### THE FISHER LAKES; NEW PARK WATERS

Valuable Work of Geo. S. Fisher Commemorated by Horticultural Association

### MAY LURE THE TROUT

**Free Fishing from Lily Lake Shores Will be Permitted and Swimming in Dark Lake in Highland Park—Auto Matter Undecided**

At a meeting of a special committee of the executive of the Horticultural Association held yesterday afternoon with George S. Fisher in the chair, several important matters were considered.

It was decided to allow free fishing from the shores of Lily Lake during the period when fishing is lawful. Fishing will not be permitted from rafts or boats, thus affording a slight measure of protection to the fish in that lake. For the present fishing will not be permitted in the artificial lakes of the park, it being thought that there are now only a very limited number of trout there. An effort will be made to obtain a supply of fry with which to stock these lakes. It is hoped that these slight restrictions will be observed and that this free fishing for all who are fond of the sport will be enjoyed, and that boys and men alike will, in appreciation thereof, do what they can to protect the trees, shrubs and other property of the association from injury and destruction.

Communications were read on the subject of admitting automobiles to the park, it being suggested that they might be allowed to use the roads of the association in the morning. This question was allowed to stand over for decision at a later meeting to be called by the chairman.

It was reported that the committee in charge of the status in memory of the late Sir Leonard Tilley had a balance on hand which they were desirous of handing over to the association on certain conditions, and a committee was appointed to meet and discuss the subject with the representatives of the fund.

George Morrisey on behalf of the St. Stephen's Cadet Corps of St. Stephen's church, asked for authority to invade the park grounds on Good Friday and there to exercise blank ammunition and so forth in some manoeuvres. As there is at present no danger from fire such permission was given.

In compliance with the request made yesterday, boys and others will be permitted to swim and bathe in Dark Lake in Highland Park, to be limited to a place to be designated at the further or northeastern end.

A plan of all the park property is being drawn, showing buildings, roads, paths, lakes and other points of interest, and it has been desirable to name the chain of artificial lakes within the grounds. Mr. Fisher having been moved out of the chair, it was pointed out that these lakes were not laid down in the original designs for the park, but were suggested by Mr. Vaux, the New York architect, that these lakes should be water entirely use beautiful.

To Mr. Fisher's thought, observation and ingenuity, whereby that portion of the park has been made most attractive and picturesque besides affording storage for an ample supply of water for Lily Lake at all seasons, that Mr. Fisher had, ever since the establishment of the association, devoted a very large amount of his time in most successfully superintending and laying out the work which has been done and for which he has declined to receive any recompense whatever, and the committee, feeling that a recognition which he could not refuse would be that of naming these lakes after him, it was thereupon decided to designate the artificial waters created by him as "The Fisher Lakes," the same to be numbered starting from the source of supply.

**HIKERS ON THEIR FIRST TRAMP NEXT SATURDAY**  
Sunday School Athletic League Latest Project in Y. M. C. A. Physical Work

It is expected that the Hikers of the Y. M. C. A. will on Saturday next have their first tramp to some place in the surrounding suburban districts yet to be decided upon. An active programme is being mapped out for the summer and the Hikers are expected to be very busy during the season.

Among the plans which E. J. Robertson, physical director, has in mind for the summer, is the formation of a Sunday School Athletic league with sporting events on the vacant lot adjoining the usual recreation building two evenings each week, beginning about May 1. A trophy will be awarded the school team capturing the most points.

Mr. Robertson is also planning on teaching as many boys in the city as possible the art of swimming, giving every lad who desires it, three lessons. The Y. M. C. A. members who cannot swim will receive instructions first, and boys about the city will come next on the list. Fancy swimming is also to be taught. The school boys and working boys are to be measured this month by Mr. Robertson.

**CASE DISMISSED.**  
A colored lad named Lewis this morning in the police court charged Wm. Brinkley with having assaulted him yesterday. It was shown that Mr. Brinkley had hired the man to work for him, and later, when he refused to do his work, the defendant put him away from the job. The assault was not proven, and the case was dismissed.

**BURIAL IN PETITCODIAC.**  
The body of Mrs. Trites was taken to Petitcodiac this morning for burial. Funeral services were conducted at her late residence last night at 8 o'clock by Rev. Wellington Capri. Rev. Mr. Capri accompanied the body to Petitcodiac.
