

BRITISH FACE HUNGARIAN ON THE OLD HINDENBURG LINE

OUR TROOPS IN TRENCHES FORMERLY OCCUPIED BY ENEMY

Australian Forces Share With Men From Mother Country in Attack That Proves Successful—Germans Withdraw in Face of Heavy British Attacks—Enemy Attempts to Enter British Trenches Repulsed With Heavy Losses.

British Army in France, Sept. 11. (By the Associated Press.)—British troops today gained a footing in Peziers and Epehy, on the railroad between Reims and Marconville.

In general, the British are continuing to close in on the Hindenburg line by a series of small actions and manoeuvres. The line in the northern part of the battle zone has now been advanced through the village of Theault, 2 1/2 miles southward of Marconville, to the eastern edge of the place, where the troops are actually in the old British trenches facing the Hindenburg line.

In the south Australian troops have advanced in the area from Verdun to the outskirts of Attilly, on the edge of Hot-Non Wood, from the other side of which the whole of that country up to the famous German defensive positions and the spurs of St. Quentin are clearly visible.

In the centre the British have gained a footing in Peziers and Epehy this morning an attack was launched against the enemy trenches northwest of Peziers. The enemy trenches were stormed during a down-pour of rain. The troops are reported to have their objective although the advance was made over ground with oozy and slippery mud.

The enemy has delivered several small counter-attacks. The line west of Gouzeaucourt was attacked last night but the advancing Germans were met with withering machine gun fire and were repulsed.

Another party tried to enter the British trenches southwest of Moeuvres but was repulsed with comparatively heavy casualties.

The enemy delivered a hurricane bombardment in the Senisee Valley last night and soon after the British posts north of Ecoust-St. Quentin were attacked and some of them were withdrawn.

In the north British patrols have penetrated through Pont-De-Nieppe, without meeting with opposition. In this area the Germans apparently have withdrawn for some distance. More posts were established by the British south of the River Lys during yesterday evening and last night.

A heavy rain still is falling over the whole area and many of the smaller streams have been flooded. In the Flanders lowlands the ground has become almost impassable. There are no signs of the weather clearing. Luckily in the Somme region the ground made most difficult by the fall of heavy rain has been left behind by the advancing British.

HUN STATESMAN READY FOR PEACE

Significant Statements By Count Czernin Made With Approval of Emperor.

London, Sept. 11.—Fuller reports of an interview given by Count Czernin to the Neu Freie Presse, of Vienna, which, according to newspapers of the Austrian capital was warmly approved, if not actually inspired by Emperor Charles, show that the Count declared among other things:

"We must not again try to stray from peace by understanding, otherwise the war will continue until friend and foe alike have perished."

"The opposition to disarming," Count Czernin is quoted as saying, "is the greatest of all obstacles to peace. Therefore I regard this opposition as a serious mistake."

Concerning the league of nations Count Czernin continued:

"I must admit that the league of nations is envisaged by Entente statesmen and intends to secure Entente predominance and therefore is unacceptable to us. But I deny that no single form could be found that would impose equal rights and duties upon all states."

Count Czernin concluded his interview with a call for peace as follows: "From the banks of the Danube no claim ought to go forth to the world: 'Wake up, wake up from the bad dreams of blood and force, for a new and better future must be shaped. War as a political means must be combated.' The day will come when millions in all countries will repeat this call."

ANGLO-CANADIAN CHURCH TAKES APPEAL FOR CHURCH UNION

This the Feature of Archbishop Matheson's Address At Opening Session of Church of England General Synod in Toronto.

Toronto, Sept. 11.—"The men will have nothing to do with any church which formulates religion in terms of divisions. These words were contained in a letter from a chaplain at the front, gave Most Rev. Archbishop S. P. Matheson, primate of the Church of England in Canada, the text for a forceful appeal for church union in his opening address at the General Synod of the church, which began its sessions here today.

"What are we of the Church of England going to do about this?" he asked. "I plead that, as a church, we really do something tangible and practical."

His Grace also came out strongly against any delay in the adoption of the revised prayer book, which was given a tentative permission in order to claim for the church in Canada the independence of a grown-up daughter.

"The strong theological and ritual distinctions in the mother church, he feared, would either result in dead dog, or radical changes there would transfer those lamentable divisions to Canada."

He also pleaded for a strong support of home missions, and for a more fully trained ministry.

At the opening service in St. James' Cathedral the sermon was preached by the Bishop of western Michigan and at the afternoon session of the house of delegates Very Rev. Dean Carter, the senior minister, was elected prolocutor of the lower house, in succession to the late Canon Powell.

