By a species of instinctive feeling, the people of mearly all countries are greatly averse to those medicinal preparations which contain mineral substances amongst their ingredients And yet, if the question was saked why they objected to this class of medicines, we presume few could give an intelligent answer. Nevertheless, the aversion is well onnded. All mineral substances, when token into the sto-

mach, are cumulative in their nature-that is to say, they remain either partly or wholly in the system and accumulate with each additional dose, until in many cases the result is death. For example, ar senic, although known to be a deadly poison, yet in certain parts of Switzerland is extensively used by the mountain guides as a means of giving them, walgarly speaking 'long wind.' But although it is thus beneficial for a time, the ultimate result is al-

BRISTOL'S SARSAPARILLA

in this country is to be escribed. It is prepared from the best quality of the Sarsaparilla Root, with which are combined other cleaning purifying, and healing roots, harks, leaves, and balasmic gums—the whole, without doubt, making the best deparative and most valuable medicine known to the faculty. The preparation of this great remedy is carried on under the personal supervision of the most scientific chemists and pharmacentists, and none but the choicest ingredients are ever allowed to enter into its composition. The result is, that its action is always unitorm and reliable. Its effects upon the

In every case when there is reason to suspect the blood and humors of bring impure or viriated from whatever cause, Bristol's Vegetable Sugar coated Pills should be used in conjunction with the Sarsa-

the softness of skin produced by its use taking away the natural inclination of the curicle to form into ridges and furrows. Murray & Lanman's Porida Water is really the most delightful and efficacious of totlet waters, every thing entering into its composition being of the finest quality, and so combined as to secure their best effects. It never changes nor alters, keeping for any length of time, and in any climate, as delicate and fresh as at the moment of its preparation. It is also very extensively used as a dentifrice, on account of the

EXQUISITE FRAGRANCE

which it leaves in the month. The proportions should be about a tea-spoonful to a glass of pure water It neutralizes the minute particles of food lodging in the mouth, and which are the prolific cause of decayed teeth, bad breath, and unbealthy, white locking gums. Moreover, by the use of Mur-ray & Lauman's Florida Water the breath is made sweet and pleasant, and the teeth whire without any danger of injuring the enamel, a difficulty existing with nearly all the mouth letions and powders for the teeth. As a general thing ladies who make any pretensions to refinement desire to have

We believe that there is nothing will tend more to preduce this effect than the constact use of Murray & Lanman's Florida Water mixed with the water in he basin. It removes reduces and roughness. The Indies of Cuba and South America were the first to discover the extraordinary virtues of this flural water as a cosmetic and, after twenty five years of everygrant distillation combining all the requisites for a eafe and reliable beautifier of the skin, as well as an exquisitely delicate perfume Probably the most distinctive feature of Murray & Lanman's Florida Water is its wonderful
