

## SOUP TO NUTS! EAT WITHOUT FEAR OF DYSPEPSIA—PAPE'S DIAPEPSIN

Digests Food When Stomach Can't  
—No Sourness, Gas, Indigestion

You can eat anything your stomach craves without fear of indigestion or dyspepsia, or that your food will ferment or sour on your stomach, if you will take Pape's Diapepsin occasionally. Anything you eat will be digested; nothing can ferment or turn into acid, poison or stomach gas, which causes Belching, Distress, a feeling of fullness after eating, Nausea, Indigestion (like a lump of lead in stomach), Bloating, Heartburn, Water brash, Pain in stomach and intestines. Headaches from stomach are absolutely unknown where Pape's Diapepsin is used. It really does all the work of a healthy stomach. It digests your meals when your stomach can't. It leaves nothing to ferment, sour and upset the stomach.

Get a large 50-cent case of Pape's Diapepsin from your druggist, then eat anything you want without the slightest discomfort or misery, besides, every particle of impurity and Gas that is in your stomach and intestines will vanish.

Should you be suffering now from indigestion or any stomach disorder, you can get relief in five minutes.

OPENS UP NOSTRILS; CLEARS HEAD,  
ENDS COLDS OR CATARRH AT ONCE

Instantly Relieves Swollen, Inflamed, Nose, Head, Throat—Yaws, Breaths Freely—Dull Headache Goes—Nasty Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and open up passages of the head will open; you will breathe freely, dullness and headache disappear. By morning the catarrh, cold-in-head or catarrh of the throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm

## SPRING NUMBER IS SPLENDID ISSUE

Maritime Merchant is of 250 Pages  
and is Mine of Information

The spring number of the Maritime Merchant, just issued, is a book of two hundred and fifty pages, and the most interesting spring number that has ever appeared in the history of the maritime provinces has ever issued. It is a mine of information concerning the commercial and commercial progress in the provinces, and the advertising pages show how wide and varied are the commercial interests in the various cities and towns and seaports of the provinces. Among the special articles is one dealing with the extensive port development at Halifax with an excellent map, and with views of the water front. Building activity in St. John is the subject of another article, with views of the city, including the grain elevator, sugar refinery, bank and other structures. The town of St. Stephen is also written up and illustrated, as is the city of Fredericton, and there is a special article on the Georges Bank and what they have done for St. Stephen, and another on Mr. George Fawcett and what he has done in the Sackville district in developing the potato industry. There is an illustrated article on the forward movement in Antigonish, and another on the establishment and success of the Southwestern dairy in Antigonish county. Prince Edward Island and its fox industry, and its agriculture and fisheries are treated in a comprehensive article. The Royal Hotel, St. John, is the subject of an interesting page illustrated with a photograph of Frederick A. Wright, who has been in the employ of the Royal for nearly thirty years, with references to other employers who have been on the staff of the Royal for periods varying from eight to twenty years. Correspondents send in brief reports of trade conditions for the past year, showing that in all cases 1913 was a good business year in all the provinces. Considerable attention is given to traveling men, with interesting brief paragraphs about a large number of the commercial travelers who were well known to the trade of the three provinces. The color printing, the illustrations, and the general make-up of the whole issue reflect the highest credit upon the Imperial Publishing Company, and J. C. Stewart, who has made the Maritime Merchant one of the best trade journals in Canada, is to be congratulated upon this latest product of his enterprise.

## A HAPPY CHILD IN JUST A FEW HOURS

If Croup, Feverish, Constipated Give  
"California Syrup of Figs"

Mothers can rest easy after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, sour bile and fermenting food gently move out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When croup, feverish, restless, see if tongue is coated then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what all your little one—full of cold, or bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

## MURDER TRIAL NEXT WEEK IN HALIFAX

Halifax, March 18.—The grand jury yesterday returned a true bill against Edward Cook, charged with the murder of Charles A. Saff, a Syrian pedlar at Sheet Harbor in last December. The trial was set for next Monday.

The smallest theatre in New York City for which plans have been drawn is to be only 42 feet wide and will have a depth of about 100 feet. There will be 210 seats in the auditorium and a balcony with 11 boxes.

## THE BRITISH NAVY ESTIMATES PRESENTED

Hon. Mr. Churchill's Speech—  
Every Ship Could Be Manned  
at Once—The New Programme

London, March 18.—The navy estimates, the largest ever presented, were introduced in the House of Commons today by Rt. Hon. Winston Churchill. He said in part:—

The admiralty sought to complete eight battle squadrons by the time the

next strongest naval power had completed five. The battle cruisers would be added in other case, and there would be a proper proportion of destroyers and other craft. The ships at foreign stations did not come into the calculations.

