SMITH'S FALLS THRESHING MACHINES. MANUFACTURED BY Frost & Wood, Smith's Falls, C.W.

THESE Celebrated Machines, to which the attention of the Agricultural public is called, have during the past sassons given the most entire satisfaction. Their superiority wherever they have been introduced and brought into competition with other. Machines have been universally acknowledged by all who have used them, both for Duras bility, case of Draft, and the thorough and effective manner of their operation. Our SEPARATOR (capacity, four to ten horse power) for the coming season will be superior in every respect to any ever before made, as our aim is to excel every manufactory in the Province, in producing first class werk. In their construction none but the

very best materials are used frames well put together—cylinders run in copper boxes, which is a great improvement, tablet metal indexes where necessary, and everything is get up in the very hest manner and with the latest improvements. If we have the latest improvements and with the latest improvements. The DOUBLE PINION HOUSE POWER by which we drive the Separator and which we have much improved, is elebrated for great simplicity, case of draft or effective power, costs less to keep in repair, and is very strong and dutable.

Parties who intend getting Machines for the couring season, are respectfully invited to examine ours before purchasing elsewhere, as we are satisfied that they are the best and most reliable in the Provinces.
