**NORMAL SCHOOL.**  
Word has been received here from the chief superintendent of education that there was a record attendance at the opening of the normal school, the registrations numbering 329. ## FOUR PARTIES IN ELECTION FIGHT

(Continued from page 1.)

Toronto Mail and Empire:—Not only is the question of speedily arriving at tariff stability one of present urgency, but also the matter of determining whether government is to be carried on upon a class basis or upon a national basis. For his part, Mr. Meighen resolves to administer Canada as a national organic unit. To do otherwise he regards as an unpardonable sin, and to bring about a failure that would be disastrous for all classes alike. And he is further resolved that under his administration Canada will never be dependent on the fiscal decision of another nation. He sounds the true national note, and we believe the people will enthusiastically respond to it.

Halifax Acadian Recorder: Premier Meighen should have taken this step two years ago. The dominion has only had an apology for a government since that time. Whatever the result of the appeal to the people may be, there is one thing certain—the so-called union government will cease to exist, but it will take some years to recover from the effects of its blunders and ineptitude.

The Kingston Standard predicts that the re-organization of the federal cabinet will see the retirement from active political life of some six or eight of the present ministers. "The Canadian dollar is cheap enough in the U. S. as it is," it says, "let us not further cheapen it by playing into the hands of our neighbors to the south of us by lowering our tariff while she raises hers. Protection, like charity, should begin at home. Montreal Le Devoir: Mr. Meighen completely ignores the question of imperial relations and endeavors to concentrate attention entirely upon the tariff. He ignores our railway problem and the deficit of the system. His object is easily understood. He proposes to base his campaign upon a mandate obtained through the assistance of the protectionist sentiment existing in high places, and to avoid all other issues, particularly that of imperial relations. It remains to be seen what the voters think and will do about it.

This promise was made to a large assemblage of the ladies of London by Premier Meighen yesterday. The action proposed will involve, it is said, a change in the British North America Act.

## POLICE COURT

In the police court this morning hearing was continued in the case of William Dixon, Jack Keslwick, Nick Shiban and William Trufon, charged with stealing a tire, rim and inner tube, the property of Frank Donnelly, from his automobile in the Golden Grove road on Saturday night, August 27. L. A. Conlon appeared for the first three named, who pleaded not guilty to the charge against them.

William Dixon told of going out the Golden Grove road late last night to Mrs. Kennedy's house. He said that he with his companions, on entering the grounds, saw three automobiles and recognized John Chamberlain and Bert Taylor standing near by. The witness said that he and his associates went into the house for about an hour, and that on leaving, Trufon brought a tire to the car and said he had found it. The witness said he told Trufon he did not want the tire, but that he would bring it to the city and find the owner next day. Dixon said that Detective Saunders got the tire from him the next day.

Nick Shiban corroborated this evidence. Trufon told of going to Mrs. Kennedy's house late last night, and where he, he said, they were for about an hour. He said that he picked up the tire after coming out of the house and years to recover from the effects of its blunders and ineptitude.

T. M. Burns, secretary of the board of health, in this case, said that he knew Dixon for quite a time and thought that he was a very steady-going young man.

The case was postponed until three o'clock Tuesday afternoon. A case against Joseph McCann and William Williamson, charged with carrying a tire to a horse, was continued in the police court this morning. D. C. Clinch and S. P. C. Dr. Lawrence Dunlop, veterinary, told of examining the horse at the request of Mr. McCann on Aug. 24. He said he had advised that the horse be destroyed. He said that the horse was not fit to be driven in the condition it was in. The case was postponed until 2:30 this afternoon.

The case of William McGrath, charged with assaulting Samuel Swanton in Erin street a short time ago, was postponed until Wednesday afternoon at 2:30. The case was continued in the General Public Hospital for further treatment and would not be out for some days.

## MONTREAL STOCK MARKET.

Montreal, Sept. 2—Lifeless was again the dominant feature of the local stock exchange this morning. Quotations in the few issues traded in being in the majority of cases, the same as yesterday's close. Brompton, at 141 1/2, Quebec at 24, MacDonald at 11, Sugar at 25 and Abitibi at 26 were all unchanged. Asbestos, opening at 40-1/2 was down a half point, and went to 40 within the first few minutes of trading, while Laurentide at 63-3/4 showed a gain of a quarter.

## IN WALL STREET.

New York, Sept. 2—(10:30)—Mexican oils broke sharply at the opening of today's stock market on indication of a deadlock in the conference now under way between Mexican government officials and American interests. Mexican Petroleum recorded an opening loss of 23-4 points, this soon being increased to 31-4. Pan-American Petroleum fell one point and the "B" stock lost two points. Other foreign oils were strong, notably General Asphalt, which rose 21-4 points and Royal Dutch which advanced one point. The balance of the list was irregular, fractional declines predominating.

New York, Sept. 2—Mexican Petroleum recovered all but a fraction of its loss before noon on the further rise of European oils and asphalt, the latter extending its gain to three points. Elsewhere, shorts evidently deemed it expedient to reduce their commitments over the coming holidays. Covering of such contracts in steel, equipments, motors and their accessories, tobaccos, sugars and chemicals effected advances from one to four points. Ralls and shippings shared in the rally. Call money opened at 5/8 per cent, that rate also applying to loans extending into next week.

## MEXICO AND THE U. S.

Mexico City, Sept. 2—The signing of a treaty with the U. S. is "neither possible, convenient nor necessary, and is contrary to Mexican constitutional precepts, in that it creates special privileges for Americans," according to a portion of President Obregon's message to congress dealing with foreign relations, which was read in the house last night.

A negro lad had been brought into a Virginia police court for the fifth time charged with stealing chickens. The magistrate determined to appeal to the boy's father.

"See here," said his honor, "this boy of yours has been in this court so many times charged with chicken-stealing that I am quite tired of seeing him here. I don't blame you, Judge," said the parent, "an' I've tired of seein' him here as you is."

"Then why don't you teach him how to act? Show him the right way and he won't be coming here."

"I have showed him de right way," said the father, "but he jes don't seem to have no talent for learning how, Judge—he always gets caught."

"Did you really call this gentleman an old fool last night?" asked the judge. The prisoner tried hard to collect his thoughts.

"Well, the more I look at him, the more likely it seems that I did," he replied.—Lawyer and Banker.

## C. B. Man Drowned.

North Sydney, N. S., Sept. 2—J. Curtis of Ingonish was drowned Wednesday afternoon, about four miles off Cape Smoky, while out with two Hines brothers fishing in their boat. It is presumed he was struck by the boom and knocked overboard. He was about 45 years of age and leaves his wife and four children.

The motion picture operators, musicians and stage hands employed in theatres of Ottawa, went on strike yesterday, as a protest against a fifteen per cent. reduction on the existing wage scales. The proprietors now say that their employees have taken such drastic action that in future they will not deal with international unions, but will conduct open shops, preference being given to returned men.

## Strengthen Your Business "Morale"

Soldiers know what it means when an army's "morale" is shattered.

The fighting spirit is gone, the men invite defeat.

What is true of military forces is true of some industrial armies.

At the first serious jolt their morale weakens—hope flies, courage disappears—their fighting spirit is lost.

There is no place in business today for the "calamity howler." He is drawing salary or wages under false pretences. More distressing still, he is weakening the "morale" of other workers, and of the business itself.

Strengthen your business morale.

Take stock of your men as well as your goods. Retain enthusiastic, profitable workers even at a temporary loss.

Venture into new fields for business.

Trade and Prosperity are interdependent. The sooner Capital, Labor and Management realize this the quicker will conditions improve.