These standards of establishment were reasonable and moderate, and he was glad that Admiral Von Tirpitz had taken occasion to say so. He said that no nation had completed its naval organization. That was quite true. It would be possible for Great Britain to complete her developments at a somewhat earlier period than was now proposed. The development of Germany's fleet organization had not been so rapid as was contemplated two years ago, when it was thought that the new British fleet would be completed by the end of the financial year 1913-14, but apparently owing to the necessity of maintaining the fleet would be reduced by three ships temporarily, so there were three less than had been anticipated, and the British admiral's policy was to maintain the fleet of the Gibraltar squadron which now consisted of four ships.

"Every ship of the fleet," he said, "by the next strongest power," said Mr. Churchill, "will be matched by us, and we shall only complete our organization as or when needed."

He mentioned among the causes of larger expenditure the use of oil and increased pay of the personnel.

He referred to the sea planes now being developed by the admiralty, saying that these would carry heavy explosives. Fifteen airships, he said, were now being built or under construction. He declared that, in case of emergency every ship of the navy could be sent to sea fully manned. There was no difficulty in obtaining men.

The question of the first lord after he had spoken for more than an hour and a half. This, he said, was in accordance with the policy laid down. Three of the vessels would be of the Royal Sovereign type and one of the Queen Elizabeths. They would carry 15-inch guns. He dwelt upon the power of the submarine fleet, which had been armed. By the end of 1914-15 this number would be increased to seventy. The arming of such ships was only for defensive purposes.

Mr. Churchill then came to the main question, namely, that of standard. The sixty per cent standard was a building standard relating to new construction of capital ships, and that standard was being followed. There had been various disputes as to what should be included in that standard. Two years ago, he said, he gave the whole series of future programmes, and after a full survey of the position the admiralty was satisfied that the provision of four ships was sufficient. He now asked the house to confirm, in the third year, the proposal which he submitted in the first year.

He declared, with emphasis, that Great Britain should remain the independent guardian of her interests in the

## THE KINDERGARTENS

Formal application is to be made to the provincial government for the incorporation of the kindergartens in the public school system. This action is to follow the conference held in the mayor's office yesterday afternoon between Dr. W. S. Carter, chief superintendent of education, and members of the free kindergartens committee and others.

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required. The nature of the disease is such that it is not necessary to make permanent recovery. The nature of the disease is such that it is not necessary to make permanent recovery. The nature of the disease is such that it is not necessary to make permanent recovery.

## Gone Forever Are Dyspeptic Days of Old

The Simple, Safe, Sure Use of Stuart's  
Dyspepsia Tablets Will Bring Joy to  
Any Stomach Sufferer in an Easy,  
Comfortable, Dietless Way.

How many quiet, afeared-to-make-a-noise, unhappy homes there are due to cross, irritable, miserable, close-kitchen-door kind of dyspepsia sufferers. Such men and women cannot help their nervousness for they suffer terribly and should not be censured.

A stomach that is irritated, raw, rebellious and not fit to do its work is certainly the cause of constant dragging down and even excruciating agony.

It is a feeling surpassed by no other illness known to man.

No one should blame such a person for ill temper and silent moodiness. Ever and always it is that dead, gone, sour-tasting feeling at hand to cure every waking hour.

Dyspepsia, bad breath, gastritis, catarrh of the stomach, pains in bowels, nervousness, heartburn, belching, bloating, etc., come from wrong conditions of digestive juices. There is nothing to correct these horrors until these juices are again replenished.

When the system exhausts its juices, when the liver, when the pancreas, the stomach become thereby unfit to furnish the proper digestive fluids, one cannot expect this same system, without aid, to do anything else than keep on making their improper digestive products.

Such a condition means all manner of suffering, and unquestionably fatal danger lurks in such delay.

There is relief in Stuart's Dyspepsia Tablets that means a restoration to normal health, a building up of correct digestive juices and an absolute harmless relief from the method and its result.

Stuart's Dyspepsia Tablets contain qualities in just the right proportion to build up the weakened gastric juices. When the tablet reaches the stomach, it dissolves matters quickly, balances acids and alkalies and stops pain, suffering, etc.

Other ingredients have just as important effects upon the intestine as well as the stomach and thus in a remarkably short time stomach ills, indigestion, etc., disappear.

Go to your druggist today and obtain a box of Stuart's Dyspepsia Tablets, price 50 cents.

Mediterranean. The government proposed to place in the Mediterranean, in 1914, a battle squadron of eight ships, of which would be Dreadnoughts, Lord Nelsons, centred on Malta. They would make the British forces in the Mediterranean more formidable than any other fleet of the world.

He pointed out that in order to do this and maintain the indispensable margin of security in home waters it was necessary, in the absence of three Canadian Dreadnoughts, to accelerate three ships. That was sufficient to maintain the force he had mentioned from the end of 1913 to the middle of 1916. As the Canadian ships were not yet forthcoming, it was necessary to repeat, though on a smaller

## Thought She Would Go Mad WITH HEADACHE.

In all cases of headache the treatment should be directed to remove the cause, for with the cause removed the headache vanishes for all time. Headache powders just relieve for the time being, but what is necessary for a permanent cure is something that will go right to the seat of the trouble. For this purpose it is impossible to find a better remedy for headaches of all descriptions than Burdock Blood Bitters, acting as it does on every organ of the body to strengthen, purify and regulate the whole system.

