

Same thing.

Now this being so, if you will kindly represent our case to the Government, and get us a Grant of Six hundred dollars, we shall allot a room in our Band House, large enough for a School room, and shall finish and reserve it as such, making it large and airy, warm and comfortable and in every respect a desirable school room. The rest of the building shall contain rooms for the accommodation of thirty or more official visitors of the Band. And shall answer all the general purposes of a Band House. This, we feel will be cheaper for the Government than attempting to make the old school building. And at the same time it would provide us with a Band House and a school where it would be within easy reach of all during the winter months. We trust you will use your best endeavours to procure us the Six hundred dollars, and we subscribe ourselves

Yours servants  
 John Lupton Chief.
