STRANGE AND SAD MIX-UP EXPERIENCE OF ONE OF OUR SOLDIERS
Officially Reported Killed, Wife Re-married and Then Died, Children Taken to States
Fredericton, July 8.—The war has produced numerous strange relations between wives and husbands and their children, but the strangest has recently come to light in this city. A soldier who enlisted here early in the war in a unit of Canadian Mounted Rifles, was after one of the engagements reported killed. The report was official and a pension was granted the supposed widow and her children. In the course of time she married a widower who himself had children, and a child was born of the union. During the severe epidemic of influenza last autumn she died, leaving another child a few days old, which also died. Later relatives of the woman who reside in the United States took the children of the first husband who was supposed to have been killed in France, and gave them a home.
The final touch of the confused situation was given within the last few weeks when the soldier returned from overseas.

The Welcome a Hat Rack Extends to You
Opinion is somewhat divided as to whether the first or last view of things beautiful makes the strongest impression—however, one room in your house—the hall—must stand the test of both impressions. The coming and going of your guests through this room make it necessary that it be properly and charmingly furnished, otherwise a well planned, tastefully designed house may lose its charm. Even the Hat Rack may speak volumes.
We are particularly fortunate in having an exceptional display of Hall Furniture at this time and invite you to get acquainted with Everett service. You should know the assistance we can give you in making the right selection for your particular needs. This service assures you a hall that expresses good taste and makes nothing but good impressions.