Mrs. Althea Bowman, Hamilton, Ont., writes:—"I have suffered terribly with my head for weeks at a time till I thought I would go mad. A friend advised me to give Burdock Blood Bitters a trial, so I used four bottles in all and I am glad to say that I have had no more headache since. I would advise all sufferers to give it a fair trial."

Are you a weak person? Are you nervous, fretful and gloomy? Is your sleep broken? Have you pains and aches in different parts of your body? Is your back weak and painful? Are you rheumatic? These are the results of the waste of vital force. The gentle stream of Electricity from my Belt going into the nerves and weak parts for hours every night soon replaces all energy and makes every organ perfect. It is worth while you sleep and pour a steady stream of Electricity into every nerve, the energy, the fire of perfect physical and mental action. It renews health and happiness.

It cures Nervous Debility, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Stomach Trouble, Constipation and Rupture.

## Indigestion Cured.

O'Sullivan's Corner, Ont., Aug. 12, 1912.

Dear Sir:—After giving your Belt a fair trial, I am very well satisfied with the results. I can eat, sleep and work as well as I ever did. I have not worn the Belt for six weeks now and have had no sign of indigestion since laying the Belt to any one who suffers from indigestion. You have permission to use this statement in any way, if it will be of any benefit to you and mankind.

Yours very truly,  
W. H. HEADLEY.

## NEWS OF FAIRVILLE

Rev. G. Earle and S. H. Shaw, at a meeting of the Fairville Methodist Brotherhood, were appointed as delegates to the Metropole campaign. A resolution was passed supporting the movement.

Before a large audience in the school room of Fairville Methodist church last evening Dr. J. V. Anglin gave an able lecture on "Eugenics, or Race Betterment." His address was very interesting.

Mr. Churchill turned next to the Pacific. He remarked that the alliance with Japan had been renewed to 1921, but it was not to be expected that Japan would be less in need of her power than at that date than she was today. New Zealand and Australia had acted with profound wisdom. The dominions were, however, perfectly free. The matter rested entirely in their own hands. The responsibility of the dominions in placing plainly before dominion ministers the need of her power was the one great balancing force she could contribute to her own safety and the peace of the world.

Mr. Churchill then urged the importance of having in Canadian and South African water stations, docks and repair plants, which would enable an imperial squadron to operate in these. There should also be in each theatre both destroyers and submarines flitting for the purpose of defending establishment.

In an eloquent peroration, Mr. Churchill said that Great Britain's diplomacy depended in great part for its effectiveness upon her naval position. Her naval strength was the one great balancing force she could contribute to her own safety and the peace of the world.

## CLAN MACKENZIE

The members of Clan MacKenzie celebrated last evening when they entertained several of their friends at a concert held in the Foresters' hall in Charlotte street. A very enjoyable evening was spent by all. Following is the programme: Address of welcome by the chief, E. Burns MacDonald; orchestra; Flow, Gentle, Sweet, Afton, A. Smith; Annie Stewart, Jessie, the Maid of Dun-dee, Mrs. Alex. Corbett; solo, Mary of Argyll, A. F. Belding; orchestra; Annie Stewart, Mrs. J. Roy, Coggins; My Ain, Kind Dearie O, Thomas Guy; accordion selections, Mr. and Miss Ramsay and Miss Burke; Ban of Shianary, Andrew Macdonald; address on the order, Chief Macdonald; In Illusions, James Main; The Bird Song, P. J. W. Macdonald; Highland fling, Chief Macdonald.

When they first come, the best time to break them up. One standard remedy—Ayer's Sore Throat Remedy—Sold for 70 years.

## HEAD GOT BALD IN PLACES

Very Itchy, When Brushed, Dandruff All Over, Hair Came Out in Great Bunches, Cuticura Soap and Cuticura Ointment Cured Head in Three Weeks.

15 Hallam St., Toronto, Ont.—"About two years ago the dandruff began. My head got worse and worse, and it was very itchy and gave me a tendency to scratch it which made it worse. I always had to wear my hat which in the summer was a torment. When I brushed my hair it sent the dandruff all over. The hair came out in great bunches until it was nearly bald and when it was it was worse than before."

"I tried— which made it worse than before. I tried several things after that but they were no good. After nine months like this I had hardly any hair left when one day I happened to see the advertisement of Cuticura Soap and Ointment in the paper. I straightway sent for a sample. After first washing with the Cuticura Soap I applied some Cuticura Ointment and I could feel a great relief. After finishing the sample I sent and got a case of Cuticura Soap and a box of Cuticura Ointment. In three weeks they had cured my head." (Signed) B. Stone, May 16, 1913.

Cuticura Soap and Ointment do so much for poor complexion, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them. A single set is often sufficient. Sold everywhere. For liberal free sample of each, with 22-p. book, send post-card to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.
