is not. "Every article of it is a fraud," he says. "It is a money-getting device, pure and simple, practiced only by scamps."

Exposure of Palladium.

While there are many people by no means believers in the cult who will not agree that spiritists are frauds as it is to be remembered that Mr. Rinn is an authority. He is now on the outside looking in, but for years he was on the inside looking out. Formerly he was a member of the Society for Physical Research, and worked with Dr. Hodgson, Dr. Hyslop and other eminent spiritists. It was he who was one of the dummies who came to this continent several years ago, flammarion, and caused a great furor in spiritist circles. She was detected by Dr. Rinn, Master of the Society, slipping her foot out of her shoe and performing tricks with a prehensile toe. She amazed the audience by causing a stiff breeze to blow over her head, which was supposed to come out of the top of her head. At the end of the performance, Mr. Rinn ungraciously clapped his hand on her face making a windmill out of her nose. The breeze stopped at once. This miracle was no more than development of the little girl's trick of blowing up their lungs.

Scientists Not Qualified.

Mr. Rinn has no respect for the man of science as an investigator of psychic phenomena, or medium, or spiritist. He insists that they are the easiest sort of victim. In fact, he thinks that for Sir Oliver Lodge to undertake science against a fakir would be the same thing as him hitting the same science against the science of Georges Carpentier. It is the very aloofness of men of science from the sordid and tricky ways of the world which makes them so easily deceived. If there is such a thing as a psychic phenomenon, then a pure scientist is the man to investigate it, but if the matter to be investigated is the honesty of a human being performing tricks, then a detective or another trickster is the proper investigator. This is common sense. The fact that there never lived a greater scientist than Herbert Spencer, nor a writer who could lay less claim to the title of John Ruskin. Well, read what Spencer wrote and compare it with what Ruskin wrote about art, and you will find that the interpreter of art is the scientist miles behind the helmsman.

A Fake Science.
Mr. Rinn's series of challenges were made in a dramatic manner at the end of a lecture before a New York club last Monday evening. He appeared before a large audience, which was for a long time under the impression that he intended the performance to be accepted as supernatural. The result was that the skeptics kept on making the conditions more and more difficult, but Mr. Rinn met every one of them. He duplicated all the tricks from the little kindergarten horse play stunts that so many mediums amaze their simple audiences with and wound up with slate writing. In the early stages he used

subordinates, men "with an astonishing appearance of trustworthiness," as one writer says, who came forward to corroborate by telephone calls to distant parts that Mr. Rinn had shot telegraphic messages miles away. Then after he had as deeply impressed his audience as he could, he began to show the tricks, to undo that had amazed the crowd were fakes and nothing more.

Slate Writing.

His final act before making his challenge was a slate writing exploit. A volunteer from the audience came up and was blindfolded to simulate the slight of hand work. He carried his slate and pencil in his pocket. He was asked to write a letter. He placed his two feet separately on Rinn's and Rinn held one of the investigator's in each of his. It would seem impossible that under these conditions the letter he produced, which he started as the spirits began to infest him, had contrived to hold both the victim's hands in one of his, instead of using both hands. With the free hand it was easy to write a message. The severest test was to write the message on the bottom side of the slate, which was to lie on the floor. Feet were placed, hands were grasped as before. When the slate was turned up, there was the message. In this case the audience saw that it was one of Rinn's feet that he got free. He slipped his foot out of his slipper, a reinforced article which still remained under his feet. The investigator's foot, drew the slate over with an educated toe, lifted it up to his nose, turned it, wrote the scroll with his toes, and replaced it. The mediums now have the floor.

BIG DRIVE FOR FORWARD MOVE BEGINS TODAY

The great united inter-church forward movement of the Protestant churches of Canada today puts into concrete form the most stupendous religious movement that the dominion ever has witnessed.

When the financial canvass of the congregations will be commenced. The part which St. John is to play in the movement is by no means insignificant and the enthusiasm so far evinced in the preparatory and spiritual campaign everywhere has been most pronounced. Inspiring sermons were preached in the interests of the campaign in many of the churches yesterday and several laymen addressed the people on the phases of the movement. While some churches already have reached their objective for financial canvass before it has actively commenced, in all some part has been subscribed already and the mass started with full confidence of the objectives being at least reached and in most cases surpassed.

