A Dangerous Boulder.
 The large rock boulder in the channel at the entrance of the harbor southeast of the fowl grounds buoy, has not been removed although the scow and diver have been working around it removing their booms for some time. This particular stone is still intact and shipping men say should be blown up with dynamite and taken away before the winter port business commences as it is dangerous to navigation. At low water there is only 19 feet of water over it at certain times of the year.

60TH ANNIVERSARY OF SONS OF TEMPERANCE

Occasion Well Celebrated by Local Lodges Last Evening--Prominent Workers Tell of Growth of Order.

Yesterday was the 60th anniversary of the organization of the Order of the Sons of Temperance and last evening the local divisions of the order celebrated the event by holding a reunion in the temperance hall, on Paradise Row. Grand Worthy Patriarch Hennigar presided, and there was a large attendance from all parts of the city. Several of the prominent temperance workers delivered short addresses during the evening.
 J. R. Woodburn, P. E. W. P., gave a sketch of the history of the Sons of Temperance. The order, he said, originated in New York in 1842 and five years later a division was formed in the City of St. John. The order grew rapidly in this city and soon spread throughout the province and the Dominion, increasing its power and influence and becoming an important agent in the promotion of the growth of a sentiment in favor of temperance.

Ex-Ald. Baskin gave an interesting and amusing description of his recent trip to the west, comparing conditions here and there, and telling some good stories to show that the Maritime Provinces are not in any particular need of going to the west for inspiration. His address was frequently punctuated by rounds of applause.

Rev. W. R. Robinson spoke of the progress made by the prohibition movement in this province, and of the development of the temperance sentiment through the Dominion generally.

W. H. Patterson, one of the first St. John men to join the order, also gave a brief address, reminiscent of his experiences as a life-long fighter in the cause of temperance.

TUBERCULAR CLINIC LARGELY ATTENDED

35 Patients Kept Three Doctors and Nurse Busy, Over-taxing Capacity of Room--New Quarters Needed.

About thirty persons attended the clinic for tuberculosis patients held in the board of health rooms yesterday afternoon. Doctors Skinner, Kenney and McAvenny were in attendance, assisted by Miss Rogers of the Victorian Order of Nurses, who is in charge of the dispensary.
 Dr. Skinner examined a number of children and advised their parents as to the precautions to be taken to prevent the spread of the disease in the home. Particular attention was paid to the care of the teeth by Doctor McAvenny in his remarks to the patients.

Miss Rogers, who was sent to New York to take the special course in the treatment of consumption at the expense of the St. John Society for the Prevention of Tuberculosis, will be employed by the society to visit homes where she directed her course has been its appearance and give practical demonstrations of the most approved methods known to medical science of taking care of the patient and preventing the infection of other members of the household.

Further Educational Work.
 A great deal of educational work has already been done by the society, and it is hoped that with the aid of the specially trained nurse, who will devote most of her time to the war against the white plague, it will be possible to stamp out this disease in St. John before many years have passed.

Miss Rogers anticipates a great increase of work during the coming week and immediate need of suitable rooms for a dispensary is now obvious, as those furnished by the courtesy of the board of health were proved yesterday quite inadequate. It is expected the tuberculosis association will promptly call a meeting to decide something definite with regards to the matter.

GOVERNOR COBB OFF ROUTE NEXT WEEK

Eastern Steamship Co. Have Chartered Fine Passenger Steamer for Use Between Florida and Havana.

Travelers to Boston by the International steamship route will miss the Governor Cobb this winter. The Governor Cobb, which was employed in the freight and passenger business last winter, running between Knights Key, Fla., and Havana, has been chartered for the same route the coming season. She gave such good service on the previous occasion that the company engaging her will put her in commission one month earlier than last winter.
 She will probably come off the International route on Tuesday next and will go to Boston to undergo an overhaul and cleaning before leaving for the South, which will be about October 20. The steamer Calvin Austin, which has been running the past summer on the direct route between Boston and St. John, will take the place of the Governor Cobb.

PRIVATE SESSION IN SCHOOL ENQUIRY

F. H. Barr, Who Made Charges Regarding Winter Street Heating, and J. H. Doody, Contractor, Heard Yesterday

A private session of the school board investigating committee was held yesterday afternoon, with M. Coll in the chair.
 F. H. Barr was heard in connection with the charges preferred by him to the effect that J. H. Doody, who was awarded a contract for installing the heating apparatus in the winter street school, had not performed the work in accordance with the specifications. J. H. Doody was also given a hearing.
 The chairman of the committee when seen at the close of the session, said he had nothing to say for publication at this stage of the proceedings. The committee would make a thorough investigation into the questions raised by Mr. Barr, and report to the full board, when its findings would be made public. Another meeting of the committee will probably be held Saturday afternoon to take further evidence.

Mr. Barr stated last night that he had nothing to say while the investigation was in progress. "The members of the committee are gentlemen, and I am quite satisfied that they will bring in a verdict in accordance with the facts of the case," he added.

Comparison Will Prove That It Pays to Buy Suits Here

In order to fully appreciate the value of our Suits you must compare them with Suits sold elsewhere... There are three questions that enter in when you begin to compare prices of clothing, they are first quality, second fit, and third, style. If you can get all these equal, then prices count. You cannot tell by looking at a garment through the window whether it contains all these qualities or not. You must get your fingers on the goods, examine the linings, and try one on. If you will compare our suits in this way others, you will then understand why this has been the biggest Suit year we have ever had, and that our Suits have no equal at the prices.
