DORCHESTER, Oct. 21.-A case, the

result of which invokes universal sympathy, but which was the only

sympathy, but which was the only course to pursue, was tried before Justices Chapman and Wilson tonight, and in accordance with their judgment there are tonight behind the bars of the common jail the two youngest prisoners ever sentenced to imprisonment here. They are Ralph and Hanse Howe, colored, lads of ten and nine years of age respectively, neither exceeding three and one-half feet it height, who were charged and conheight, who were charged and con-victed for crulty to animals and sentenced to five days' imprisonment. These lads have almost since they were able to walk, been a constant source of annoyance to the people of Dorchester, and when on Wednesday last, a valuable horse, the property of Thomas Anderson, was seriously injured by a fall sustained while chased by them, it was decided that in fairness to the boys, steps should be taken to teach them a lesson and prevent the rapid progress they have been making toward an almost certain end. For this reason Mr. Anderson laid a complaint with the above result. In A r-loughing frolic was held on the delivering the judgment of the court, farm of J. O'Donnel on the 13th inst, amd a party was held in the evening.

D. McKnight has taken charge of a closer watch over their children, for the school in district No. 23 for the complaints have lately come to him which, if repeated, will force him to take proceedings similar to tonight's in which event the penalty of the law would be imposed to its fullest ex-tent. Before sentencing the boys, Mr. Chapman in a kindly way gave them much good advice, but, so far as appearances go, evidently with little effect. The young prisoners were ably n the Baptist church at the head of defended by John D. Brown. The funeral of the late Mrs. Whel-don took place from the residence of M. B. HOME FAILURES And Senious Losses from Use of

Common and Adulterated Dyes.

DIAMOND DYES Are Used by All Wise and Economical Women.

The only pure, harmless and suc-cessful package dyes for home dye-ing are the Diamond Dyes. The imitation package dyes and the common soap grease mixtures are so largely adulterated with foreign substances that they are positively dangerous to use and handle. No lady who values her garments and materials will care to risk the coloring powers of these adulterated dyestuffs. Suffice it to say, the colors are dult muddy and lifeless, and cannot stand the most ordinary washing.

The Diamond Dyes have a long rec ord of triumphs and well-done work that has never been equalled in the Listory of home dyes. In every part of the world they give delight and sat-isfaction, and are hailed as true money

Easy, pleasant and profitable home Easy, pleasant and profitable home dyeing is only possible with the tested and popular Diamond Dyes.

As there are still storekeepers who sell inferior package and soap grease dyes for the sake of long profits, see to it that your dealer gives you the Diamond Dyes when you ask for
