The fiscal policy of the Opposition has usually been expressed in such vague, meaningless resolutions and apoeches that the public have had much difficulty in getting a clear idea of its meaning. Fortunately, however, the leader of the party, Sir John Macdonald, once came down to something practical. In a speech in the Province of Quebec, not long ago, after speaking of the obstacles presented to Canadian trade by the United States tariff, Sir John said:

"We were in favor of an exchange across the border on equal terms, of the products of the two countries, but we said then, and we say more the policy is this: If the United States will not grant us reciprocity of trade let us have reciprocity of the let us have reci

SMALL & FISHER. WOODSTOCK, N. B TO THE FARMERS OF MIRAMICHI We have been Manufacturing

IRON FRAME MOWERS or the last four years, and are now offering to the farming community this, the BEST MOWER. INTERCOLONIAL RAILWAY 1878. Summer Arrangement. 1878.

comoning greater excellence of mechanical simplicity together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant.—In construction they are similar to the celebrated Walter A. Wood's Iron Frame Mower, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured and sold last season, by the Wood Company of United States. We have over 500 of our manufacture now in use, every one of which (no exceptions) stands as a monument of the grand and unprecedented success of home manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces with a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Marithme Provinces.

For the coming harvest of 1877 we will manufacture LARGELLY in excess 95 our numbers of last season, and trust that our growing enterprise may find such inducements held out to it as will be commensurate with its merits.

Let it be remembered we have no hesitation at all times, in entering into a friendly competition in the field with any other machine in our market. ON and after MONDAY, 29th APRIL, trains will leave CHATHAM JUNCTION STATION ommodation for Rivere du Loup and Way Stations, at 4.35 p. m. all times, in entering into a friendly competition in the field with any other machine in our market. WEGUARANTEE OUR MOWERS TO BE INVERIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing else-where.
