JOHN H. LAWLOR & Co.

THE LATE C. E. RAILWAY ACCIDENT: The coroner's jury, in their investigation of the late fatality at McNamee, found that the siding was laid some two feet nearer the main track than is usual, and that the inner rail was considerably lower than the outer one, which had the effect of canting the car still further towards the passing train. Late advices state that conductor Crook hank's condition is not very encouraging.
