ST. JOHN, N. B., SEPT. 7, 1907.

THE USE OF ALCOHOL.

end its eleventh congress, held at Stockholm has always exhibited ex- Game called. An error or a hit? treme caution in dealing with the question of prohibition. At the meeting just held, it was found that while the prohibitionists were in the majority, so many delegates were advocates of a less rigid policy, it would be unwise to introduce any resolutions which might not commend themselves to the minority. This at least was the intention of the framers of the programme, but before the meeting closed, the importance of subjects under discussion wrought a change. While endeavoring to avoid votes on questions of principle, the congress unanimously passed a resolution "halling with gladness every legislative measure having in view the total prevention of the use of alcohol by the vourse." Thus even those who

by the young." Thus even those who see some good in alcohol have freely admitted that they do not want any one else to use it, and will do all in one else to use it, and will do all in their power to prevent the spread of And right they were the evil among the younger generation. There's not a bit of doubt of that, The congress after coming to the con-The congress after coming to the con-clusion that alcohol is unnecessary in No brainstorms then; therapeutics as a stimulant excepting in rare cases, expressed the opinion that its use in hospitals as well as in private practice is to be deprecated; that is be reduced to a minimum in cases of absolute necessity and other stimulants employed in preference; that special diagnoses be made in cases in which alcoholic stimulants are used; and president of the best known cattle dealers in America, and president of the "brimming river," and God has taught them how to do it musically. were not such as would warrant him in disputing statements made by nature writers; and that animals, may be fully capable of deeds which have never come to the notice of Mr. Roosevelt.

There has during the past few months been a wide discussion on this nature faking subject, and Indeed at the present time some of the writers whose statements have been called in question, are waxing eloquent in their endeavors to point out to the President the errors into which he has fallen.

What's the sense in all this anyway? From the earliest ages animal stories have been as greatly exaggerated as those of recent publication, and no very serious harm has come of it. Supposing animals are credited with attributes which to most people seem beyond their instincts, who is to suf-

which may be created in the human rind will be beneficial rather than cherwise. Man is the only animal who lills for sport, and this lust for blood resulting in needless slaughter might be to some extent overcome if he learned to regard his victims as creatiures of intelligence. All animals fear man, and with good reason. This fear is not wholly instinctive. The higher opinion we have of birds, the less inclined will we be to wantonly murder them, and if our ideas can be improved. them, and if our ideas can be improved assumed that the boomerang was the creation of an older and higher civilibeen criticized by Roosevelt, then the more of such stories we read the better for the animals and for ourselves.

creation of an older and higher civilization, but for this there is no evidence. It must be the product of an age long empirical use of throwing weapons.—

TEACHER IS WISER NOW.

A prominent school teacher advised a city merchant to send his son to a certain business college, because it was the oldest established school. The merchant said he would look carefully into the matter before he decided. It took him about a month to decide. He then sent his son to the Currie Business University, and the following exand they produce more bona-fide records of profitable results—in brief, the Currie school is the embodiment of organized activity with each pupil a fighting unit—the others are business colleges for the study of theory. I patronize the higher development."

michi during the coming winter will be large. One of the North Shore operators says the cut on the Miramichi will be about 120,000,000 feet. Last year's total was 110,000,000 feet, 80,000,-000 feet of which was cut on the Southwest Miramichi and its tribu-

This action was due to the fact that the check for their wages was for a time yesterday afternoon threatened with demoralization. Six of the eight boys on the day staff went out on strike without notice. This action was due to the fact that the check for their wages was for a time yesterday afternoon threatened with demoralization. Six of the eight boys on the day staff went out on strike without notice. This action was due to the fact that the check for their wages was overlooked until after banking hours and could not then be cashed until to-day, hence the boys could not be paid. Substitutes were secured as speedily as possible, and it is quite probable that some of the strikers will not be allowed to go back to work.