In presenting the treasurer's report at the evening session Judge McDonald of Brockville stated that royalties amounting to \$5,593.14 had been received in the last three years from the publishers of the book of common prayer. The report showed receipts of \$24,837.97, disbursements \$19,244.70, leaving \$5,593.27 cash on hand, against \$4,412.40 at the last session.

The house of bishops concurred in resolutions the house of delegates for joint session on prayer book revision on Monday morning, and for a joint session Thursday afternoon to hear returned chaplains in order to inform itself of the attitude of the men overseas to the church and its services.

The lower house concurred, after some discussion, in a resolution of the house of bishops to appoint a joint committee to consider the advisability and possibility of establishing a church newspaper under the auspices of the whole church, and if this were found possible, to take the necessary steps to establish such a paper, but added a rider that the committee report its conclusions to the synod before taking action.

On motion of Charles Jenkins of Peterboro, Ont., a resolution was sent up to the house of bishops asking for the appointment of a joint committee to consider the furnishing of the prime of such official and financial assistance as might be found necessary to this work.

Archdeacon Holcroft gave notice of motion that the synod endeavor to secure provincial legislation throughout the Dominion to require a medical certificate of freedom from venereal and other communicable diseases as a requisite to obtaining a majority license and for the prevention of the majority of feeble-minded.

GERMAN SOLDIERS WILLING TO QUIT

Fighting Spirit of Kaiser's Armies Rapidly Ebbing Away—Captured Letters Indicate Hopelessness.

At British Army Headquarters, evening, Sept. 11, (Canadian Press despatch from Roter's L.L.)—Roter's correspondent cables:

"The state of the morale of the German army is indicated by the despatch of the prisoners of the Second Guards Division of the Corps d'Elite which was withdrawn from fighting less than a thousand in strength. Prisoners are heartily glad they surrendered and urged our men to continue the attack, assuring them that there were swarms of prisoners only too anxious to surrender. Letters found on prisoners are nearly all couched in terms of hopelessness or resentment.

"Rationnaires continue to swell the streams and the foundations caused by damming them, have spread until the country now under water extends from the Sennese to the Marquon and L'Escant Canal."

Correct Dress For Men

Fall Overcoats

Time is the most convincing evidence for or against clothing. Time—past tense—has testified in favor of these garments. Time—present tense—is prepared to testify to their individuality, durability and style.

Grey Chesterfields and slippers, in several shades, standard, smart models, from \$15 to \$30—ready for service. We can strongly recommend them.

Gilmour's, 68 King St. Clothing, Tailoring, Shirts, Neckwear, Military Outfitting.

DIED.

COLLINS—On September 8th Timothy Collins, at his home 20 Richmond street, leaving a wife, one son and two brothers. Funeral from his late residence, 20 Richmond street, Thursday morning at 8.15, to the Cathedral for High Mass of Requiem. Friends invited to attend.

HUGHSON—On the 11th inst. Roberta Harriet, infant daughter of Jas. W. and Mary E. Hughson. Funeral Thursday, at 3 p. m., from her parents' residence, 73 Harrison street.

PERSONAL.

Nursing Sister N. Sommerville, Halifax, was a visitor in the city yesterday and left for Sussex in the evening.

S. C. A. HEAR OF SUMMER'S WORK

Large Total of Socks Received For Three Months—Miss Arnoldi To Visit City—Several Donations Made Recently.

The regular monthly meeting of the Soldiers' Comforts Association was held at Centenary Hall yesterday afternoon. Mrs. H. A. McKee, president, was in the chair, and the members were pleased to have their Honorary President, Mrs. George McAvity, with them yesterday.

The wool committee report was read as follows: Pairs of socks, June, July and August, 4,664; 98 other articles; for total work 2,000 lbs. of wool has been purchased.

There is great regret that Mrs. Holly is obliged, through ill health to resign as convener of the wool committee, where she has done such splendid work. Mrs. Holly will still remain treasurer. Mrs. C. F. Sanford was appointed wool convener. Miss Edgett has been appointed secretary at the rooms.

Reports were read from The True Canadians who have sent 73 boxes and raised \$48.07, and from the West Side S. C. A., who report 378 pairs of socks, \$30 from the sale of quilts and \$88 from a play held and \$175 at a Garden Party.

The Rothsay Tennis Club donated \$50 to the S. C. A. and the Chipman S. C. A. sent in \$50.

Plans are being made for the visit of Miss Joan Arnoldi of the Field Comforts who will be heard at a public meeting. It was announced that Christmas parcels will be sent by the middle of September.

LOCAL RED CROSS MEETS AT ST. DAVID'S

Address Given By Mrs. G. A. Kuhring—Reports From Various Committees Show Good Work—More Moss Graders Needed.

