ALMA ST. U.B.
Services in the Alma St. U.B. Church Sunday Feb. 3, 1919 Mr. C.J. Bell of Toronto field secretary of the Dominion Alliance addressed a large congregation in the morning. The message had an optimistic ring as the speaker rehearsed the history of the great fight against the liquor traffic.

Mr. Bell said "The white flag of prohibition floats proudly over every province except Quebec and there it is to be hoisted shortly. Yet we must remember that our victories are temporary unless the righteous will of the people continue to make them permanent. The liquor traffic has always been in the law breaking business and will be very active in that business for the liquor men wish the discredit of the law. The prohibition law is not working perfectly, neither is any other law on the statute books. We look our doors every night because the law against robbery is not working perfectly, but it works admirably and no sane man would think of repealing it because there are cases where the law is broken. The prohibition law works admirably and it is up to the Christians to see that it is enforced."

This was one of the best addresses ever given in the church and a large subscription was taken up for the work of the Alliance. The pastor spoke in the evening on "The Inner Circle" from Exodus 33:21. The Annual Christian Endeavor Rally and Business meeting will be held in the Church tonight Feb. 3, 8 p.m. The chief address will be given by Miss Elma Bergoy who has just returned from France where she was serving her country and humanity as a nurse during the war.

WILLIAM S. WATSON'S STATEMENT.
LONDON, Feb. 3. Watson, a member of the Shop Stewards National administrative council, declared today.

Watson frankly admitted the shop stewards sympathize with Bolshevism and declared they hope to participate in the international revolutionary congress to be called by Premier Lenin. "The shop stewards hope to establish revolutionary committees like those in Russia," said Watson. "The present strikes are the first step toward socialization of British industries and their control by the workers. We sympathize with Bolshevism philosophy and hope to enter the international revolutionary congress to be called by Lenin."

Peace Committees Are Making Good Progress
NOTE ON RUSSIAN SITUATION.
PARIS, Feb. 3.—The special committee, to which details of the peace settlement are referred, are doing their work efficiently and rapidly, according to Foreign Minister Pichon.

"Some people may have taken it for granted that little work is being done, because the plenary sessions are infrequent," he said. "But the special committees are now at work. Soon results will begin to show with greater continuity and the work of the conference as a body will be maintained on a schedule of greater regularity."

Regarding the Russian situation, M. Pichon said the position of the allied troops on the Archangel front is not desperate. He declared that while the Bolsheviks are strengthening their army in that region, they are being defeated in other parts of the country and that this condition must soon have an effect on the northern front.

"The greatest hold of the Bolsheviks on the people is that the people are led to believe that if they are beaten their land will be taken from them," said Pichon. "If we could show the people that their land will remain in their hands, three-fourths of Russia would be against the Bolsheviks."

The News Record is now sold to the carrier boys in wholesale quantities; they sell and distribute them to their patrons. Being "merchants" instead of mere "newsies" they will be very careful to give a prompt service every day, and not miss a single customer any evening.

They will receive 33 1-3 per cent. for delivery and collecting the sums due them. The customer will benefit by earlier and regular delivery and should he prefer to pay the carrier ten cents each week, will save twenty cents a year.

While the papers will be sold to the boys, this office will continue its interest in the delivery. The office will remain open every evening until 7 o'clock to receive complaints, should there be any, and to see that subscribers receive their papers.

An Honor Roll for News Boys

An honor roll will be established and the names of the carriers who have made perfect deliveries during each month will be published, and a reward made. Assistance will, wherever necessary, be given the boys in collecting subscriptions in arrears.

The assistance of our subscribers in making it a practical success is cordially invited.
