

059702

To be translated into French:

My dear George:

Your very kind letter of the 21st June has just reached me. I am indeed glad to know that you have been successful in your year's work and that you have won the prize. But one would only have to read your letter to tell that you were making good progress with your studies. I have the Happiest recollections of my visit to L'Epiphanie and I sincerely trust that you will receive as much pleasure in winning the medal as I got by ^{donating} ~~denoting~~ it.

I send my kindest regards to your father and my best wishes and believe that when you take up next year your more advanced work your success will be equal to, if not greater than, the success of the School year just closed.

Yours very truly,

G.A. Dufort *etc*
