NEW BRUNSWICK AND NOVA SCOTIA'S TRANS-ATLANTIC LUMBER SHIPMENTS.

J. B. Snowball's Annual Wood Trade Circular, showing the shipments of lumber from all New Brunswick and Nova Scotia ports for 1891, and containing other statistics of interest to the trade, is just out, and we make room for it almost in its entirety, as follows:-

CHATHAM, MIRAMICHI, DEC. 31st, 1891. The export of wood from this Province again shows a large falling off being 20,000 St. Petersburg standards less than last ar and 58,000 less than 1889. Every shipping port in the Province shows a marked decline in business, but the largest corease is from Miramichi, where the export was 8,000 St. Petersburg standards less than last year and less than half the ex-

port of 1883.

The export of spruce from Quebec, New Brunswick and Nova Scotia for this season was 199,806 St. Petersburg standards, those of the regular fishermen are not 2,000 standards in logs, against 5,000 standards last year, and 2,500 standards in logs, against 10,000 last season. I am never without a bottle, and if I feel constipated the least particle a dose or two of Angust Flower does the work. The beauty of the medicine is, that you can stop the use of it without any bad effects on the system.

It is rather an unpleasant commentary on the manners of certain Washington people that the Chinese Minister has to send tickets of admission with the invitations to his coming ball, so as to protect himself against a crowd of uninvited guests. Experience, caution is necessary. There seems to be a class of people who fail to regard the Chinese as anything more than objects of curiosity, and so see no breach of courtesy in attend ing the parties of the Chinese Ambassador.