The Tabernacle church has already subscribed its amount of \$1,000. After the sermon by Rev. G. F. Dawson at the Exmouth street Methodist church last night, J. King Kelley and Gordon Stevenson delivered their respective addresses, followed by an appeal to the congregation resulting in \$1,850 being subscribed. The total for the day was \$1,850.

Organization Bureau.
W. C. Cross tendered and presided at a banquet in German street Baptist church on Saturday evening, at which the guests were representative of the other Baptist churches of the city. The dinner was greatly enjoyed as were the addresses by Rev. Dr. DeWolfe, Rev. E. F. McI., Smith, Rev. S. S. Foote and others. The reports submitted by the organization well in hand and it was expected that New Brunswick would go about twenty-five per cent beyond her objective.

A vote of thanks was moved by Rev. Dr. DeWolfe and seconded by Mr. D. Clark, to Mr. Cross for his generosity in providing the banquet.

CAIRO-TO-CAPE FLIGHT ARRANGED

The Times of London Order Vickers Vimy Machine to Be Used—Distance to Be Covered in 12 to 14 Days.

London, England, Feb. 9.—The Times now discloses the fact that it has arranged for a flight from Cairo to Capetown. Its Vickers-Vimy aeroplane having arrived in Cairo yesterday. Dr. Chalmers Mitchell, D. S. C., secretary of the Zoological Society and a member of The Times staff, will act as passenger and observer, and will carry an autograph letter from King George to the Governor-General of South Africa. The machine will be flown by Capt. C. Cockrell and Capt. F. C. Broome, D. S. C., as pilots, with a crew of four.

It is also understood that an organizing a Cape-to-Cairo flight, and that arrangements for this are also very far forward. As in the case of The Times, the matter in meantime being kept secret.

The Times machine left Brooklands on January 27, and is expected that the distance of 5200 miles to Capetown will be covered in from twelve to fourteen days. There are twenty-two landing grounds and nineteen emergency landing grounds, of which Aberdeen and Brecken Hill are 44 miles apart, with only one emergency landing ground at mile 341.

G. B. Leonard, formerly of West St. John, who has been away from here for about five years, was welcomed back on Saturday when he came to take up his duties as chief officer of the steamship Canadian Navigator. He served during the war on the naval transport St. George.

LAND INSPECTOR GAINS 20 POUNDS

Every Joint and Muscle Ached from Rheumatism Before Taking Tanlac—Not a Trace of Trouble Left.

"Well, sir, you can believe it or not, but I have gained twenty pounds in the past six weeks," said R. D. Hales, Land Inspector, 812 Silver street, Sturgeon's Creek, Manitoba, in a conversation with a Tanlac representative a few days ago.

"For years and years before the points mentioned I had been in bad health and hardly saw a day that was free from pain and suffering," continued Mr. Hales. "My stomach was all out of order and what I ate would sour and settle into a lump in my chest and burn like a ball of fire. I had lumbago of the worst sort and if I stooped over and tried to straighten up again the pains wringing every muscle in my back. I had rheumatism all through my arms, legs and feet and every joint in my body ached. My feet would swell so that I could hardly get my shoes on and my legs pained me until it was all I could do to walk. My joints would stiffen and had to be rubbed with oil to get them to bend my arms and legs. I was subjected to awful headache spells. I lost weight and strength and in fact, I was in misery all day long. I hardly knew what a night's rest was for I would lie wide awake for hours, with my joints aching and no matter what position I lay in.

"One of my friends had recommended Tanlac to me so highly that I commenced taking it and I could just feel my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell and my joints don't stiffen any more. The lumbago is gone, my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell and my joints don't stiffen any more. The lumbago is gone, my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell and my joints don't stiffen any more. The lumbago is gone, my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell and my joints don't stiffen any more. The lumbago is gone, my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards. I haven't a trace of rheumatism in my body, my feet never swell and my joints don't stiffen any more. The lumbago is gone, my troubles leaving me and the pains easing up. And now since I have taken four bottles of Tanlac my stomach is in fine condition and I can eat anything set before me without suffering the least bit afterwards.