Following their plan of meeting with the different branches, the local Red Cross held their monthly meeting yesterday at St. David's church. Mrs. J. A. McAvity presided and members of the executive were on the platform with Mrs. Wilfred Campbell, President of St. David's Red Cross Circle. Mrs. A. Morrison, a former president, and Mrs. Kuhring.

McLeod reported 413 pairs of socks, Mrs. Campbell said a few words, welcoming the members to St. David's, to which Mrs. McAvity replied. Mrs. F. S. White, for the needlework committee, reported 10,530 articles in three months and spoke of the Christmas stockings now ready to be taken out for filling. Mrs. Vroom for the wool committee reported between 3000 and 4000 pairs. For the C. W. C. A. Mrs. McLeod reported 413 pairs of socks and made an appeal for mittens for which wool will be supplied. Miss Stetson, told of the packing done (122 boxes) and Mrs. Harding of the surgical dressings committee stated that in five weeks 2,000 dressings of sphagnum moss had been made. She spoke of the great need for more graders for this work. Sussex is the only outside place helping, and that branch has done splendidly.

A resolution of sympathy was moved for Mrs. E. R. Taylor, Mrs. Ellis and Mrs. Lawrence, in the sorrow which has come to them. This was moved by Mrs. Campbell, seconded by Mrs. Annie Schimmell, and passed by a standing vote.

Mrs. Kuhring then told most descriptively of the Red Cross in Great Britain, and how they care for wounded soldiers. Her talk was greatly appreciated. The National Anthem closed the meeting.

SEPTEMBER EXPECTED TO BE MONTH OF HORROR IN RUSSIA

(Continued from Page One.)

sheviki are now harassing them in every possible way. A brutal class war is encouraged by exhortations daily in the Bolshevik newspapers to continue attacks upon the bourgeoisie and even to take their lives.

But bad as conditions are now in Moscow and in Petrograd, a worse situation is expected by the intelligent classes if an interregnum takes place. The spirit of vengeance is so strong and the feeling so bitter against the Jewish leaders, that the Jews generally is feared. Such riots never are confined to one class in Russia, but expand into general murder and the most apparent abandonment of European Russia by the Germans has led to the belief that their experience in the Ukraine has caused them to cease their efforts to establish a monarchy or to support any other new government friendly to them.

The Russians are helplessly pleading for outside assistance, Democrats and other Bourgeoisie friendly to the Germans are now turning to the English and the United States to help them to establish a monarchy or to support any other new government friendly to them.

The Czechoslovak movement beyond the River Volga has gained the support of factions favoring constant assembly, and it is making the more reactionary programmes impossible, as Siberia generally is conceded to be the key to reconstruction in European Russia.

Somewhere among the social revolutionaries, probably among those of the Right, a leader is expected to develop who may eventually crystallize the opposition to the Bolsheviks.

M. Tchernoff, former minister of agriculture and chairman of the suspension assembly and General Boris Savinkoff, former military commander of Petrograd, and acting minister of war in the Kerensky cabinet are the most conspicuous names of the revolutionaries at present. Their whereabouts are unknown, but General Savinkoff is reported to be in Siberia.

THE YELLOW TICKET

The Yellow Ticket, starring Fannie Ward, was given an invitation showing at the Specialty Film Import Exchange yesterday. This is a timely exciting picture, depicting conditions which are known to be true in Russia. It gives Fannie Ward more opportunities to display her talent as an actress than others in which she has played, as the situations are very dramatic. The story is a gripping one, well acted from start to finish.

THE ROTARY CLUB

A meeting of the Rotary Club was held last night in the Board of Trade building with F. H. Quirk in the chair. Plans for the field day to be held on Saturday on the Barrack Square were discussed and committees reported the progress made. The meeting was for the success of the field day.

GOOD SHOW AT THE LYRIC NEW PROGRAM.

The King Musical Company will be seen tonight in the laughable comedy, "Oh, Doctor!" This is a good farce, with plenty of fun and several big song hits. Mr. Charles Bangor is the producer and under his efficient direction promises to be a sure fire hit. Matinee every day at 3. Two shows at night, 7:30 and 9 o'clock.

FUNERALS.

The funeral of Mrs. Ellen N. Bonner took place yesterday morning from her late residence, 395 Brunswick street, to the Cathedral, where high mass of requiem was celebrated by Rev. Robert Fraser. Interment was made in the new Catholic cemetery.

TRY MAGNESIA FOR STOMACH TROUBLE.

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion if you have already tried peppin, bismuth, soda, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little disburated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk but the pure disburated magnesia which you can obtain from practically any drugstore in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your meal, and you will see a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seem to follow most everything you eat.

You will find that provided you take a little disburated magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort or follow and moreover, the continued use of the disburated magnesia can not injure the stomach in any way so long as there are any symptoms of acid indigestion.

These City Physicians Explain Why They Prescribe Nuxated Iron

TO MAKE HEALTHIER WOMEN AND STRONGER, STURDIER MEN Now Being Used By Over Three Million People Annually.

By enriching the blood and creating thousands of new red blood cells, it often quickly transforms the flabby, anaemic tissues and pallid cheeks of weak, anaemic men and women into a glow of health. Increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

It is conservatively estimated that over three million people annually in this country alone are taking Nuxated Iron. Such astonishing results have been reported from its use both by doctors and laymen, that a number of physicians in various parts of the country have been asked why they prescribe it so extensively, and why it apparently produces so much better results than were obtained from the old forms of inorganic iron.

Extracts from some of the letters received are given below.

Dr. Ferdinand King, a New York Physician and Medical Author, says: "There can be no vigorous iron men or healthy rose-cheeked women without iron. Pallor means anaemia. Anaemia means iron deficiency. The skin of anaemic men and women is pale; the flesh flabby. The muscles lack tone, the brain fags and the memory fails and they become weak, nervous, irritable, despondent and melancholy. When used for treating iron deficiency, Nuxated Iron prescribes more organic iron—Nuxated Iron—for their nervous, run-down, weak, haggard looking patients."

Dr. A. J. Newman, late Police Surgeon of the city of Chicago and former Honorary Surgeon, Jefferson Park Hospital, Chicago, in commenting on Nuxated Iron, says: "This remedy has proven through my own tests of it to exceed any preparation I have ever used for treating iron deficiency, building up the nerves, strengthening the muscles and correcting digestive disorders."

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), N. Y., and the Westchester County Hospital, says: "In my opinion a careful examination of the formula of Nuxated Iron, by any physician or pharmacist, should convince him that it is to be placed above all other remedies of the very highest class and most strictly ethical preparations known to medical science. It exceeds anything I have ever used for building up the system and increasing the red blood corpuscles, thereby enriching and fortifying the blood against the ravages of disease."

Dr. Schuyler C. Jaeger, formerly Visiting Surgeon of St. Elizabeth's Hospital of New York City, said: "I have never before given any medical information or advice for publication, as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel it would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results."

Dr. T. Alphonse Wallace, a physician of many years' experience in this country and abroad, says: "I do not make a practice of recommending standard medicinal products, but I have found Nuxated Iron so potent in its action, run-down conditions, that I believe all should know of it. If people would only take Nuxated Iron, instead of dosing themselves with habit-

Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard which in our opinion possesses superior qualities to any other known form of iron. By using other makes of iron Peptonate we could have put the same quantity of actual iron in the tablets at least that one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost; but by so doing we must have most certainly impaired their therapeutic efficacy. Glycophosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycophosphates are said to contain phosphorus in a state very similar to that in which it is found in the nerve and brain cells of man.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonate and Glycophosphates) are very expensive products as compared with most other tonics. Under such circumstances the temptation to adulteration and substitution by unscrupulous persons is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron" by the Dae Health Laboratories, Paris, London, and Detroit, U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you. We guarantee satisfaction to every purchaser or your money will be refunded.

MANUFACTURERS' NOTE: Nuxated Iron which is prescribed and recommended above by physicians is not a secret remedy but one which is well known to druggists everywhere. Unlike the other inorganic iron products it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Watson's Drug Store and all druggists.

Money Loose is Money Spent

If you hope to rise above the dependence on daily earnings, you must learn to save money. Saved money means capital, and capital means ability to take advantage of opportunities offering, used some day you become independent.

The Bank of Nova Scotia will welcome your Savings Account and give you every possible service and attention.

THE WEATHER

Forecast: Maritime—Moderate winds, shifting to east and southeast; fair during the day, showers in western districts at night.

Northern New England—Rain Thursday or Thursday night and probably Friday, warmer Thursday. Moderate southeast to south winds.

Toronto, Sept. 11.—A moderate disturbance is centered tonight over the Great Lakes, causing rain throughout western and northern Ontario. The weather has been fair and cool in Quebec and the Maritime Provinces, and fine and warm in the west.

USED AUTOMOBILE.

Owing to the Express Company's strike the Specialty Film Import Ltd. delivered their glass yesterday to points between Moncton and Campbellton, and Windsor and Digby, by automobile.

False Modesty

has led many a suffering person to neglect the treatment of piles. The itching, stinging sensations produce the keenest distress. The thought of a surgical operation brings mental anxiety which undermines the general health.

Relief can always be obtained by the application of Dr. Chase's Ointment, and in most cases persistent treatment brings about complete cure. This ointment is worth trying when you think of the comfort to be obtained.
